JAMES A. THOMAS, Editor & Proprietor

FRIDAY, OCTOBER 14, 1887

WHERE THE PARTY STANDS ON PROHIBITION.

Prohibition failed in Tennessee. The majority against it will reach perhaps 50,000. Republican organs find in the result another illustration of the fact that Democrats are more inclined to whiskey than saloons. Such reasoning by our Republican friends is childish and quibbling, and is only meant to mislead, and even to prejudice against the Democratic party. The position of the Democratic party now, with reference to prohibition, is the position of the party in 1850. It

then, as now, was to submit to the will of the people on the question of prohibition, which had been decided by the government. We have here no legislation, no law, no reason, Indian and

white, to support our

position.

Democracy does not believe in Prohibition by

law. This is pecuniarity, the

influence of the church and the

influence of institutions. It believes

in the right of self-government,

and in the right of the people to

choose their own leaders.

THE MONEY KING (?) FAILS TO ARRIVE.

Scores of Disappointed Anxiously to be Capitalists.

THEY FIND, BUT TOO LATE, THAT CANADAY WAS JUST WHAT THE TIMES DUBBED HIM—A FRAUD.

ON THE DAY OF PROCLAMATION.

Last Friday and Saturday reminded the writer of the times just after the war when all sorts of schemes were gotten up by various sharpers and scoundrels to dupe the ignorant negroes. It had been reported that Thos. Canady, the negro lawyer of Oxford, to whom the Times paid his respects two weeks ago, would be here on Friday for the purpose of loaning to all those from whom he had received applications. We need the money and frankly say so, and ask that all in arrears will pay up as promptly as possible. Send in your subscription money and get your neighbor to subscribe at the same time.

We honestly and steadfastly believe that there is a growing tendency throughout the Country towards mixed schools. In Kansas the question is being discussed by the newspapers, and the Republican papers do not look upon it as so bad after all. How would such things work in Franklin County and North Carolina? Answer white men. It will never work if the Democrats stay in power, but if the Republicans again get control—bye-bye.

Clocks, Car-load Salt, Cheap Overcoats, Hats, &c., &c.

At the last sale, Louisville, N. C., you can get Dado window shades for \$1.25 per pair.
