TAR DROPS

—A large number of our people attended the Fair. —Look out for B. F. Clifton's new advertisement next week. —It is claimed that next year will be a big wheat year. Plant a big crop. —Again, we would gently remind our wood subscribers that the winter is approaching. —Read the notice of Sheriff Kearney this week. He has one in this paper that all tax-payers should pay attention to.

—Mrs. A. M. Hill's millinery store is one of the most attractive places in town. Look out for new advertisement next week.

—The birds will see very little pea-e from now until April 1st. The law to prevent shooting them having expired last Saturday.

—The attention of every reader of the TIMES is this week directed to the article headed "Annotated" on our first page. Be sure to read it.

—The rain this week prevented people from coming to town, and consequently business has been almost at a standstill until to-day. (Friday) when things looked quite lively.

—On account of the absence of nearly on whole force (attending the Fair) this week, the paper is a day late this week. Those who fail to receive the paper on time will hear with us this time, and we will try to prevent such tardiness again.

—The Weldon Fair comes off on November 1st to the 4th, and promises to be the best ever held. Senator Wade Hampton will be present, and deliver an address on Friday of the week. The rates on all railroads are very low.

—Rocky Mount Fair, which takes place November 16th to the 18th, will be better, it is said than any Fair heretofore held at that place. Great interest is being manifested, and the Secretary, Mr. Underwood, tells us that the exhibits will be very large.

—A large number of the colored people will go from this section to the Fair which will be held at Raleigh next week. John Williamson, the Secretary, will accompany them for a complimentary ticket. He informs us that, with good weather, the Fair will be a grand success.

—The Raleigh hackmen as a rule are very polite and accommodating, but some of them are altogether too careless about stopping their links on cross-ways, particularly in bad weather when the crossings should be kept open. —News-Observer.

—And you might have added that they have no conscience in charging exorbitant rates of strangers visiting Raleigh.

—The Durham Recorder says: "The snipers of the Durham & North Carolina are sniping a new line, this time on the direction of Fayetteville. The road may yet go to Fayetteville."

—A subscriber from Sandy Creek gives us the following item: "Two of the 'crack shots' were out gaining a few days ago, and one of them killed a fine squirrel. He stopped to load his gun while his companion went for the game; but to his astonishment he could not find it. Hearing something in the leaves near by he looked and he held a very large black snake, and his snakeship seemed to be in much pain. Both sportsmen waited into the reptile and succeeded in bringing his life to a close. Not being able to find the squirrel, they began to think that it was a mistake about killing him, but just then their attention was directed to the unusual shape of the snake, and they at once cut him open when out roiled the said squirrel. They are not certain whether the snake swallowed the squirrel or that he ran into the snake's mouth, thinking it to be a hollow."

Misses Eva and Willie Simmons, of Wake Forest, are visiting Mrs. E. W. Timberlake.

Mrs. C. E. Crenshaw and Miss Jennie Williams returned one day this week to their home in Oxford.

It is with much pleasure that we note the successful examination and the appointment to a position in the U. S. Signal Service at Norfolk, of Mr. Robt. G. Allen. He left this week to accept the position.

Mrs. J. A. May, of Pigeon River (beyond the Blue Ridge) is, visiting Louisa, guest of W. B. Conway, Esq. The editor is indebted to her for some very fine mountain apples and chestnuts. We are glad to learn that Mrs. May is making quite a success in fruit raising, &c.

Accidents.

The week seemed to be an unlucky one for our citizens in this section. On Friday Mr. Wesley Burnett, who has a gun about seven miles from Jonesboro had his hand so badly mangled in the gun that Dr. Maloney had to amputate all his fingers on one hand save one and his thumb. On Saturday Mr. R. B. Harris got mixed up with a pulley and a belt in the Jones gin here, and had his right arm broken in two places between the elbow and hand, and the same day Mr. Evans, at Terrell's gin (while cutting some baggage) but the main artery in one of his legs, and came near bleeding to death. These are all sad occurrences and much sympathy is felt for each one of them. We learn that several such accidents occurred in the neighborhood of Franklin last week.

The Tobacco Trade.

A correspondent of the Tarboro "Southerner" writing from Louisa says: "Louisa is a good market for cotton, but offers but few inducements to the tobacco trade. Hence, the tobacco culture in this county and is well patronized by this county."

The first line of the above clipping sounds very well to us, but the balance of it sounds bad. As we have said before, all the tobacco raised in Franklin county, and a great deal raised in Nash should be marketed in Louisa. We have too good, substantial warehouses, and all that is needed is some good, energetic men to take hold and run them. We are authorized to say that the RIGHT MAN will be furnished the large warehouse on Nash street in Louisa. It is a first class building, and in addition, a first class amount of money is set aside for the trade here. What more can be said? Now let the man who means business, wake up, and if he does not succeed it will be his own fault.

The Fair.

The editor went out to Raleigh on Tuesday evening for the purpose of taking in the Fair. Heretofore in the city until Thursday night, and had to return without carrying out his intentions. As all, who were in Raleigh this week, know, it rained. It commenced raining Tuesday and never ceased for a longer period than ten minutes, until Thursday just before night; and in the face of all this, the city was full of people from every section of the State. There were about 3,000 or 4,000 people in the Fair grounds on Thursday. Of course the rain prevented all from enjoying themselves and caused the Fair to be "up to Thursday, almost a failure. The best and most creditable exhibits we saw were the Poultry and Art departments. The exhibit of live stock, though small, was good. A great deficiency was noticed in the exhibit of agricultural products. The greatest success of the Fair was the attendance.
