

THE GLEANER

GRAHAM, N. C., MAR. 4, 1937

Local News

Graham Garden Club met with Mrs. J. C. Moore Tuesday afternoon.

A little snow is lingering in protected spots—waiting for more, maybe.

The Music Lovers' Club held its March meeting with Mrs. Virginia McLean at 7:30 Tuesday evening.

The County Commissioners are meeting today to dispose of unfinished business left over from Monday.

Thomas M. Holt, Lodge, Masonic, will meet in regular communication at 8 o'clock Friday night. Business of importance.

Solomon R. Thompson, 79, died near Snow Camp Tuesday morning. Surviving him are his wife, a daughter and three sons.

Mattie Bowles, a young woman, is held in jail without bond under the Coroner's jury's verdict upon the charge of destroying her child three weeks ago. She lived near Burlington.

Do you want to save money on your magazines that you read all the year around? Yes, you say. Then study the magazine combination subscription offer The Gleaner is making for a limited time.

Graham Chapter U. D. C. is meeting at 3:30 this afternoon with Mrs. J. Dolph Long. Joint hostesses with Mrs. Long are her mother, Mrs. G. S. Attmore, Mesdames L. C. Allen and M. E. Yount, and Miss Lala Browning.

For \$2.15 you can buy papers and magazines, regularly priced \$7.85, by taking advantage of our great combination subscription offer shown elsewhere. This is but one combination and the highest priced one, but you can make more than 5 other combinations that will be equally economical.

Sheriff Stockard and his deputies completed the round-up of the wheat thieves the latter part of last week and the four, Ralph, Bill and Timothy Thompson and Ozzie Harris, all negroes, were tried in the County Court Monday. Judge Hall gave them, jointly, seven years' service on the roads. There were eight thefts, all in South Alamance, and approximately 100 bushels of wheat were stolen.

The weather had been so mild for weeks and weeks that most people had almost concluded that we were "all set" for a winterless winter. But the snow Saturday night and Sunday morning worked a sudden change, besides finding many coal bins bare. It had been forgotten, too, that the ground hog had to run from his shadow on February 2nd, which meant that winter would not be safely passed for at least six weeks.

After two weeks' holiday, on account of the prevalence of flu and scarlet fever, Graham Public School will resume next Monday. In the notice about the enforced vacation parents were urged to keep their children in school regularly, lest a falling off in attendance should compel a reduction in the teaching force. Parents should realize that the public school is designed and maintained for the benefit of their children, and that they owe it to themselves and to their children to take advantage and make use of the means provided for the child's advancement.

The Gibsonville Matter.

A delegation, among them County Chairman Wade H. Huffman and County Attorney H. J. Rhodes, from Alamance spent Wednesday in Raleigh for the purpose of staving off the designs of Guilford to take in that part of Gibsonville situate in Alamance.

Those who went to Raleigh feel that the matter is settled for the present and that no law will be passed to transfer any Alamance territory to Guilford.

Gibsonville grows and is growing toward Elon College, and later on the corporate limits of Gibsonville might be enlarged. In this instance Guilford might want to follow any enlarged corporate limits, so it is just as well to nip the matter in the bud. Alamance has about \$160,000 taxable property in the corporate limits of Gibsonville, which doubtless is the milk in the coconut.

Graham Home Building Co. Shareholders' Meeting; New Series of Stock Reports.

Last week the annual meeting of the shareholders of the Graham Home Building Company was held. The business part of the meeting consisted of the election of a board of directors.

Reports of the year's work and the condition of the company were read, which are of special interest.

The gross earnings of the past year amount to \$14,114.98, gross expenses \$3,977.34, leaving \$10,137.64 net earnings, which does not include the undivided profits of \$25,967.18 shown by the preceding years' report. After maturing Series No. 27 of stock and setting aside \$2,500 for reserve, the net profits are \$21,814.32.

The report showed 23 new homes built, 22 purchased and 11 repaired or remodeled; 45 loans retired; 58 new loans.

