

THE GLEANER

GRAHAM, N. C., NOV. 5, 1936

PERSONAL

Miss Lizzie Pickard of Greensboro spent the week-end at home here.

Erwin Moran of Winston-Salem spent the week-end here with Elliott White.

Chas. D. Johnston of Elon College was in town today on business.

Dr. W. H. Stratford has returned from New York to his home, near here.

Bob Henderson, at High Point College, was at home for the week-end.

Mr. and Mrs. G. P. Cobb spent the week-end with relatives in Rockingham.

Amos Harris of Roseboro spent the week-end at the home of Mr. J. P. Geanes.

James White, at the University, Chapel Hill, spent the week-end at home.

Miss Ruth Henderson, teaching near High Point, was at home for the week-end.

Miss Ruth Wicker, teaching at Asheville, spent the week-end at her home here.

Miss Ada Denny has returned from a visit of several days with relatives in Danville.

Miss Dallis Henderson of Greensboro spent the week-end with her sister, Mrs. S. E. Freeze.

Mrs. William Harden and son, Billy, are visiting her sister, Miss Lucile Johnston, in High Point.

Mr. and Mrs. N. B. Etheridge of Norfolk are here visiting their daughter, Mrs. W. I. Browning.

Miss Ruby Roberts of Black Mountain spent the week-end here with Miss Minnie Bradshaw.

Miss Ruth Ward spent the week-end in Philadelphia and attended the Army-Penn. football game.

Col. Don E. Scott spent the latter part of the past week at the hosiery convention at Pinehurst.

Mrs. Gales Bradshaw and children of Durham spent the week-end here with her mother, Mrs. J. G. Black.

Misses Ruth Walker and Elizabeth Thompson of Spring Hope School faculty were at home for the week-end.

Melvin Thompson, located at Louisville, spent the week-end at home with his mother, Mrs. J. Mell Thompson.

Clarence Bradshaw, Mrs. Gales Bradshaw and Miss Lavona Black visited Clem Bradshaw in Roanoke, Va., Sunday.

Dr. and Mrs. Jesse Weatherby and Mrs. E. S. Parker, Jr., of Richmond spent the week-end here with Miss Mamie Parker.

Mrs. Leo Flanigan and her two children left Tuesday for her old home in Darlington, S. C., for a visit with her parents, Mr. and Mrs. M. M. Yates.

Mr. and Mrs. J. Clarence Walker and Misses Hattie Hester and Mabel Walker were in Reidsville last Saturday attending the funeral of Dr. J. S. Wells.

Dr. and Mrs. D. E. McConnell of Gastonia and Mr. and Mrs. Dan McConnell of Greensboro visited Mr. and Mrs. Don S. Holt here Sunday. The former are the parents and the latter the brother and sister-in-law of Mrs. Holt.

Junius H. Harden of Providence Memorial Christian church and J. D. Kernodle of Graham Christian church, on yesterday, attended the 68th session of the Western North Carolina Christian Conference at Needham's Grove, Moore county.

Rt. Rev. Edwin A. Penick, Episcopal Bishop of the Diocese of North Carolina, Raleigh, and Mr. and Mrs. G. O. Steinbach and daughter, Catherine, of Forest City; Mr. and Mrs. J. W. Hinsdale, of Sanford, were in Burlington Sunday to commemorate the 25th anniversary of the dedication of the Holy Comforter P. E. church. The Steinbachs were Saturday night guests of Mr. and Mrs. J. Dolph Long and on Sunday the Hinsdales and Bishop Penick were guests of the Longs. Bishop Penick remaining over for the night.

Onslow county farmers report more hay than ever before, due to soil conservation program.

County Agricultural Building-- Work Commenced.

A building for housing Alamance County's agricultural department and other interests not strictly connected with the county government official family has been commenced, the building to be of brick construction. Excavation for the foundation is under way and material to be used is being placed on the ground.

The site of this new building is on N. Elm street, across the street immediately north of the county jail. It is the corner lot, which the older people will remember as the site of the blacksmith shop of Martin Van Buren (Faucette), colored, and his home.

