and 10 shots under par in almost every 72-hole tournament. Golfing topnotchers can do it every time when they're really playing in form. Golf, with those men, is a pro-fession and business. They work at it all day long, practicing endicasity. It has been said that when Jug Me-Spaden shot a phenomenal practice round of 59 in Texas, he went im-mediately to the practice fee and worked there for two hours. Par can't hold down men like that. Corcoran has doped out a solution. And he believes it will be accepted in the near future. His plan: He compares two holes, one is 350 yards, the other 415. On the present yardage hasis par for each is four. The 350-yard hole is straightaway, there are no traps to speak of and ne out-of-bounds bordering the fair-way. The 415 yarder's green is guarded by a pond, it is heavily trapped and has out-of-bounds to the left of the fairway and beyond the green.

Prelude, Song, Postlude Democracy was adamant one week before Der Fuchrer gave Reichstag and the world his an-swer to President Roosevelt's peace appeal. By four days before speech time Hitler had become adamant. Britain showed appeasement in-Britain showed appeasement in-clinations by rushing her previous-ly recalled ambassador, pro-Nazi Sir Nevile Henderson, back to Berlin. Next day, as Nazi Foreign Minister Joachim von Ribbentrop delighted-ly kept Sir Nevile waiting outside his door, Britain indignantly inaugurated her first peacetime conscrip-tion and presented parliament with a \$6,213,000,000 budget (of which 47 per cent will go for arms). In the U. S., Secretary of State Cordell Hull warned Hitler to eschew more conquests in favor of "peace before via negotiation.

Poland prepared to defend her borders at all cost. With Rome and Paris waiting in strange silence, the world finished its quavering prelude to the most vital speech Adolf Hitler will ever make:

Song. Never a brief speaker, Der Fuchrer took more than an hour to lay foundation for a point-by-point rejection of Mr. Roosevelt's peace plea, a rebuttal he interlarded with fine sarcasm. Biggest revelations: (1) Germany considers the Anglo-French-Polish non-aggression pact

unfriendly, therefore denounces its 10-year friendship pact with Poland.

Point-by-point rebuttal: (1) Mr. Roosevelt pointed to three European and one African nation whose independence has been ter-minated since 1936. Answer: What is "independence," anyway? Alba-nia, Austria and Czecho-Slovakia really had their "independence" ter-minated after the World war. As for Africa, Mussolini's Ethiopian conquest merely followed the prec-edent established by democracies. (2) Has Germany been agree-sive? Answer: No, Germany has kapt peace since 1918, compared with repeated U. S. intervention. (3) Has any nation the right to wage war except in self defense? wage war except in self defense? Problem Child Less than a decade has passed since the U. S. fought Philippine independence demands, but tables have a way of turning. Given con-gressional assurance of early free-dom, Philippine President Manuel Quezon hardly had time to exult be-fore Jenson turned impearielistic fore Japan turned imperialistic, swaggered into China and began grabbing off every piece of unpro-tected real estate within Asiatic waters. Since Japs already hold a strong commercial position in Ma-

pino sugar. Sensing that the U. S. was anxious to pull stakes, Manuel Quezon last year appealed to President Roose-velt and won an administration-sponsored proposal calling for polit-ical independence in 1946, the 25 per cent tariff being increased by 5 per cent a year until wholly ef-fective in 1961. Since President Quezon will not be able to attend hearings this year, the bill is being tabled until next session. When he does arrive, Mr. Quezon will be of-fered an even stronger deal which fered an even stronger deal which members of the Senate committee on territories and insular posses-sions have already accepted unanimously, albeit secretly. The deal: If Filipinos will cut political ties with the U. S. in 1942, current 25 per cent tariff rates will continue until 1946 as under the administration bill. Then rates will jump 10 per cent annually until the U. S. washes its hands of the whole affair in 1953.

Still officially unannounced, the substitute bill (suggested by Mary-land's Sen. Millard E. Tydings) has been hushed for fear Japan may sail into Manila immediately.

