HOSTETTER'S STOMACH BITTERS

For the cure of Dyspepsia Indigestion, Nausea, Flate lency, Loss of Appetite, or any Billious Complaints arising from a morbid inaction of the Stomach or Bouels, producing Cramps, Disentry, Colic, Cholera Mor-

In view of the fact that every member of the human amily is more or less subjected to some of the above complaints, besides innumerable other conditions in life, which, by the assistance of a little knowledge or exercise or common sense, they may be able so to reg-ulate their habits of diet, and with the assistance of a good tenic secure permanent health. In order to secomplish this desired object, the true course to pursue certainly that which will produce a natural state of hings at the least hazard of vital strength and life ; for his end Dr. Hostetter has introduced to this country a reparation called HOSTETTER'S STOMACH BIT-TERS, which at this day is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to healthy and vigorous action, and thus by the simple rocess of strengthening nature, enable the system to riumph over disease, Diarrahœa, dysentery or flux, so generally contracted by new settlers, and caused prinipally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dysepsia, a disease which is probably more prevalent when taken in all its various forms, than other; the cause of which may always beattributed to derangements of the digestive organs, can be cured without fail y using HOSTETTER'S STOMACH BITTERS as per irections on the bottle. For this disease every physician will recommend Bitters of some kind, then why not use an article known to be infallible? Every country have their Bitters as a preventative of disease and strengthening of the system in general, and among hem is not to be found a more healthy people than by the Germans, from whom this preparation emenated, based upon seientific experiments which have tended to advance the destiny of this great preparation in the

FEVER AND AGUE.

This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short space of time, and rendering him physically and mental useless, can be defeated and driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, any of the above stated diseases cannot be contracted when exposed to any ordinary condidion producing them, if the Bitters Danghery, Waynesboro', Pa; Rev. Thomas E. Locke, are used as per directions. And as it is neither creates nausea nor offends the palate, and rendering unecessary any change of diet or interruption to usually pursuits, but promotes sound sleep and healthy digestion the complaint is thus removed as speedily as is consis-
