Lazy Farmer.
I used to get mad and cuss like a trooper when the Yankees said that Southern people were lazy. But I have had to acknowledge the fact. This is true it is not real, pleasant to think so, but facts are stubborn things to get around. And for twenty years stubborn facts have been accumulating that from beyond a doubt that we, as a people, are lazy and thoughtless.

A Pull Together.
The Wilmington Messenger very truly says that some of these days North Carolinians will prosper; that North Carolinians for North Carolina is the motto which all of us should adopt; that the man who prospers by his town is the man by whom his town will stand.

Make It Unanimous.
The readers of the Chronicle will remember that Barnum, the great showman, said in 1884, just before the election, that if Cleveland should be successful, he owned fifty houses in Bridgeport, which he would sell at half price, that being his estimate of the depreciation of property likely to follow a Democratic administration.

Unsuspected disorders of the kidneys are responsible for many of the ordinary ailments of humanity which are neglected, develop into a serious and painful ailment. Experience would suggest the use of Dr. J. H. McLean's Liver and Kidney Balm.

In the United States to-day there are about 2,500 jails and prisons. Out of the 2,500,000 persons annually arrested, 170,000 are convicted and made prisoners for longer or shorter terms in these places of criminal confinement. If we allowed that 40 per cent. of these, which is a high estimate, are "repeaters," we will still have over 100,000 persons annually introduced and broken into what may be termed criminal experience and suffering the punishment of a criminal.

Every human habitation should contain some "convenience" for a complete bath in water. In the long catalogue of diseases, says a well known physician, scarcely one can be named in the treatment of which a bath is useless. To those blessed with good health, a bath gives thrift and growth to healthy functions, a brightness and a delight to the soul, a clearness of mind and buoyancy of spirit. It is certainly a blessing to both mind and body. For the invalid worker it is a nerve tonic. A thorough application of water of proper temperature will calm and give tone to the whole system.