WNU Service, National Press Bidg., Washington, D. C. WASHINGTON.—"I am supreme-ly confident of one thing—we are making a dent in the job of getting back some of our foreign trade that was lost to other nations in the last few years. Nobody can be sure that we ever will get all of it back, but I am hopeful because this little institution of ours here is showing that it can function safely and sat-isfactorily." That statement, perhaps, is the best summary I can give of the philosophy of Warren Lee Pierson, the president—and pretty largely the heart and soul—of the exportmaking a dent in the job of getting back some of our foreign trade that was lost to other nations in the last few years. Nobody can be sure that we ever will get all of it back, but I am hopeful because this little institution of ours here is showing that if our function and out that it can function safely and sat-

that it can function safely and sat-isfactorily." That statement, perhaps, is the best summary I can give of the philosophy of Warren Lee Pisrson, the president—and pretty largely the heart and soul—of the export-import bank. Likewise, it rather de-lineates the program of that little-known federal agency; because Mr. Pierson is determined to see Amer-ican products, farm or factory, movtake over the remainder on a short term basis." All of which sounded very well. But having watched the negotiations with foreign governments over re-payment of the loans made by the United States during the World war. I had some misgivings. It seemed that here was another agency doing exactly what Mr. William Gibbs Mc-Adoo had done as secretary of the treasury during the World war. In other words, the futility of ever ex-pecting a payment on foreign loans ican products, farm or factory, mov-ing as of old into the hands of users and consumers in foreign lands. Moreover, to analyze the outlook of the man is to reach a conclusion that he believes the way to restore people to jobs in this country is to assist American farms and factories in the sale of their products.

other words, the futility of ever ex-pecting a payment on foreign loans rather had been impressed upon me. I told Mr. Pierson of my feelings. "That cannot be so in our case," he explained. "We have collateral. We have ways of collecting. There are guarantees behind the notes we have received, for example, in the locomotives. We have no fears at all." It is curiously true that some of the federal agencies which are doing important work and doing it ef-ficiently are least known to the gen-eral public. They have no staff of press agents; they seldom "break into print," yet they seem to be serving all of the people well.

The guarantees, the collateral, about which Mr. Pierson spoke, I learned, were in the shape of a bank Department of commerce reports have been showing how our exports have declined through many have declined through many months. The records give one the impression that the lines on the chart, showing totals each month, are in a race to see which one can dive faster or deeper. I have won-dered where we were headed, as a nation of producers. Secretary Hull's reciprocal trade treaties have been getting exactly nowhere; and have done so at enormous speed. Secretary Wallace's ideas for sell-ing our farm products have proved endorsement. That is to say, one endorsement. That is to say, one of the South American banks, with deposits in New York and other large citles in the United States, has added its promise to pay to the promissory notes given by the pur-chaser. **Concentrate on Financing Exports** to South America ing our farm products have proved to be nothing but dreams and, like quite a concentration of effort to aid in financing exports to South Amer-ica. Of course, there have been credits arranged for several places in Europe, too, and also in China. Mr. Pierson is very optimistic about future trade with China. But the bulk of the loans have been in con-nection with South American propo-citions dreams, they vanished the next morning, except that perhaps the next day Mr. Wallace's publicity staff announced another plan.

Solution of Unemployment Is to Encourage Industry

"What," I asked Mr. Pierson, "is

And the fact that the export-import bank is paying so much at-tention to South America is impor-tant in another way. The fascist dictators, Mussolini and Hitler, are driving hard to gain trade footholds in South America. Having the type of government Germany and Italy have, it is easy for them to make any kind of arrangements desired by using whatever government rethe answer?" His reply was quoted as the intro-His reply was quoted as the intro-ductory paragraph. He seemed fully to recognize all of the difficul-ties confronting the United States at the moment. Further, there was every evidence that Mr. Pierson is one of the few officials of govern-ment who are aware that the solution to our unemployment problem is to assist industry so that it can re-employ workers. Unless indusby using whatever government rere-employ workers. Unless indus-try can be encouraged, it appears that the nation is going to continue with 10,000,000 unemployed as it has for the last few years. I found it refreshing, therefore, to hear Mr. Pierson talk about how a few dozen large factories have been kept open and with relatively full payrolls be-cause the export-import bank was able to help foreign buyers who wanted American products but could not pay cash for them. For reasons that I will mention subsequently, however, I had some misgivings about the operations of the export-import bank. I doubted that there would be repayment of money advanced by the bank. "Well, the default is a thing that happens to a greater or less extent wherever credit is extended," Mr. Pierson explained. "If there were never any defaults, there would be no risk attached to banking busi-ness. But, unfortunately, that ele-ment must be taken into considera-tion. The fact that there is credit risk is why this export-import bank For reasons that I will mention tion. The fact that there is credit risk is why this export-import bank was organized. Of course, there were other reasons, but the instabil-ity of some foreign governments, the lack of exchange and such conditions made it necessary for our government to step in and help those who are trying to export American-made goods.

