

STAND TO YOUR GUNS.

It is unreasonable to talk of deserting the Democratic party because it has not yet undone thirty years' work of the Republican party.

It is also unreasonable and unjustifiable to talk of dividing the Democratic party into two factions on the question of the free coinage of silver.

The Charlottesville, Va., Progress has the following excellent remarks upon this general subject:

"Are we to turn out our old friend, our very saviour from political ruin—Democracy—just as we have carried it in triumph progress to every citadel of the government, and before it has had an opportunity to pass a law or right a wrong? Is this the part of wisdom? Let the great, sound common-sense of our people assert itself. Patience, and all will be well. Let us give our own elected officers and rulers time to work plans for our relief. Thirty years of mischief cannot be mended and the mischief undone in ninety days. Let us stand to our guns and our colors, and not desert until we see clearly that allegiance has been unworthily given and trust betrayed. Give the Democracy time, and hold up its hands. Do not strike it under the rib and wound it in the home of friends just as it has laid its hands upon the reins of the government, and is striving to turn the chariot back to the old ways of honesty, economy and good government."

WHY DISCRIMINATE.

As the Wilmington Star says, there is no good reason why women who earn their living by their own labor, either of head or hand, should not receive as much compensation as men rendering similar service, but it is a fact that they do not, save, perhaps, in very rare instances where there is some extraordinary reason for it. The field of employment for woman is broadening every year as she shows capacity for business and old notions vanish. There are probably ten times as many women now employed in vocations which were formerly filled by men exclusively as there were ten years ago, and the time is not very remote when there will be ten times as many as there are now. But there is no reason founded on business principles nor in justice for paying a man twice or three times the salary for service which is equally as well performed by his unassuming and less assertive sister. An illustration of this is furnished by the public schools of Boston, one of the first of cities to recognize the propriety of it, and the right of women to earn their own living in any department of service which they could fill. There are employed in these schools 1,272 female and 185 male teachers. The men receive an average salary of \$246.06 a month, and the women an average salary of \$70.65, less than one-third, while the probabilities are that many of the women render more and more valuable service than the men. The Boston public schools are, doubtless, a fair sample in this respect of the public schools throughout the country. There should be an evening up on this line and instead of being discouraged every encouragement should be given to the spirited woman who desires, or the one whom fate forces to depend on herself in the battle of life.

The Charlotte Observer speaks our sentiments in the following: Our friend of the Danville Star wrongs Senator Vance in giving circulation to an idle statement that he is seeking to pave the way to Populist success in North Carolina. Senator Vance's age, character and party services should exempt him from such an aspersion as this. His present views upon the silver question are those that he has always entertained. We think that the circumstances are such as to call for their modification, and especially do we think that, if still entertained, they should be held in abeyance until the relief that is just in reach, through the restoration of confidence, has been realized; but there is no occasion whatever to assail Senator Vance's political integrity any more than there is to assail that of Senator Daniel, for instance. However wrong we may think each other there is nothing like being fair and just about all these differences in the family.

THE ELECTION LAW.

As the Mecklenburg Times says, among other things which the Democratic platform promised the people at the last election one of the most important was the repeal of the Federal Election law. This law is odious to Democrats everywhere and particularly so at the South. It makes possible negro supervisors and allows the federal government to supervise elections. It was passed presumably to prevent frauds in election, but in reality to perpetuate the Republican party in power. It is for these and many other reasons particularly odious to our people, and it is a source of much pleasure that the Democrats can send it along with the party which enacted it to the shades of oblivion to remain, it is hoped, till the resurrection morn. This law was a direct blow at the great Democratic doctrine of State rights and home rule as enunciated by Jefferson, it is not in accord with the spirit of our government, and its repeal has been desired most devoutly. For some days the House of Representatives discussed this law. A number of speeches were made on either side, some bitterly partisan, and the bloody shirt has been brought out and flaunted in our face once more by a few of the extreme Republican representatives. The discussion was strictly partisan and so was the vote, and the law was repealed by a good majority. The country is to be congratulated. Let the good work go on.

STATE NEWS.

Congressman Grady is building a home in Sampson and will move to that county from Duplin. The Shelby Aurora says the mining of monozite is a new industry in the "gold belt" of Rutherford and McDowell, which is employing 100 hands. The ore brings \$100 per ton at the railroad stations.

