According to the New York Herald correspondent all Washington is split-ting its eites ever a story of social ro-mance and misadventure which has just leaked out. Mr. George Barclay of the elently epris of Miss Leiter, the beautiful western heiress, who has turned all Washington heads this winter. Mr. Barclay is the attractive young gentleman who won fame and money at the Knickerbocker Club in New York by backing himself to drive to the Brunswick Hotel, dress for dinner and return inside of ten minutes / He did actually accomplish this feat inside of seven minutes. It is indoubtedly owing to this nervous haste abnormally developed in an otherwise rather slow hature that

Mr. Barclay felt the approach of the cold wave, and purchased some of those warm woolen garments which stick close than a brother to a cold man's legs. The same afternoon ha ordered a box of roses to be sent to his lodgings. Late for dinner, as usual, he rushed home, dashed off a pretty note to Miss Leiter, saying: "Wear these this evening for my sake," and handed the note and the box containing the woolen goods to his servant, while the box of roses remained upon Mr. Barclay's ta-

The note and hox were duly delivered girl's face flushed with pleasure as she read: "May I hope that you will wear these for my sake?" With eager hands she untied the fastenings of the box and lifted the lid, when lo, to her astonished gaze, was revealed, not the expected flowers, but a complete set of men's underwear? Explanations as to the stupidity of the valet in changing the boxes proved to be no svail. The vinged god has flown, and the diplomat, disconsolate and forlorn, has been dropped from the lists of guests at the house where formerly he was made welcome.

A cluster of ten graves attracts the eye of every one who visits the grave ard at Ariffin. These graves and the ledgen a

hem awaken an irristable sense of husor. At the heads of the five large graves stand plain marble slabs, each name and age of "my wife." The five little graves have small slabs of the same design, each bearing the name of

One husband has burried here five wives, and one father his five children. By the side of each mother sleeps her child, one husband and father burried them all.

He said the reason he had the same kind of tombstone placed over them all was his strict sense of imparciality. He had loved each alike and no one wife more than the other. No later Rachael has supplanted Lesh; and he did not wish to show any partiality in the matter of their graves.

The slabs are so arranged that the first is that over his first wife, grave; then the second wife and the second little child. So that reading them in proper order we get the following legend and moral:

"My wife Mary, aged 25:" "Little Simeon." "My wife Jane, aged 31."
"Little Georgia." "My wife Anna, aged 27." "Little Birdie."

"My wife Maria, aged 28," "Little Ruth." "My wife Betsy, aged 30."

"Little Hope." He has buried the "little hope" he had but he is still a marrying man, and after being "consoled" he began envuiring among the neighbors "if they knew of a desirable weman who wanted to marry."-Atlanta (Ga.) Journal.
