

The Pollution of Politics.

To one who watches the course of politics in these days, there is presented a remarkable current of events—a current that is not entirely free from a polluting power beyond anything known. Men are one thing to-day and something else to-morrow.

Diogenes of old was not so much in error when he claimed that with the aid of daylight and a strong lamp that he could not find an honest man in Athens.

If parties are not purged of corrupt influences, how are politics to be managed in a clean and satisfactory manner to the people governed?

Two striking illustrations are given in the contest between Catchings of Miss., and a negro named Hill for a seat in the House of Representatives. One stole fifteen private letters of Catchings to McNeal, County Chairman of the Democratic party, with whom he was on terms of confidence, and turned them over to Quay.

The other fellow,ifiable by name and less in character, swore that he put one hundred votes for catching in the box, and he received for his testimony a \$1,800 clerkship.

Nothing is further from us; we care but little who are sent as Consul by a Republican Administration; but we do feel sick at heart when a man comes to the Presidential chair, heralded for his honesty, integrity and christian graces.

Mr. D. M. GRAYSON, of Cronville, Franklin parish, La., says: I think Swift's Specific is the best blood remedy in the world. I have known it to make wonderful cures of persons with blood diseases, some cases which had been regarded as incurable.

DR. B. T. COPPEDGE, of Verona, Mo., says he has sold a large quantity of Swift's Specific, and to a great many customers, and knows it to be most successfully used for miasmas of the blood.

SWIFT'S SPECIFIC is not one of the old potash, nassarilla, or mercury mixtures. It contains no potash, no mercury, or any poisonous substance. It relieves the system by forcing the impurities out through the pores of the skin, and builds up the patient from the first dose.

We sell great quantities of S. S. S., and the sale holds up well—no falling off, or prospect of falling off. While many are loud in their praises, not one complaint has been heard from our customers.

Notice to Pensioners and Applicants for Pensions.

AUDITOR'S DEPARTMENT, RALEIGH, N. C., June 28, 89. Pensioners and Applicants for Pensions under the Pension Act, and to others whom it may concern.

The following information is published for the benefit of all concerned. 1. The new pension act does not go into effect before next year (1890) except so far as relates to determining the character and classification of those who are to receive its benefits; see 1st proviso, 10th section of the new act, copies of which will be furnished upon appli-

cation to this department. Pensions will be paid this year from the appropriation (\$9,000) provided by the act of 1885, as amended by the laws of 1887 and according to the requirements of that act as so amended. This sum is required to be paid promptly and is likely to be very small, owing to the large increase in the pension roll since the passage of the new pension act.

2. Pensioners whose name is upon the pension roll will not be required to file new applications, at least until the new pension act goes fully into effect, and most probably not then. Further information on this point will be furnished at the proper time.

3. Blank applications under the old law have been furnished to each county whenever information has been received that the old supply previously furnished has been exhausted and a request presented to this department for a renewal of the same. As the blanks under the old law will not be available after next Monday, July 1st, the distribution of such blanks will terminate with that date.

4. Registers of Deeds will be fully informed as to the time when their duties as prescribed by the act will be required to be performed by them. At the proper time copies of the new act will be furnished them for distribution, together with such blanks, &c., in conformity therewith as may be necessary to fully meet the requirements of the law.

5. The opportunity for the presentation of new applications under the old law terminates with the first Monday in July of the present year. After that date it will be necessary to get up forms of application particularly in the case of widows, and all the old blanks will be dispensed with and new ones substituted.

In addition, the department will be engaged in making inquiry into the nature and extent of the wounds, received by old soldiers, now pensioners, (where not especially stated in the original applications), in order to accomplish the classification required by section 11 of the new pension act. Inquiry will also have to be made in cases of nearly 3,000 widows who are already receiving a pension, the last legislature having determined in the new pension act that only such widows shall be retained or entered on the pension roll as are "indigent," i. e., such as are in actual destitute circumstances. As applicants will have until the first Monday in July 1890 in which to present their applications and have them acted on a suspension in the matter of the filing of new applications is recommended until such time as this department is prepared to furnish new blanks and meet all the requirements of the new law.

When prepared for new applications the said notice will be given in the columns of the various newspapers throughout the State.

Very respectfully, G. W. SANDRELLI, State Auditor.

Shiloh's Catarrh Remedy—a positive cure for catarrh, gonorrhoea, and other ailments. Sold by Freeman.

Let us even up things. Time brings comparisons. They may be pleasant, but nevertheless they come. It was fair to charge Mr. Cleveland's administration with many of the crimes that effected the people, let us see how it is now.

This time last year under Grover Cleveland's administration you could buy eighteen pounds of sugar for \$1. Now under Benjamin Harrison's administration you have to pay 10 and 11 cents a pound for it. And still Republican orators and newspapers tell us this is the era of good times.—Landmark.

THE NEW DISCOVERY.

You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever afterwards holds a place in the house.

If you have a cold, cough, or any throat lung or chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time or money refunded. Trial bottles free at Furness' Drug Store.

Faculty of the Agricultural and Mechanical College.

The trustees of the College of Agriculture and Mechanical Arts have elected the following persons to constitute the faculty:

- Professor of Agriculture, Live Stock and Dairying, J. R. Chamberlin, of Cornell University, now of the North Carolina Agricultural Experiment Station.

Professor of English and Book-keeping, D. H. Hill, Jr., now Professor of English in the Military and Agricultural College of Central, Ga.
Professor of Practical Mechanics, and Mathematics Pure and Applied, J. H. Kinsley, of the Texas Agricultural and Mechanical College.
Foreman of Farms and Garden, B. S. Skinner, Hartford county.
Steward, J. N. Hubbard, of Wake county.

ing, D. H. Hill, Jr., now Professor of English in the Military and Agricultural College of Central, Ga. Professor of Practical Mechanics, and Mathematics Pure and Applied, J. H. Kinsley, of the Texas Agricultural and Mechanical College. Foreman of Farms and Garden, B. S. Skinner, Hartford county. Steward, J. N. Hubbard, of Wake county.

CEDAR ROCK ACADEMY, N. C.

The Fall Term begins August 5th 1890. This Academy is situated in one of the finest sections of the State. The inducements offered are second to none. With a healthy location, thorough instruction, and without the evils of town, better academic advantages can not be found.

HERBINE

After reading this notice, ask your doctor or druggist for Herbina, which is not only a cure for Biliousness and Dyspepsia. It is a strictly vegetable preparation and will cure all Bilious and Nervous troubles.

Harper's Magazine.

Harper's Magazine is the most useful, entertaining and beautiful periodical in the world. Among the attractions of 1890 will be a new novel, "Lilies," by Constance F. Woolson; Illustrations of Shakespeare Comedies by E. A. Abbey; a series of articles on Bas-reliefs, illustrated by T. De Thulstrup; papers on the continent of Canada and a characteristic serial by Charles Dudley Warner; three "Norwegian Studies," by Bjornstjerne Bjornson, illustrated by J. B. Weguelin, etc.

HARPER'S PERIODICALS.

HARPER'S WEEKLY, 1.00 HARPER'S MAGAZINE, 1.00 HARPER'S BAZAR, 1.00 HARPER'S YOUNG PEOPLE, 1.00 Postage free to all subscribers in the United States, Canada, or Mexico.

Harper's Weekly ILLUSTRATED.

Harper's Weekly has a well-established place as the leading illustrated newspaper in America. The fairness of its editorial comments on current politics has earned for it the respect and confidence of all impartial readers, and the variety and excellence of its literary content, which includes the best and most popular stories, fit it for the perusal of people of the widest range of tastes and pursuits.
