(Released by Western Newspaper Union.) ALTIMORE, MD., was recently the scene of a birthday celebration which had more than local significance because it recalled the early days of an important chapter in the history of American transportation. For it marked the 100th anniversary of the founding of the oldest steamboat line in the United States—the Baltimore Steam Packet company, better known as the Old Bay Line because of its century of activity in the triands or relatives in Virginia or

Chesapeake bay. It was just 100 years ago that the Georgia, the original flagship of the company, started on her maiden voyage from Baltimore to Norfolk and the line has operated almost continuously since that time. So, on the anni-versary of the Georgia's first trip, Gov. Herbert R. O'Con-or of Maryland, accompanied by Baltimore city officials and the mayors and city managers of three neighboring cities in Virginia—Nor-folk, Newport News and Portsmouth—were driven down to the Baltimore water-

In that connection, he added, the FBI has established a general index, arranged alphabetically and geo-graphically, so that in the event of "any greater emergency" in the United States, federal agents will be able to locate immediately per-sons who may need to be the subject of further investigation. Without the presidential authority, the FBI could not have extended its jurisdiction to maintain surveil-lance over persons suspected of sub-versive activities. Hoover made this clear in a de-partmental memorandum in 1924, after he had been asked by another bureau to investigate alleged sub-versive activities of suspected per-sons.
