The convention was called to order by J. A. Thomas, Chairman of county Executive Committee and E. W. Morris was elected Secretary.

On motion the temporary organization was made permanent. The chair explained the objects of the Convention and upon motion the townships were requested to select the number of delegates each township was entitled to and report to the Convention for ratification.

were greeted with applause. He is one of the speakers in the State, and this District will hear from him many times during the coming campaign. Loud calls were made for Hon. C. M. Cooke and he came forward and addressed the convention in a manner that was pleasing to all. He impressed upon every Democrat who had any grievances, whatever, to lay them aside and stand shoulder to shoulder in the coming contest. Col. W. F. Green responded to calls, and made some good points on the Iniquitous tariff, and explained how the laboring classes were being ground down by the Republican rulers, known as a protective tariff. The Colonel is well up on these questions, and the people will no doubt hear him with much interest during the coming campaign. Mr. Guiley was called for and responded in a happy manner. He is considered as one of our best "stumpers" and he is never caught "gapping." Always ready when called upon, and never fails to say something good. R. A. P. Cooley of Nash, made a neat, sensible and telling speech. Much enthusiasm was manifested, and a determination seemed to be in every face, that old Franklin should be redeemed this year. The Convention was one of the most harmonious ever held in the county, and the Times predicts that it is but the beginning of a grand victory which will be completed on the first Tuesday in November.

ATTENTION CITIZENS.
Louisiana, N. C. April 18th, '88.
Mr. Edgerton.
Now that it seems to be an assured fact, that the Great Western Air Line Railroad from Charlotte to Weldon will be built, and there are three lines proposed through the county viz: one crossing the R. & G. B. R. about Youngville and the Tar River a few miles above Louisburg, and the other from Durham via Franklin, Louisburg, Laurel and Centreville, I would respectfully but seriously ask the people of Louisburg if they can afford to let this Road pass them either above or below not less than four miles off? When they can by a subscription of \$5000.00 payable if they choose 30 years after date, secure it by the center line. Think of it, fellow citizens and be well represented at the R. R. meeting on the 1st Monday in May, \$5000.00 is all that will be asked of you and unless you subscribe that you need not expect the Road through your town.

A GOOD SUGGESTION.
The Wilmington Star makes the following sensible suggestion:
The Star would again urge upon its party friends the necessity of nominating the best men for office, and especially to the Legislature. North Carolina has suffered to some extent from incapable and inexperienced legislators. There are intelligent, informed, honest, good men in every county who would make satisfactory law makers, and they should be selected. While availability is not to be overlooked it is plain that mental and moral qualifications are of decided importance.

Some years ago a member of the General Assembly called on a gentleman in Raleigh to draw a bill for him. "What do you want?" asked the gentleman. "Well," said the member, "I want to do something"—after a moment's reflection—"repeat or amend some chapter of Battle's Revisal." The people had better keep such members at the plow handles. There they can do something that will not hurt others though it may not amount to much good for themselves.—Newbern Journal.

THE New York Star says:
The organs of the bloody shirt and negro disfranchisement speak of the breaking of the deadlock as a "victory for the Beitzediers" and a "triumph for the Confederates over the North." The result of the conquest is that the question of making large appropriations to meet claims arising twenty years ago is postponed until December to facilitate a prompt reduction of the burdens of taxation. Had the contest ended differently it would have been the diminution of the taxes that would have been put off, while the expenditure of money in the Treasury would have gone merry on. If this be a triumph for the Confederate Brigadiers, we fancy that the country can stand a good deal of it.

THE RIGHT BING.

The following written for the Scotland Neck Democrat by Hon. W. H. Rifehen has the right about it.
The question is not who can get the nomination by combing and political thimble-rigging, but who can fire the heart, convince the judgment and capture the soul of the Democracy and lead it in the valleys and over the mountains to a grand and glorious victory? Show us the man and he is our man. There is no child's play in front of the party for the coming campaign. We are not stronger than we ought to be. We have no strength to spare. The party will need every man and need him bad. The defeat of the party, and the success of its opponent would decrease the value of property thirty-three per cent. We have all to fight for, and all to lose if we are defeated. The white people of this State must rule and control it. We can't afford to surrender to the negro party. This is a white man's government, created by white men and must remain in the hands of the white men. We can, and will take care of the negroes, they cannot and will not take care of us. God never ordained or decreed that negroes should rule over the Anglo Saxon race, and they never will so long as we obey his holy decrees. Now we are for the man who can lead the people to victory over all objects and difficulties, many of which are to be overcome, in the coming contest. Come one, come all and fight under the white banner of peace against sectional hate, bloody shirt scoundrelism, and negro barbarism and superstition.

A MINISTER POUNDED.
MAPLEVILLE April 17, '88.
To the FRANKLIN TIMES.
Dear Mr. Editor:
I write to enlist your help to discharge an obligation under which I was placed last Saturday evening at my residence. It is of so unusual a character to me as an Episcopalian, that I wish I had you now at my side to have the benefit of your experience, that I might do justice to it, as I feel it justly demands.

On the evening named, I was visited by eighteen ladies, the cream of this neighborhood, not a gentleman amongst them. After a slight complimentary and discussing the events of the week, the visit was enlivened by singing and closed with prayer. Thanks were rendered for the call by so influential a party, and return visits suggested, when they took their departure, leaving us feeling much honored by a visit from such an august assembly. Say you, what help do you seek? What of a special character was there, as you make so much of it? True, were my story finished you could justly question me. But when my guests have retired, my presence is requested in the dining room, when to my astonishment I saw the four legs of a large table, growing beneath the weight of a variety of foods, glass ware and flowers that periodically bordered me, my first feeling was that I had been unjustly dealt with: these good things had been left by my kind visitors, and they were not there for me to thank. I also felt that, it is possible, that it was "more blessed to give than to receive." I thought, yes, these things have gone away with emotions, mine easily felt than expressed. Their mission has been to give practical expression to a welcome they wish to accord to myself and family, strangers in a strange land. Now, the help I ask at your hands is that you will place your columns at my disposal, that I may thank the friends who visited me, and those whom they represented, as well as persons in Louisburg, some of whom I have been introduced to and others who I have not.

I suppose you will say I have been pained, I have been told such is the case and in a most remarkable degree. It is just to say, that whilst it emanated as Miss Cooke's church, all sections of the Christian community combined in the matter. May I say again on behalf of myself and family, we thank all concerned, and so thank God that he has led us in the midst of such a kind, generous and considerate community.

A LETTER FROM TARBORO.
Mr. Editor:—
The people of this town have become enthused. They have nothing but talk about improvements, what is the future of the community, how the population can be increased, and in a word what is the best thing for Tarboro, from every point of view. The Community, a piece of public property, situated in the centre of the town, is being made to pay on the appearance of it Park. Naturally possessing beauties scarcely surpassed elsewhere.

stands covered by hundreds of immense oaks, it is to be made the pride of the town, by beautifying it with the choicest art. Factories are the next order. And it is really believed that a park will be established in the course of a few months. Several parties are now in the interest of building a new factory, while the business men are making efforts to build a cotton factory. And I think when it is built, that it will still say, "How did we do without as long as we have?" It is a wonder why we are not more built, and it will be a greater wonder when it is built, why it was not built before.