At the recent term of Gaston Superior Court, Sam Neely, colored, was convicted of burglary in feloniously entering the house of Wm. Allen, near Begonia, and sentenced to be hanged December 1st.

"An observant and intelligent gentleman from the middle part of the State," writes the Salisbury Truth, that Hon. John Manning, of Chapel Hill, will probably enter the field for the United States Senatorship to succeed Gen. Ransom.

Mr. A. McDowell and Miss Gertrude, daughter of Hon. W. H. Kitchen, were married in the Baptist church at Scotland Neck Thursday evening, of last week. The bride is described as possessed of rare beauty and marked intellectuality.

PRICE OF COTTON.

The latest reports from all over the country confirm the statements that the crop is short. Later reports rather increase than diminish the shortage. Taking this into consideration as well as the fact that the consumption is largely increased the Times repeats to its farmer friends that it holds to the opinion that it will pay them to hold their cotton where they can. There can be little doubt but that the price will before the end of the season advance from 1c. to 2½c. This is a considerable rise and it will pay to hold cotton for it.

Cotton seed are also in demand and are liable to take a rise at any time unless the mills combine and agree not to pay more.

The Times wants the farmers to realize the very best prices for their products, and the above opinions are founded on facts which cannot be disputed. Hence there is every probability that these predictions will be realized, and a material advance follow.

The above is taken from the Mecklenburg Times, and we are inclined to agree with our namesake and advise farmers who are not paying 8 per cent. interest and not compelled to sell their cotton, to hold on to it, awhile, anyway.

THE TIMES is not in favor of a "gold standard," but we publish the article on our fourth page written by C. F. Von Herrman, of Raleigh, for what it is worth to our readers.

We have a speedy and positive cure for catarrh, diphtheria, croup, cough and headache in Shiloh's Catarrh Remedy. A nasal injector free with each bottle. Use it if you desire health and sweet breath. Sold by Thomas & Aycocke, Louisburg, and T. C. Joyner, Franklinton.

The situation at Washington is still unchanged, but rumors of a compromise are still in the air. It looks as if "unconditional repeal" cannot pass.

THERE is much significance in the fact that the State convention of the Farmers' Alliance of Iowa, voted down, by large majorities resolutions demanding the free coinage of silver and adopted a financial plank favoring "a sound and stable currency of sufficient volume for the business of the country."

THE News-Observer-Chronicle says: Speaking with a gentleman who has been engaged for some time to the southward, and whose employment brings him in contact with business men of the communities where he sojourns, we learn that in his opinion the condition of North Carolina is decidedly better than that of the States to the south of us. We are sorry for those States. But on the whole, we suspect it is true that our people are in pretty fair condition, considering the circumstances.

IF THERE is anything in the "per capita" argument, times ought to be awfully prosperous just now, since the per capita circulation of the United States on October 1st, was \$25.29, or more than at any time in the last thirty years. We have nearly \$105,000,000 more of circulation than we had a year ago. We were fairly prosperous in 1890 on a per capita of \$13.85, but we have now nearly twice that, and ought, of course, to be nearly twice as prosperous—if there were anything in the "more money" argument. But smaller per capita, with confidence in the money in circulation, may, after all, work better. What good would a per capita circulation of \$1,000 do if it inspired everybody with fear and caused \$999 of it to be hoarded? —Baltimore Sun.

Catarrh Cannot Be Cured

With local applications as they cannot reach the seat of the disease, Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tones known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

Oh, What a Cough.

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cents to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a million bottles were sold the past year. It relieves croup and whooping cough at once. Mothers, do not be without it.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 25 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Viator, every bottle has a printed guarantee on it, use accordingly and if it does you nothing. Sold by Thomas & Aycocke, Louisburg, and T. C. Joyner, Franklinton.

Our Mrs. A. M. Hall knows a bargain when she sees it, and on this account she has bought a great many goods that she can sell for less than it cost to make them. RACKET.

FINAL NOTICE.

Those indebted to the late firm of Thomas & Aycocke are requested to make IMMEDIATE payment to M. H. Aycocke. All accounts unpaid by November 1st, will be placed in the hands of a Collector. Pay up and save your credit. The business MUST BE closed up.
