TO SCHOOL TEACHERS. The Superintendent of Public Schools of Franklin county will be in Louisburg on the second Thursday of February, April, July, Sept., October and December, and remain for three days, if necessary, for the purpose of examining applicants to teach in the Public Schools of this County. I will also be in Louisburg on Saturday of each week, and all public days, to attend to any business connected with my office.

Some Lower Tariff Straws.

When the Pan-American delegates were in New England a Lowell mill owner—a republican, by the way—told them that the need of the time is free raw wool.

That was only a straw but it showed which way the wind is blowing, and therefore attracted attention. Some of the manufacturers in Connecticut—also high tariff men in the past—have recently made the same remark or its equivalent.

A second straw. Senator Fry, who regards the theory of protection as an addendum to the four Gospels and would go insane if he were accused of being a free trader, intimates that if the Southern republics will allow a few of our goods to enter their ports free of duty he will return the favor in kind.

His eyes are now clear; he has taken a second view of the subject, has seen all the tricky and humbug under the plausible protective theory, and has talked very plainly to the people of Atlanta, Ga.

Powderly says that the wage earners are not protected, but that the manufacturer is; that the rich man gets richer under that policy, while the poor man is constantly getting poorer.

Well, it has taken Mr. Powderly a long time to get there, but we congratulate him on his arrival. Protection is the doctrine of the aristocrats, and they support it in self-defense. The republican party gets its campaign funds largely from syndicates and monopolies which are bred and kept and live by protection.

The nobility of Europe spurn the notion that they and the middle classes are made out of the same kind of clay. They are special creations while the multitude are made by wholesale and dumped on the earth by the million.

What is the consequence? Let the Knights of Labor answer the question. It is just this—That an employer like Mr. Carnegie is willing to give a fair wage when he can take a thousand a day out of his concern, but when he feels poor and can only extract five hundred a day from his business he deducts ten per cent. from the wages of his workmen.

That is all the protection he gets, and it is about time for the Knights of Labor to borrow Powderly's spectacles and see this thing just as it is.—N. Y. Herald.

Live Like Lovers.

Married people should treat each other like lovers all their lives—then they would be happy. Bickering and quarrelling would soon break off love affairs; consequently lovers indulge in such only to a very limited extent.

But some people—men and women both—when they are once married, think they can do just as they please and it will make no difference. They make a great mistake. It will make all the difference in the world.

Wrong Suspicions.

There are many suspicious that need crushing in the bud. We fancy our friend is cool to us, we imagine one has slighted us, we suspect our neighbor of having spoken ill of us.

Our trust in our friend or our own self-respect should lead us to put away such thoughts, to abandon such suspicions. Some one has perhaps popped a poisoned word of scandal into our ears; let us banish it from our thoughts with scorn.

Catharrh cured, health and sweet breath secured, by Shiloh's Catharrh Remedy. Price 50 cents. Nasal Injector free. For sale at Furman's drug store.

Shiloh's Villoizer is what you need constipation, loss of appetite, dizziness and all symptoms of dyspepsia. Price 10 cts. 50 cts. and \$1. Sold by Furman.

Food poison—No, darling—Bobby is getting better. What should you have done if he had died? During (after a pause)—I should have had his Noah's ark, shouldn't I?

I have had a scrofula until it made my life a burden. I was miserably miserable, sick, weak, sleepless and unhappy; feeling that the short time which seemed to have been allotted me on this earth would hasten to an end.

The above is an extract from a letter written under date of July 18, 1888, by Mr. F. Z. Nelson, a prominent and wealthy citizen of Fremont, Nebraska.

During the session of the Baptist State Convention, held in Henderson last week the matter of establishing a great Baptist female seminary at some point in the State came prominently before the body.

The whole matter was placed in the hands of a board of twenty-five trustees with power to act—their action being

Like to be Humbugged.

It seems to be a freak of human nature for people to love to be humbugged by strangers. There is some fascination about it. They are generally made to believe that by investing one dollar they can get two, which is not very difficult for the stranger, who is skilled in the business.

It is in a scheme and is always worked well, that is we mean with the man who gets the scheme up, but his poor deluded victim goes on not to repent of his folly but wait for another bite.

Some one has perhaps popped a poisoned word of scandal into our ears; let us banish it from our thoughts with scorn. Circumstances may perhaps lead to cast suspicion on one whom we honor; let us continue to trust him in our heart of hearts.

Mercurial Poison.

Mercury is frequently injudiciously used by quack doctors in cases of malaria and blood poison. Its after-effect is worse than the original disease.
