

THE GLEANER

GRAHAM, N. C., JULY 2, 1942

ISSUED EVERY THURSDAY

J. D. KERNODLE, Editor

\$1.00 A YEAR, IN ADVANCE

Entered at the Postoffice at Graham, N. C., as second-class matter.

The largest revenue bill, \$42,800,000,000, in world history, was approved and concurred in by the United States Senate in 31 minutes on Tuesday, the last day of the fiscal year.

We offer no apology for devoting so much space to the war. It is the biggest man-made event in human history, and no other has or will affect the destiny of more Americans and the people of other countries.

Secretary of the Treasury Morgenthau announces the quota of war bonds to be bought in July is one billion dollars. The quota is apportioned among the States. The largest quota is \$171,596,000. North Carolina's quota is \$12,153,000.

It was made known a week ago that Major General Dwight Eisenhower, former assistant chief of staff for the United States, was in London to take charge of the American forces in Europe. On his appointment the opinion is based that a second front will soon be established against Germany.

When Prime Minister Winston Churchill got home from his conference with President Roosevelt, he found Great Britain in turmoil. His countrymen were blaming him for reverses in the Egyptian sector. So he wanted to depose him and set up a new leadership. Somewhere in that part of the world, several thousand years ago, a nation was delivered from bondage. The leader had gone away to confer in behalf of his people. In his absence they had set up idols and were rebellious. Notwithstanding the leader's absence, his people went out every morning and gathered manna for the day.

Argentina and Chile, two of the South American republics, still maintain some relationship with the Axis. They did not go all the way with the 21 American republics, and sever complete diplomatic relations. They wanted to keep on selling beef, wool and minerals to the Axis. There are many German residents in Argentina. In fact, most of South America is honeycombed with fifth columnists. Several weeks ago, notwithstanding the semi-friendly relations, a German sub sank an Argentine ship. Demands were made on Germany for an explanation. The matter was patched up. Since that time 4 other ships have been torpedoed, one of them sunk. Argentina is not in good humor about the assaults, nor is she receiving whole-hearted sympathy from the sister republics. In truth some of them may feel that she is getting her reward for her aloofness, and that "you can't trade with Hitler."

The sinkings of shipping on the East coast has passed 325, and before the week is ended will amount to 350 or more, if they continue at the same rate as during the past few days. The enemy is sending them to the bottom about as fast as they are being launched from the ship yards. Some sinkings of enemy ships reported but the number is far behind the losses of American and others of the United Nations. Not only are we losing the shipping but the cargoes and a large number of men. The loss of men according to late reports, approaches well toward 350. It is not a pretty picture. We will have to step-up production, or the situation will grow more serious day by day. The loss of so much shipping presents another serious phase; it is the stalling of the delivery of war materials to the nations depending upon America. We are making the goods, but, unless they are placed where they can be used, they count for nothing.

RUBBER

Saving rubber has been dinned into the ears of the public, hour by hour and day by day, for more than two weeks. If the Government did not need it, so much dinning would be foolish, but it is needed to keep the war machines rolling. It is as vital for carrying on the war and winning as shoe-leather, and ammunition.

The dinning is believed to have fallen upon many deaf ears, else the time for gathering scrap rubber would not have been extended for another ten days.

If those who are so careless in the use of rubber and knew how difficult and under what hazardous conditions it is procured they would slow down and drive more carefully.

The supply of rubber from the Far East has been completely cut off, but fortunately there is limited production of this valuable material in South America, in Peru and Brazil, but those countries are not prepared and equipped to get it in quantity to meet the demands.

The United States is trying to help the producing countries to meet a part of the demand. This country has agreed to spend \$5,000,000 for rubber development in Brazil and \$1,125,000 in Peru, and will help other cooperating South American republics.

It requires an army of men properly equipped to produce rubber in quantity.

Dr. Earl N. Bressman, director of the agricultural division of the office of inter-American Affairs, told a United States senate committee that a preliminary equipment order from Brazil included 5,000 tapping cups, 5,000 machetes, 10,000 files, 5,000 shotguns, 250,000 shotgun shells and 3,000,000 anti-malaria tablets.

