I joined the Farmers' Alliance soon after I was twenty-one years old, and have endeavered from that day until now to be a consistent member of that organization in Tennessee. During this time, I, as its representative, have visited and spoken in its interest many times in every county in the State. The advocacy of this cultural depression, and do full and ample justice to the farmers and lacause has ever been a conviction with me, and I am proud of the record I have made in doing so, and stand squarely to-day upon that record and by every declaration I have made in advocacy or in defense of the Farmers' Alliance, which has ever been a non-partisystem, regulating the amount san organization, bearing the same needed on a per capita basis as the relation to political parties as othbusiness interests of the country expand, and that all money issued by er non-partisan class organizations the government shall be legal tender should bear; and it is not now, and in payment of all debts, both public never has been, for or against any rolitical party; and as to what party a member votes with that shall pass such laws as shall effectuis no business if the Farmers' Allially prevent the dealings in futures

These truths I have ever labored to impress upon the membership and upon the public; have always tried to grant honesty of purpose to my brethren, and have ever conceded to them the right to vote with the party of their choice, and have reserved the same right to myself. In my opinion, any member of the Farmers' Alliance seeking to apply a partisan test to his brother in the order, is sadly mistaken as to the requirements of that all lands now held by railroads true Allianceism.

Politically, I have always been a Democrat, and ever voted for that party, because I felt it was the best vote I could cast for my country, and for the same reasons that I have been a Democrat in the past I expect to remain one in the | 15 and 19. For Superintendent of Public future. There are only two separate and distinct ideas of government in this country. A man must be in favor of one of these ideas of government and the political party that espouses it. No country ever had more than two dominant parties at a time, and so for years to come, Democracy or Republicanism will rule this country. I feel that one's sympathies must be with one or the other, and a vote cast for any other party must necessarily aid one of these dominant parties.

Democracy means the most good to the most people, and the least harm to any class; and it is my observation that the vast majority of Democrats in this country are the plain, common, hard-working, over-taxed, debt-ridden and opic party the majority rule, if they desire to do so, and it is my conviction that all the legislation these people need to relieve them can be obtained through the Democracy if they will only inform themselves as to their condition, and, like patriots and men of conviction, become active factors in their party, and if there is any. thing wrong with the party organization let them, like brave men.

It is my candid opinion that ev ery vote given the People's party in the South will weaken organ ized Democracy and strengthen organized Republicanism, and in many sections may result in negro domination and negro rule, as the inevitable consequence of division among the white people of the South; and nothing could be more disastrous to the cause of reform

than such a calamity. I expect to be severely criticised by many calling themselves "Reformers," for the simple reason that I am exercising a right that I grant to them, and that they are using, by supporting the party of my choice. If such should be the case, I challenge comparison of their record and mine, made fighting for the reform contained in the principles of the Farmers' Alliance, and shall not fear the decision o

an intelligent public. For the reasons set forth in this letter I shall continue to work in the ranks of Democracy, and shal ardently support the candidates of my choice until the convention has spoken, and then I expect to do what I have ever done, bow to the decree of my party, and support the nominees of the convention. Consequently, if I live, I shall most certainly vote the Democratic ticket in 1892.

Respectfully, R. W. TUCKER. A Narrow Escape.

The Raleigh Signal says the result of the combination known as the American Tobacco Co., has not been to reduce the price to the producers of bright tobacco. The tobacco farmers know, from sad experience, that what the Signal says is false. The infamous tobacco trust ought to be broken up. There are laws against such evil combinations, and the law ought by all means to be enforced. The Signal says that if this com-
