THE POLITICAL CAUCUS AT ROCHESTER.

A telegram from Rochester, 19th, gives the resolutions adopted at the Conservative Convention, at Rochester. The resolutions affirm: 1st. That this meeting favors an association of conservative Union men for the next Presidential campaign, and invites the co-operation of all opponents of secession, abolitionism or nativism of any kind.

2d. Provides for a National Committee, who shall call a National Convention, &c., and confer with other conservative organizations, for the purpose of securing united action.

3rd. Advocates a "vigorous and successful prosecution of the war against the people in a state of military insurrection, until they return to the Union, under their respective State Constitutions existing at the time they revolted."

4th. Defines the rights of the people of any State who are in insurrection, upon returning to their allegiance, &c. 5th. Declares that "the rights of property, whether in lands, personally, or slaves in the States are exclusively within the authority and jurisdiction of the States respectively."

6th. The sole end for which the United States Government has power to carry on the existing war against the people in revolt is to suppress the insurrection, &c. A National Committee was selected, and R. T. Stevens appointed Secretary. An interview with Ex-Governor Hunt was held with closed doors, after which the meeting adjourned sine die.

POLITICS IN THE NORTHWEST.—A telegram from Indianapolis, 20th inst., says: A very large and enthusiastic meeting of War Democrats was held here to-night. All parts of the State were fully represented—Gen. Nathan Kimball presided, and Major Gen. John McClernand, Gen. Dumont, and Hon. Henry Sevier were among the speakers.

LETTERS were received from Hon. Lewis Cass, Gen. Logan, and Daniel S. Dickson, all of whom expressed their sympathy with the objects of the Convention. Resolutions were adopted favoring a vigorous prosecution of the war, &c.

PRESIDENT LINCOLN has signified his purpose to attend a Union mass meeting to be held at Springfield, Ill., on the 3d September; but should business prevent, he will address the people by letter. The most extensive preparations are making to make this meeting the largest ever held in the West.

GEN. LOGAN addressed a large meeting at Salem, Ill., on Tuesday. Judge C. McVeigh was present, and Gen. Logan denounced him as one of the leaders of a band of traitors who were plotting the overthrow of the Government. Melvern left the crowd without replying.

BELGIUM AND THE AMERICAN WAR. BRUSSELS, Aug. 6.—The King of the Belgians gave an audience to-day to Mr. Jewett, the American friend of mediation. The King permits the publication of the substance of the interview. The King believes that the decision of a just tribunal offers the only means for the restoration of peace. The abolition of slavery, if stipulated for at all, should be gradual. America and Europe should together make provision for the slave. Mediation is not interference.

THE OTHER GOVERNMENTS should not be unwilling to join France in working on the interests of peace, now that the South favors such a policy; that humanity and the interests of the world has, in a general peace, invited friendly action. Force cannot secure the welfare of America; that an international judgment would cement forever the foundation pillar of American liberty; that he would submit the matter to the Queen of Great Britain.

THE DRAFT IN NEW YORK.—Despatches from New York state that the draft in the Sixth District is progressing. There has been no riotous demonstration in any part of the city, nor is any apprehended. All business is going on as usual. Through the measures taken, a riot could not certainly live one hour either in New York or Brooklyn. A thousand names were drawn Wednesday. Five regiments of the Potomac arrived in the North river Tuesday.

PROHIBIT THE CIRCULATION OF "GREENBACKS."—Prohibit the circulation of gold; prohibit the running of blockades; prohibit the sale of yankee literature; prohibit the substitute system; prohibit the system of "short rations to soldiers;" and you prohibit them, good Mr. Administration, beyond peradventure, the subjugation of your people and the destruction of your credit.

ATLANTA, Aug. 21.—A special dispatch to the Appeal, dated Canton, 20th says that Grenada has fallen into the hands of the Federal force from the Yazoo and another from north of the Junction. The rolling stock of the Jackson and N. O. R. R. is at Grenada. The enemy met no opposition. Chalmers was absent. Col. Clemmens fell back to the Yallahs and fought the Yankee raiders three hours. The wagons were saved. The Yankees went south, threatening the rear, when our forces evacuated Grenada. The Yankees burned the rolling stock and captured Maj. Chalmers and a party of men. One quarter of the town was burned. On hearing that Gen. Jackson was coming, the Yankees retreated precipitately. Both of the large, fine Railroad bridges over the Yallahs were burned. Gen. Harth is reported dead.

PRINTING WITHOUT INK.—A gentleman, a large capitalist, and one of the most successful inventors of the day, has succeeded in chemically treating the pulp, during the process of manufacturing printing paper, in such a manner that, when the paper is impressed upon the uninked types, the chemical particles are crushed and a perfect black impression is the result. The advantage sought to be obtained is the discarding of ink and rollers, and by revolving printing machinery, and printing from a continuous roll of paper it is calculated that the time occupied is diminishing in comparison to the requirement of the present day. Cleanliness in the printing office would thus become proverbial, and the time now wasted in making and distributing the rollers obviated. We have been assisting this gentleman in some parts of the experiment, and further information is withheld at his request until letters patent shall be obtained.

BROKE JAIL.—John Mincey, a white man confined in Jail at this place for stealing a pocket book and watch, escaped last week, being the second time he has broken out. He is a grand rascal and it would be well for all good citizens to keep a watch out for such characters.—Charlotte Democrat.

A PROCLAMATION BY THE GOVERNOR OF NORTH CAROLINA. Whereas, it appears to me that the necessities of our people still require the continuance of the prohibition heretofore extended by proclamation to the exportation of certain articles from the State. Now, therefore, I, ZEBULON B.
