

**THE GLEANER**

GRAHAM, N. C., APRIL 8, 1943

ISSUED EVERY THURSDAY

**J. D. KERNODLE, Editor**

\$1.00 A YEAR, IN ADVANCE

Entered at the Postoffice at Graham, N. C., as second-class matter.

Tuesday was the 26th anniversary of America's entry into World War I.

Governor Broughton asks North Carolinians to observe April 13 as the 200th anniversary of the birth of Thomas Jefferson. He was author of the Declaration of Independence.

Jonathan Daniels, son of Hon. Josephus Daniels and former editor of the Raleigh News and Observer, has been appointed a fact-finding assistant to President Roosevelt. He was made O. C. D. assistant director about a year ago. Mr. Daniels is the author of three books, young and virile, and has proven that he knows how to find out things.

The President vetoed the head farm price bill claiming that it meant inflation. The Senate threatened to carry it over the veto. John L. Lewis was ready to call a strike of the United Mine Workers upon the passage of the bill over the veto, for that it would open the way for an advance in the cost of living. Each one is watching the other. It's somebody's move, which it will be does not now appear certain.

Ex-President Alexandre Millerand of France died Tuesday at Versailles, at the age of 84. He was president of the French republic from 1920-24. He was one of the first of French statesmen to sound a warning of the growing might of Germany after Hitler came to power, and advocated army conscription for a term against the "German menace". He was old enough to remember the Franco-Prussian war and Bismark, and he had World War I to bolster his opinion of German intrigue.

Two forest fires are reported to be burning furiously in the western part of the state in the timberlands of the Blue Ridge mountains. One is in the Low Gap area of Surry county where many acres have been burned over and much valuable timber destroyed, and the other is along the Wilkes-Watauga county line. Both fires started Sunday. Warnings are constantly uttered about the careless use of fire and the great damage they do to timberlands. It takes a generation for a tree to grow to timber size.

Those fires thousands of trees will be burned or so damaged that they will be worthless for lumber. Timber is one of the state's greatest natural resources and is growing in value year in and year out.

If John L. Lewis were as insistent on the increase in production as he is on increased pay, he would have a long shot better case to present for his demands. After more than a year our armed forces are just beginning to have enough war machines to make it look like victory is coming our way. We are not saying vast quantities of war materials have not been turned out. But with so many thousands on the job, it could not be otherwise without it appearing that many were doing nothing but waiting for the handout. Much honest, conscientious work has been done or we would not be where we are now. There have been many slackers to keep production down and they have been winked at rather than urged to do their best.

Workers in a Michigan refinery fixed up a very low, false door leading to the pay office. On it is inscribed, "You will learn to duck lower if you don't buy a Bond."

**THE WAR**

The past week has been one of the most active since the war began, taking it as a whole.

In North Africa British, American and Fighting French armies are crowding Marshal Rommel into closer quarters—strong defenses have been broken, 6,000 enemy prisoners taken, positions heavily bombed, and a large number of ships and planes destroyed. It begins to look like the Tunisian front is doomed.

On the Russian front the spring thaw has almost bogged down both the Reds and the Nazis. If the Nazis would advance, they are held back by both the Reds and the thaw.

On the European front the RAF and Americans have delivered the heaviest bombing of the war. Kiel and other important German war implement producing plants have been blasted in destructive air raids—not once in a while, but by day and night. Observers think preparation is being made for an invasion, and Hitler seems to be of the same opinion, in that he is trying to strengthen his positions. While blows have been delivered at German-occupied territory, Italy and Sicily have not escaped.

In the Pacific in the Solomon Island area the Japs, while apparently moving to recover lost positions, have lost many planes and a number of ships. But the Japs leave for a while, then come back. Away to the North, in the Aleutian islands, the Japs are trying to establish themselves. That they have succeeded to some extent is the fact that they have been raided on Kiska island 40-odd times in the past few weeks without giving it up or being driven away.

**To the Banana**

In absence makes the heart grow fonder, there's proof these days that it has the same effect upon the palate.

Take the banana. That is, if you can get it. And if you can, watch out. Friends will turn your neck with increased affection. Strangers will pause and stare. Traffic will stop. All because of a banana.

Imagine a banana causing a furor like that a few years ago! Why, folks used to go without bananas for weeks on end—voluntarily. Now what happens? A shipment comes in. There's a rush for the market. People buy them just to boast about it. People who never even cared for the fruit devour it with the greatest of relish.

It's a fickle world, indeed, dear banana, and lest your golden head be turned by all these new-found admirers, let us warn you that it is your absence, not your presence, which is the spur to their affections.