The building will be one-story, 70 x 80 feet, and will contain offices for the County Farm Agent, white and colored, Home Demonstration Agent, County Welfare offices, and auditorium of 200 seating capacity. A heating plant and storage room for fuel will be in a basement for the purpose. This, no doubt, will become the meeting place for various county groups—a sort of community center.

The location is only one block west of the Court House square, and convenient enough to the Court House for quick contact, whenever necessary to transact any business with the county. It should prove a very valuable adjunct in relieving the court house of the various interests which now have quarters there, and which now occupy rooms that are now and will be needed for records which properly belong in the court house for easy access.

The new building is estimated to cost around \$13,000, and will be rushed to completion as rapidly as weather conditions will permit.

The Orphanage at Elon College

In this issue, on page 8 (back page), appear the pictures of the three main buildings of the Christian Orphanage at Elon College. This is a church institution—denominational, but not exclusive. Up to its ability to care for orphan children, it is the policy of the institution to receive, care for and train worthy applicants.

The buildings pictured were not all built and equipped at the beginning, as you will see from the legend beneath each picture.

The institution had a small beginning, and the facilities have been increased as rapidly as funds could be provided and would have been increased faster, if funds had been available. At all times the orphanage has had more applications than it could accommodate and care for.

The supreme purpose of the institution is to take children and train them in Christian living and citizenship—make of them useful, industrious and honorable men and women; as near as possible to give them an equal chance in the race of life with the more fortunate ones. It's a great responsibility that the institution assumes when it admits a child into its family. The responsibility is both moral and financial. Limited means is the greatest handicap to its usefulness. Donations are always in order and gratefully appreciated. In behalf of this worthy institution, each one who may read this is asked to be a helper of it in a substantial way.

Mrs. Patterson Stricken in Register of Deed's Office—Condition Serious.

Mrs. L. L. Patterson, deputy in the office of the Register of Deeds, of Burlington suffered a severe stroke of paralysis this morning while at her work in the office. A few moments after the stroke she uttered a few words, then lapsed into unconsciousness. The latest report is that there has been no improvement and her condition very serious.

Mrs. Patterson has been an efficient deputy in the office for nearly four years and many will regret to learn of her illness.

Terraces recently constructed in Randolph County have withstood the heavy rains in recent weeks and have won favor with farmers.

A difference of 2.4 tons of cured hay an acre was secured by S. J. Kinsland of Macon county from Korean lepedeza following wheat where triple superphosphate had been applied.

Good Farming Program Saves Soil, Moisture

Soil conservation and water conservation go hand in hand, says E. C. Jernigan, project manager of the Soil Conservation Service in Davidson county. Both depend upon a well-planned farm program in which soil-building practices play the most important part.

Five simple and inexpensive farm practices are suggested by the Soil Conservation Service and State College Extension Service as contributory to soil and water conservation. They are as follows:

First—Subsoiling. Break the land well and subsoil to a depth of 18 to 20 inches. This will increase the water-holding capacity of the soil.

Second—Terracing and strip cropping. Break down the slope with a system of terracing and strip cropping that will slow down the water and reduce erosion. The strips of close-growing crops will add enriching vegetable matter to the soil and make it capable of holding more water.

Third—Liming. To improve the physical condition by neutralizing the acids and increasing the legume crop yields.

Fourth—Rotations. Plan a rotation that will include as much close-growing vegetation as possible.

Fifth—Retirement of lands. Take out of cultivation and put to pastures or trees all lands that cannot produce crops at a profit.

Prepare Now For Pig Litters Next Spring

The successful swine producer, like all other good farmers, looks ahead.

He prepares now for things he plans to do this winter and next spring, said H. W. Taylor, extension swine specialist at N. C. State College.

Now is the time to plan for spring litter of pigs, he added. "If you have not already done so, plant some clover, rye, wheat, oats, or barley on a field where hogs have not ranged since it was last cultivated.

"Keep all hogs off the field until the sows are ready to farrow next spring. This will provide a clean range for the pigs to run in until they are four months old, or until they attain a weight of about 100 pounds.

"Sows for spring farrowing should be bred by the early part of November, at the latest. October 15 to November 1 is the best period. "If you do not have a portable farrowing house, see your county agent or write the agricultural editor at State College for a copy of blue print No. 160, which gives full instructions for building such a house for one sow and a litter of pigs."

