**Land of the Sky Blue Water**  
BABE was Paul Bunyan's big blue ox. He was quite a sizable animal although not all lumberjacks agree as to just how big he was. Some say he was seven axe-handles between the eyes but others declare the figures should be 42 axe-handles and a plug of tobacco. However, all agree that Babe could pull anything that had two ends to it. Paul often used him to pull the kinks out of crooked logging roads.  
Occasionally Babe would run away and be gone all day. Paul was the only one who could track him because his footprints were so far apart that an ordinary man couldn't see from one of them to the next one. They were pretty deep, too. Once a settler and his wife and baby fell into one of these footprints and the baby was fifty-seven years old before he finally climbed out and reported the accident.  
The winter of the blue snow Babe went on one of these rambles and wandered all over the present state of Minnesota. When the snow melted the next spring the water filled in footprints and that's why Minnesota is now known as the Land of Ten Thousand Lakes—the "Land of the Sky Blue Water."