-Speaking of Sports-**Dempsey** Picks Buddy Baer to Vanquish Louis By ROBERT McSHANE

By ROBERT McSHANE While the seemingly useless search for a while hope goes on in heavyweight ranks, former distic circles recently with the an-nouncement that Buddy Baer is just the lad to remove Joe Louis' crown. If was unexpected because Buddy hasn't set the world on fire. It served as quite a boost for the younger of the Baer tribe, however, and should get him a few important fights. And right now he needs them. Buddy's defeat by Gunnar Bar-hund hurt him in more ways than one. He lasted only seven rounds, giving up the fight before being mocked out. Since then his courage has been questioned. It should be also being the server of the server of the server of the server of the seven rounds.

er Abe gave him a merciless slug-ging for two rounds. Buddy was badly battered, and when the third round came along Simon figured it time for a knockout. Instead Baer came out fighting, defeating Simon in a whirlwind third-round finish.

It would be hard to imagine a bet-ter fighting build than Buddy's. He weighs 240 pounds, and every pound is in the right place. He has a tre-mendous wallop that spells curtains when it lands. All in all, he looks

like a champion. But so did another Baer-Maxie. Granted that Buddy has size, punch and a fighting heart. He lacks one essential-quick mental reaction.

Set-up for Louis

Buddy, like almost any fighter, can spot an opening. But before he decides what to do about it the opening has disappeared. That kind of a fighter would find the going all too tough against the Brown Bomb-er. Louis is controlled lightning. He thinks and hits fast and hard enough to blast any opponent, regardless of cites.

may be the logical throne occupant to succeed Louis. At least it's hard to point at any other contender and say "there's the man." Look over say "there's the man." Look over the balance of the field and try to pick one. Most fans have a pet fight-er, but they only hope in him, and in their hearts know that the brown boy from down Alabama way is just too good for the object of their fistic affections. A few short months ago Max Baer was in the ring with Joe Louis. The ending of the fight was, to say the least, inglorious. Max was counted out while resting on one knee. That fact hurt Maxie a great deal more than the actual loss of the fight. He has a long way to come back to regain the confidence fans once had in him. say the

(2) Treaty or no, Danzig must be returned to Germany.
(3) Hitler denounces the Anglo-German naval limitations treaty, but will gladly discuss the problem. Highlight of the rebuttal was that Germany will give non-aggression promises to each of the nations al-legedly "threatened," but that each legedly "threatened," but that each guarantee will be made individually upon petition and on a basis of ab-solute reciprocity. Greatest rebuttal sarcasm concerned such "threat-ened" nations as Ireland and Pal-estine, which-according to Hitlerestine, which according to Hitler-have more to fear from English sup-pression than German aggression.

Plagued by Naziism and Fascism, bankrupt and facing possible revolu-tion if Bolivia's three Chaco war parties (Liberal, Republican, Social-ist Republican) won the May legis-lative election, President Busch sur-prized by method by assuration prised the world by announcing a new type political animal, dictatorship to prepare for "a real democ-racy."

Biggest contemplated objective in the latter plan, since dropped, was consolidation of all six of the treasury's investigative units, a step the President finally decided might lead to a U. Collateral Behind Notes Is Guarantee of Payment

Is Guarantee of Payment "It is to be remembered that goods for export go in larger quan-tities and that necessarily larger sums of money are needed to han-dle the transactions. In addition, we have found that, in many in-stances, the buyers were what can be termed as good credit risks, but they were unable to make payments of such large sums at one time. Nor were the American manufac-

It strikes me, therefore, that if the export-import bank is making that dent about which I quoted Mr. Pierson in the opening sentence; if it is gaining a toehold in South America against the high-pressure methods employed by the dictators, then it is performing a great service for the citizens of the United States. It is conceivable, indeed, that extension of cred-its in the manner described might possibly be the means by which North and South America can be tightly bound to each other in war

tightly bound to each other in war as well as in peace. There is another thing about the export-import bank that impressed me. It is operating on borrowed money, of course; and the taxpayers will have to make up any losses be-cause the federal government ob-viously is morally bound to pay off the bank's bonds if it were to col-lapse. But thus far in its life, the export-import bank has had no losses. Thus far, it has been able to pay all of its own expenses out of the interest charged its borrowers.

Export-Import Bank Stands To Make Large Profit

And important also is the fact that in the current year, barring un-foreseen developments, the export-import bank stands to make a profit of something like \$5,000,000.

Mr. Pierson told me that the bank has made commitments, now out-standing, of slightly more than \$229,-000,000. That is to say, the bank has agreed to help finance ex-ports to that extent, provided the ports to that extent, provided the terms are met, and it must not be overlooked that the bank is rather hard boiled. Mr. Pierson pointed out that the export-import bank had to be really as careful as any com-mercial bank, but it can do some-thing the commercial banks cannot do-make longer-term loans. @Western Newspaper Unice.
