Million Red Cross Volunteers Aid Defense Program

Washington, D. C.—Behind the front lines of U. S. defenses more than 1,200,000 Red Cross volunteers are on the job—making surgical dressings, knitting sweaters and giving comfort articles, learning the rudiments of emergency mass feeding and scores of other duties in an all-out effort for national defense.

The largest defense task now being undertaken by Red Cross volunteers is the production of 40,000,000 surgical dressings for the Army and Navy, according to Mrs. Dwight F. Davis, national director of Volunteer Special Services.

Home Service volunteers and Gray Ladies, whose duties are directly concerned with the man in uniform also are expanding their programs, Mrs. Davis said.

As a preparedness measure, thousands of women throughout the country are learning mass feeding and nutrition as members of the Red Cross Canteen Corps. Added thousands are being trained in the Motor Corps to serve as emergency drivers.

For Cancer Control

April was set aside by the 75th Congress, 1938, as National cancer control month. The disease kills 150,000 people each year, three-fourths of whom could be saved, it is claimed, if taken in time.

A cancer design postage stamp is being urged in behalf of public health for April, 1942, by the Society for the control of Cancer.

The symptoms of the disease, to be given prompt medical attention, are: any persistent lump or thickening, particularly in the breast; an irregular bleeding or discharge from any body opening; any sore that does not heal normally, especially about the tongue, mouth, or lips; any sudden change in the form or rate of growth of a mole or wart.
