OFFICE SUPPLY COMPANY

Lacy L. Ward 214 W. Market Phone 5353

The early typewriting machine was a queer looking mechanical contraption. It would look as comically antique in the modern office as the first attempt at an automobile would look on a modern main street. Some of these earliest typewriters had six or eight rows of keys so that only a human octopus could have achieved a speed of more than a dozen words a minute.

Today a competent typist is expected to write accurately, neatly and rapidly. Machines are constructed for speed and durability. The limitation of speed on a new machine is one of human, instead of mechanical nature. The machine is capable of writing faster than it is humanly possible for man to make it write.

There are many makes of typewriters, such as the Royal-Remington, Corona, Underwood and others, as well as New and Used Portables, each one having its own merits. This home-owned establishment carries them all as well as adding machines and supplies. Although some prefer one make to another, a great deal depends on which one you are accustomed to using. At any rate, see the various makes and have them demonstrated.

Mr. Ward especially advocates the portable typewriter. It is small and compact and may be carried with you anywhere, at any time. It gives you a rapid, easy running typewriter and you have the additional advantage of having a machine that can be placed anywhere at any time. The portable typewriter is the type for school children today. It is easily adapted and is probably the most popular typewriter on the market.

Expert repair work and readjustments may be had in their repair department. When you are in the market for a typewriter, you can do no better than to visit this home owned concern, thus keeping our money at home to be re-spent in this territory. Mr. Ward also features rentals and typewriters may be had as low as 75 cents a week and up.

Mr. Lacy L. Ward is a home man, with home interests at heart, and is certainly deserving of your patronage and extends a cordial invitation to his many friends in Graham and Alamance County to drop in and see his excellent display of typewriters when in Greensboro.

GLENWOOD PARK SANITARIUM

Dr. C. G. Southard, Medical Director. Wirt B. Todd, Business Manager Home For Nervous and Habit Diseases 1305 Glenwood Avenue in Greensboro Phone 2-0614

In a review of this part of the country there is no institution more worthy of mention than this foremost Sanitarium and which is accomplishing so much good for mankind in general.

Without health all the other gifts of life are worthless. Human nature seems to be so constituted that we mortals do not realize the truth of this statement until it is too late. Health is one of those things—like a good wife—not appreciated until it is gone.

The Glenwood Park Sanitarium offers the patients quiet and rest, combined with every modern method of treatment and diagnosis. Laws of nature and principles of science are co-ordinated in the most effective care of the patients. Their modern building is completely equipped for all kinds of tubercular cases.

The Glenwood Park Sanitarium contains quarters for the reception of

cases requiring personal care and individual study. We are glad to compliment this institution on its surroundings and their work in the relief of suffering humanity.

It has been built up to its present high standard by the tireless efforts of its efficient staff and the years that have been spent and the results that have been obtained deserve the praise of all.

The Glenwood Park Sanitarium is equipped to take care of out-of-town patrons in a prompt manner. It is a credit to this section of the state and deserves the backing of every citizen.

In closing this brief review of the Glenwood Park Sanitarium we wish to state that both Dr. C. G. Southard, the medical director, who has devoted his life to a study of the afflicted and Wirt B. Todd, the very able and efficient business manager, are to be complimented for the spartan work they are doing.

CLINIC HOSPITAL

"The Friendly Hospital" Located at 118 S. Greene Street in Greensboro Phone 7135

This hospital is convenient for the people from all over this section of the county.

The very finest of equipment, careful nursing and the most able professional service is a feature of this hospital as well as general hospital service and are prepared to take care of emergency cases.

There is nothing more important to the onward progress of our community than a hospital service of this kind presided over by those who have made a special study of the afflicted—those who are unfortunate because of physical or mental defects. They feature general hospital service, general practice and surgery and give the most patient service here.

The management is to be commended upon devoting their life to the work which is so much needed to make everyone fit to be a Spartan. The change in methods from olden times is well exemplified in the work of this hospital which typifies modern civilization.

This well known hospital occupies commodious quarters, is excellently appointed and most modernly equipped.