We shall be glad, of course, when you return to dwell among us. But once you're here, the fuss will be over. Your real friends will be faithful and the others will pass you by. And that, dear absent banana, is the way it is.—Christian Science Monitor.

**Union Ridge News**

Carl McCauley, of Camp Gordon, has been visiting his parents at Glencoe.

Next Sunday is family Sunday at the local Christian church with lunch on the ground and services in the afternoon.

Pete Scott, a student at the University at Chapel Hill, spent the week-end at home with his parents, Dr. and Mrs. S. F. Scott.

Mrs. Malcolm Barker visited her husband at a New Jersey camp last week, where he was being transferred again possibly to foreign service.

Roney Hurdle, who is located at Nashville, Tenn., in the air service, arrived Saturday on a ten-day furlough in order to be home for the sale of his mother's estate.

Mr. and Mrs. Lon McCauley, Jr., who have been located at Aberdeen, Md., for some time, were visiting at the home of his parents, Mr. and Mrs. Lon McCauley, Sr., last week. They were en route to San Antonio, Tex., where they will be located in the future. Lon, Jr., is an instructor at the army school.

**American People Face Acid Test in Treasury's 2nd War Loan To Raise 13 Billion Dollars in Three Weeks**

**The Nation Dare Not Fail in This Greatest Financing Task in History—"They Give Their Lives—You Lend Your Money."**

Washington, D. C.—Coming as it does upon the heels of income tax payments, the people of America will face an acid test this month when the Treasury's Second War Loan drive opens April 12 with an objective of thirteen billion dollars to be raised through sale of Government securities.

A substantial part of this huge financing, the most stupendous ever undertaken by any government in the world's history, must be loaned by people in ordinary walks of life.

High Government officials have pointed out that the nation must not fail in this duty to our men on the battle fronts who are now carrying the offensive to the enemy at every stage. It is obvious to every thinking man and woman that as the United Nations take this offensive against the dictators, the cost of war operations increases in proportion.

The American people must no longer think of war costs in terms of equipping a soldier, building a tank or plane or a ship. We must now think in terms of the cost of battles, invasions and new offensives. Attacking armies cost more money than equipping that army and we must meet that increased cost by buying more War Bonds and Second War Loan Securities.

**They Give Their Lives.**

It is not only necessary that the American people left here at home assume this additional participation in the war effort—it is an honor to do so . . . for we here at home can do no less than attempt to approach the sacrifices of our brave men out on the fighting fronts to whom the last great measure of sacrifice is but a daily offering. They give their lives . . . we are asked only to lend our money.

And that is the theme of the Second War Loan, "They Give Their Lives—You Lend Your Money."

Financial experts who know monetary conditions in the nation point out that at the present time there is in liquid funds, cash and commercial bank deposits over and above taxes and present investment in Government Bonds, and over and

above what can be bought this year because of restrictions and rationing . . . approximately 40 billions of dollars which should go into Government Bonds.

It should be the objective of every American to invest these loose dollars, idle dollars, in Government securities, not only from a patriotic standpoint, but from the standpoint of their own financial security. There is available during the Second War Loan a type of Security to fit every pocketbook.

**Are Wild Dollars**

Every dollar of these forty billions of dollars available, which is not invested in Government securities during this War Loan Drive is a "wild" dollar which, together with its mates, will tend to increase inflation. Uncontrolled inflation might raise the cost of living to a point where the dollar is worthless. It can happen. It happened in Germany after the last war when the price of a loaf of bread cost more than an annual wage.

Invested in Government securities, your dollar will work for you. It will hold down inflation because it is harnessed in war work; it will help buy food, transportation, munitions for our boys on the front lines and it will be earning interest that, together with your original loan, will come back to you later to help you buy the things you cannot buy today . . . to insure your peace of the future.

Remember those boys out there . . . in Tunisia . . . in the South Pacific . . . They give their lives—You lend your money.

**AMERICAN HEROES**  
BY LEFF

Lt. Clarence Lipsky, United States Air Force, from Great Neck, L. I., was one of the first Americans to participate in the bombing of Germany and the occupied countries. Forced down over enemy territory, Lt. Lipsky is now in a Nazi prison. To free this American soldier, as well as guarantee your own future liberty, buy Second War Loan Bonds with every cent not needed for the essentials of living.

If you are having a busy Sunday morning and are planning to produce a warm, syrupy apple pie for Sunday dinner in record time, try this idea. Prepare the pie completely the day before and store unbaked in the refrigerator overnight. Then, after church and while the dinner is cooking, place it in the oven for baking.

American science and industry has come to the aid of housewives, canning fresh fruits and vegetables. Tin cans are principally steel, and the amount of tin per one hundred pounds of tin cans has been reduced from 2 pounds to only 1/2 pound.