Taylor also suggested that in November some crop should be planted to furnish winter grazing for the swine herd. Castrate pigs when they are four to five weeks old.

Build a self-feeder; one will save the labor of mixing and feeding slop and also keep before the hogs at all times the feeds they should have. Feeders built by plan No. 217 will accommodate one to seven hogs, and one by plan No. 61 will accommodate up to 25 hogs. Plans may be secured free from the agricultural editor at State College.

Feed Calves Well To Make Good Milk Cows.

Don't neglect dairy calves and heifers. Feed them well, give them proper care, and keep them growing.

No farmer can hope to raise good producing, profitable cows, no matter how well bred they are, if he is careless in feeding and managing them, said John Arey, extension dairy specialist at State College.

When calves are stunted by exposure, lack of feed or improper feeding, scours or other disorders, they cannot grow into large cows and heavy milkers.

When pasturage begins to run low, heifers should receive supplemental feeds, Arey pointed out. Give them hay, good quality hay if possible. But even inferior hay is better than none at all.

If silage is available, it can be fed along with the hay. In many instances grain is necessary. Two

or three pounds a day of a good fitting ration should be satisfactory.

It has been said that by increasing the weight of a dairy heifer 100 pounds, and thereby increasing her feed utilizing capacity, she will produce 1,000 pounds of milk more per year when full grown.

Both old and young animals should be provided with comfortable quarters in winter, Arey pointed out, since discomfort resulting from filthy stalls or undue exposure reduces the milk flow of the older animals and stunts the growth of the calves and heifers.

Feed buckets used for calves should be cleaned each day, as dirty buckets are a source of scours. Provide an abundant supply of water at a medium temperature. Cows will not drink all the water they ought to have if it is too cold.

Nearly 48 Millions Loaned in North Carolina

In Alamance, Loans Mounting To \$188,780, Were Made

Durham, N. C., October 26, 1936—In Alamance County 136 loans were closed in the amount of \$188,780 by the Federal Land Bank and the Land Bank Commissioner, from May 1, 1933 through June 30, 1936; according to information received by Robert M. Gantt, State Director for the National Emergency Council for North Carolina.

Of the loans closed in Alamance County 33 loans for \$5,000.00 were made by the Federal Land Bank and 103 loans totaling 123,780, by the Land Bank Commissioner.

Through the agency of the Farm Credit Administration in North Carolina 47,810,000.00 have been loaned during the same period. These loans included 5,056 of Federal Land Bank Loans for 11,741,190; 12,905 Land Bank Commissioner loans in the amount of 17,221,211; 46,054 Production Credit associations loans totaling 12,562,243; and 82,669 emergency crop loans amounting to \$6,245,476.

In addition to refinancing loans through the Farm Credit Administration, the farmers in North Carolina were benefited also by a reduction mortgage principal which amounted to 3,385,600. Further savings resulting from lowered interest rates are estimated at 490,000 annually.

In the period May 1, 1933, thro June 30, 1936, 765,614 mortgage loans, totaling 2,056,158,928 were made and 1,381,373,263 were advanced in loans to cooperatives, while 315,878,072 was loaned to cooperatives by the agencies of the Farm Credit Administration in the United States.

'Ace Blaikie, you are a wicked man. I am the instrument God has chosen to punish you. . . . Do not weep! Do not cry out! If you do, I shall kill you and then myself. But repent, repent, I bid you repent! The time has come for you to DIE!'

MURDER MASQUERADE
By Inez Haynes Irwin

What lips uttered the fearful death sentence to Dr. "Ace" Blaikie?

Peaceful Saitu, the quaint village on Boston's South Shore, found itself encircled by a tightening band of fear as each and every respected citizen came under surveillance of the Law! One of them had murdered "Ace" Blaikie . . . but who was it?

You'll live and breathe the mystery of this violent death as Mary Avery and Patrick O'Brien, matron and police chief, work hand in hand to eliminate the innocent and bring the guilty to justice. You'll be fascinated by eight-year-old Sylvia Sard, Mary Avery's niece who plays such an important part in the case.

And you'll be refreshed by the lack of hard-boiled characters usually present in mystery stories. "Murder Masquerade" is exciting, humorous . . . above the average in scale of its type.

Don't miss a single exciting installment!