It is estimated some 40,000 tappers are now at work in the Amazon basin, and it is hoped to have 20,000 more equipped during 1942.

The workers have to cut and fight their way through the jungles, infested with mosquitoes and other poisonous insects and deadly snakes and reptiles.

Hence the workers have to carry quinine and other anti-malaria medicines, and shotguns and knives to kill and fight off the snakes and reptiles.

The gathering of rubber is anything but a picnic holiday job.

LATE WAR NOTES

That China is putting on stiffer resistance to Jap invasion and inflicting upon them some heavy losses, is evidence that supplies are reaching China from Britain and the United States. The supplies are going by freight through the air.

The Japs are suspected of trying to establish bases in the Aleutian Islands for the purpose of attacks on Siberia and Alaska. America is watching them.

The Nazi and Red armies have had a continuous clash on the Russian front with increased fury for the past week. The losses in men and material have been enormous, but the Reds have withstood and checked Hitler's big offensive.

In East Africa the British have been pushed back by the Germans. The situation is regarded as serious for the Allied Nations.

Reports from Australia, General MacArthur in command, indicate that the Japs have been hit some hard blows, but there has been nothing specially decisive.

Freighters of the sky are increasing the volume of their business. Before the war is over heavy freight will be shipped around the world through the skies. It is being done right now on a large scale in carrying on the war.

The conviction of the American Medical Association and the District of Columbia Medical Society for conspiracy to restrain trade was confirmed this week by the United States Court of Appeals. The cases will be appealed through the United States Supreme Court.

No restrictions on individual railroad or bus travel now exists, the Office of Defense Transportation advises us. It couples this information with reminders and pointed hints that "planning a vacation close to home this year will not only relieve public transportation facilities this summer but will be a patriotic gesture."

Victory Day 4th of July Celebration

On Saturday will be staged a big 4th of July celebration in Burlington, sponsored by the American Legion. It is for the entire county. Every patriotic and fraternal organization is urged to take part in the event.

There will be band music and speaking and in the parade will be included the various civic organizations.

The C. S. O. Held Meeting in Courthouse

On last Thursday evening Citizens Service Organization held a business meeting in the courthouse. It was made known that there are over 3,000 members in the various units in the county, composing two full regiments, and enough colored members for a full battalion.

The commanding officer is B. Everett Jordon, Rev. James S. Cox, the founder of the C. S. O., was made brigade chaplain, Col. John B. Stratford, was named chief of staff, Dr. D. E. Robinson was appointed medical officer with the rank colonel. Maj. James Rogers was given command of the colored battalion.

A picnic was planned to be held on July 4 at Alexander Wilson school.

What You Buy With WAR BONDS

Ships of the Destroyer type comprise the bulk of our fighting ships in the American Navy. Their average displacement is about 1800 tons, and they are fast, powerful, and hard hitting. They have been particularly effective in convoy duty and gave a good account of themselves in the Coral Sea engagement. They cost approximately \$3,600,000 each.

Every Navy shipyard is turning out Destroyers in record time. They are essential for our two-ocean Navy. Purchase of more and more War Bonds will assure all-out production of these vital units for the Navy. Buy every pay day. If everybody invests at least ten percent of his income in War Bonds we can do the job. U. S. Treasury Department

Because tin cans are likely to be used for transportation and other facilities needed for war purposes, Federal authorities are urging the public to use fresh foods as much as possible.

Latest figures of the U. S. Department of Agriculture reveal that there were 292,900 more persons employed on American farms on June 1 than on the same date a year ago.

MYSTERY OF THE FACELESS GIRL—TRUE LIFE STORY

Exciting story from real life in which a noted author tells of the case of a murdered girl whose death sent four men to the gallows and six to prison, although her murderers were never caught. Don't miss this unusual story in the July 12th issue of THE AMERICAN WEEKLY

To say America is the home of the free doesn't mean that one hasn't to pay rent.

A fertile brain is one which produces at least a few new thoughts.

"God Bless America" is not a release for Government officials to play politics.

Wine at dinner, beer as a soft drink, and social cocktails at bridge parties are not answers to the prayer, "Thy Kingdom come."

In this day of war and strife Many a soldier is taking a wife.