The layman does not realize the cost of the equipment that they have for their diagnosis and treatment, and

to the average person, hospital costs naturally seem a trifle high, but that is caused by the hospital having to always maintain a sufficient staff to care for the maximum number, instead of the MINIMUM. A hospital's doors are never closed and long after the day's work is done, the hospital staff must continue to function without regard to compensation and MUST ADMIT Emergencies at all hours, dressing wounds, comforting the sick and straightening bones, etc.

The rooms are well furnished and pleasant in every way. Cheerfulness and an air of hope are inspired by the furnishings that have been selected by the decorators with this end in view. They give all patients a thorough examination and during treatment they are cared for by nurses who are able, painstaking and follow the directions of the medical department. This accounts for the rapid recovery of people coming here and for the fact that they remain in good condition for years afterwards.

In closing, we wish to call attention to the very efficient medical staff and to emphasize the fact, that it is always best to make reservations in advance through the family physician.

A. Plato, Pres. & Treas. "Oldest Piano House" 110 W. Sycamore Street in Greensboro Phone 2-1462

The above concern forms a center for devotees of music and has the distinction of having sold more musicians and musical institutions than any other in this district. The whole store is devoted to the display of pianos. A proper center is necessary for the development of the art and this concern should be complimented upon the founding of a center such as this, as it greatly promotes the study of music throughout this section of the state.

They have a large line of the best pianos, ranging in price from \$290.00 to \$3,650.00, and also have some excellent bargains in used ones. They also rent pianos and if purchased within six months, the rentals are allowed to apply on the purchase price.

These instruments have been selected with a view to giving the patrons a choice of the very finest in a wide range of prices. The buyer of limited means will find here an instrument within his reach which will be of the very highest quality obtainable at that price. Those who can afford

the higher priced instruments will find that this line provides pianos unsurpassed anywhere.

Wm. C. Boren, President Located at 1437 South Elm Street in Greensboro Phone 2-3141

Iron is one of the most common things in the modern world. It is the mineral that makes bricks red. It is a necessary food element. It is the stuff out of which modern industry has been built. It has served mankind for centuries. Iron and steel have made much of our progress possible.

The first iron in the United States was found by an expedition sent out by Sir Walter Raleigh in 1585. In 1608 iron ore was shipped to England.

The first iron works in the United States was established a little over 300 years ago. Progress was slow and the development of efficient smelting and processing methods has been comparatively late.

The Carolina Steel & Iron Company has a reputation for being one of the leading companies in this section of the state. The plant is extensive and is equipped with the latest scientific machinery for the production of high grade metal products, structural steel for buildings and bridges, ornamental iron, wire, angles—beams—channels—bars—plates—sheets—boiler tubes—coal chutes and Bayley's steel sash. H. J. JOHNSON ESSO SERVICE STATIONS

2 Convenient Locations H. J. Johnson, Owner 1900 E. Market and 600 W. Market Street

You may have been idling along the road, but when approaching the city and you see the glare of the lights, the heavy traffic, the street signals and the traffic cops it is best to look over the instrument board and stop at one of the H. J. Johnson Esso Service Stations and get the car filled with that good Esso Gasoline, oil and water.

Mr. Johnson is able to give you just what you want as he maintains modern service stations and can furnish gas for the high compression engine that will make it full of pep. If your engine has been spitting and coughing he will be able to give you gasoline that will make it run smoothly and there will be no danger of your getting stopped in a traffic jam. The heavy congestion takes more gasoline and it never pays to run into the city with a small supply as stops are costly and you may hear the last cough of a dying engine just when you need power the most to get through. If you take on gasoline at the H. J. Johnson Esso Service Stations and get that good Esso Gasoline your engine will hum along and

you will not be bothered or inconvenienced. Mr. Johnson always has a sufficient force of helpers so that you will not be delayed.

The oil department is complete with oils and greases for all purposes. They know the chart and give you oil that will protect your engine and you will not be burning out connecting rods or having engine trouble. It might be well to take a supply home with you so there will be no trouble until you get around again. They have oils for every type of motor, tractor and truck as well as the motorcycle. They offer an excellent service in the draining of the crankcase and seeing that you have clean oil that will pump easily.

They are also headquarters for Atlas Tires and Batteries.

In making this review we are pleased to compliment the H. J. Johnson Esso Service Stations upon their service and would suggest that every driver should occasionally stop here and refuel to keep up on the improvements in the service station "Service Supreme."