This item is of special interest: Since the organization of the company, it has earned \$193,022.02 and paid \$171,107.00 in profits to shareholders. At the time of the report there were 4384 shares in force.

So far the company has never had a loss, and the money has earned more than six percent interest. All loans are secured by first mortgage on real estate, than which there is no safer investment, and the interest rate is far better than savings deposits, or government bonds.

The money paid in is invested in property in the community, and the company pays the taxes on the money paid in by shareholders.

A new series of stock will start on March 13th. There is no safer investment. Several hundred shares of the new series have already been subscribed for.

More Gas Used In 1935; Yields 619 Million Tax

Standing of North Carolina as to Consumption and Receipts

Gasoline consumption by motor vehicles in 1935 increased 6.4 percent over the preceding year and State taxes yielded a revenue of \$619,000,000 according to statistics collected by the Bureau of Public Roads of the U. S. Department of Agriculture. Every State reported increased consumption, the largest increase being 13.4 percent in New Mexico. Increases of more than 10 percent are reported for Alabama, Arizona, California, Georgia, Idaho, New Mexico, North Carolina, Oklahoma, Oregon, South Carolina, and Utah.

The average tax rate was 3.8 cents. Gasoline consumed on highways amounted to over 16 billion gallons. This figure includes some non-highway consumption in 13 States that do not allow refunds of the tax for non-highway use. During the year the tax rate was increased by one cent in Connecticut, Delaware, Nebraska, New York, and Pennsylvania.

Now as to North Carolina: in 1935, by comparison, from Government figures, stood 9th in receipts, or \$19,147,616; in gallons of gas used 15th, 305,579,000; with one exception, California, made the largest percentage of increase in consumption; and in several other states the tax rate is as high or higher.

Graham RFD News.

The supper given Saturday evening by Scout Troop No. 10 at their hut, near the Bethany Presbyterian Church, was a grand success.

Sarah Kathryn Webster, of the Bethany school, who hadn't missed a day of school this year was absent two days this week because of illness.

The younger son of Mr. and Mrs. Don Boggs of the Bethany community continues seriously ill at the Clinic hospital, Greensboro.

Mr. and Mrs. G. H. Enfield who visited State College, Raleigh, Saturday, brought their son, Clifford, and Julius Thompson back with them to spend the week-end at their respective homes. They returned Sunday evening.

Mrs. W. A. Moore who has been confined to her bed for several days with the flu is improving.

Timely Farm Questions Answered at State College

Question: What is the best procedure to follow with the flock with poultry feed at their present high level?

Answer: The only thing to do is to carefully cull the flock for all low-producing birds. Every poor layer removed from the flock and placed on the market means a saving of seven pounds of feed each month and it is very probable that all flocks in the State contain a certain percent of birds that should be removed. There is little that can be done to materially affect the market price of eggs and the only other alternative is to get rid of the poor layers and save feed.

Question: When and how much fertilizer should be applied to grape vines?

Answer: For bearing vines of good vigor from one to two pounds of a 5-7-5 fertilizer should be applied to each vine as the buds are swelling. For vines that are low in vigor, stable manure or nitrate of soda should be applied before buds swell, in addition to the complete fertilizer. On newly set vines use stable manure or nitrate of soda at rate of ten tons of manure to the acre or one fourth pound of nitrate to the vine.

LISTEN, FRIENDS

The Master Key of the human heart is Love.

Too often we degrade friendship by explanations.

"Sit Down Strike Continues in Detroit Woolworth Store." Well, who deserves to sit down any more than the girls who work in a five and ten store.

"The Governor of North Carolina doesn't smoke, drink, chew, gamble or play golf."

What's the secret of his popularity with politicians when he has so little in common with them?

The fellow who requires the most explaining is the fellow who does the most complaining.

The energy expended on frivolities could remove mountains if controlled and directed into proper channels.

There are those who never turn a new leaf because their pages are all stuck together by last year's sweets.
