THE EAST NOT TROUBLED.

W. J. Star.

There is shortly to be held in the city of Chicago a meeting the object of which is to give the people of this country to understand that those who participate in it believe in "sound" money, and are opposed straight out to the demand for the coinage of silver on a 16 to 1 or any other ratio.

We suppose that this movement is the outcome of the suggestion, or rather appeal of the Chicago Herald, or Times Herald, as it is now called since the consolidation, in which it urged all friends of "sound" money to combine and make common cause against the advocates of silver coinage. One of the objects, we presume, in calling this meeting and starting this movement in Chicago is to influence public sentiment in the West, as Chicago is supposed to be a representative Western city, which is only geographically true, for it is in other respects much more of an Eastern than Western city, being run by Eastern money and controlled by Eastern influences. The East holds a mortgage on Chicago, and absolutely owns it. Take the Eastern money which these mortgages represent and the bottom would fall out of the town inside of a week.

This meeting may gather, whereas and resolve, but it will not represent the West. If it was to be simply a "sound" money convention it would be all right, but in the interpretation of those who were active in calling it and who will most actively participate in it, "sound" money means, gold, or paper redeemable in gold, which is practically the same thing, so that it will be to all intents and purposes a meeting of gold mono-metallists, called to protest against and oppose any further coinage of silver until the commercial nations of the earth be gathered together in convention and agree on a sort of universal silver coin, an event which is about as likely to occur in the near future as the discovery of the North Pole.

This is to be the first of a succession of meetings which are doubtless on the programme to be held in other Western and perhaps Southern cities, where the silver sentiment has made the most progress and has the greatest number of followers. There will not be many, if any, held in the East, for that section is regarded as practically solid on the "sound" money question. In discussing this subject heretofore, we have contended that this was speedily becoming a sectional question, and that the uncompromising gold advocates of the East were doing all they could, whether so intended or not, to make it a sectional question, with the Northeast quarter of the Republic, bounded by the Potomac on the South, and Mississippi on the West, arrayed against the States South of the Potomac and West of the Mississippi.

A NEGRO CLERK SUSPECTED.

Charlotte News.

A prominent jurist of the State was in Charlotte today, direct from Raleigh and in an interview with a News reporter gave some interesting points. In legal circles in Raleigh the chief topic is the assignment and mortgage bill that turned up passed, when it did not pass at all. The Raleigh lawyers are making up a test case to be presented to the Supreme court as soon as possible.

In the meanwhile, they are at work investigating the fraud, with the purpose of unearthing the perpetrator and prosecuting him to the full extent of the law. Suspicion rests on a negro clerk from Johnston county. It is also said that a lawyer, who is well known in this section of the State had a hand in it as the agent of northern parties who wanted such a law passed to protect them in future assignments made in this State. Some interesting developments are expected in a few days.

The Charlotte lawyers are also making up a test case and will present it to the Supreme court very shortly. The News' informant says that now, at this late day after the adjournment of the Legislature, two of the clerks are still there at work on the "unfinished" business, presumably doctoring up the bills that were left unattended to when the crowd scamped home the day the pay stopped.

Time to Return.

Statesville Landmark.

Those North Carolinians who separated themselves from the Democratic party last year in the hope of getting something better in legislation than they have heretofore enjoyed, have seen their hopes disappointed. The Legislature which has just adjourned did not fulfill one promise in forty and no honest man can claim that it met the just expectation of those who elected it. Beyond continuing the appropriations heretofore made by the Democratic party for the public institutions, it did nothing that will redound to the general welfare, and many of its enactments are positively harmful, as time will develop. Many of the incidents attending its proceeding were openly and notoriously scandalous.

It must be manifest to every intelligent citizen, in view of everything that has happened at Raleigh since the 1st of January, and in considering the many things that have not, that nothing is to be expected in future of the combination which constituted this Legislature. It is a bad lot. It not only failed to do nearly everything it promised to do, but by what it did demonstrated that it is not fit to govern North Carolina.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption, and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which there are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at Aycocks & Co's. Drug Store. Regular size 50c. and \$1.00.

A Warrington justice once reproved a would be suicide thus: "Young man, you have been found guilty of attempting to drown yourself in the river. Only consider what your feelings would have been had you succeeded."—Green Bag.

What Populism Means.

New York Advertiser.

The Morning Advertiser is in receipt of the following query, the answer to which may interest others besides the person who propounds it: Will you kindly inform whether in your opinion Populism tends to Socialism. An answer would put me under obligations to you.

S. E. M.

New York, Feb. 28.

Populism not only "tends" to Socialism but is Socialism. Socialism, broadly speaking, looks to the collective ownership and management of all branches of production and exchange, and all methods of transportation and communication. The application of this principle, however, takes various forms. Some Socialists insist upon the total abolition of private property and individual rights, while others less revolutionary are not ready yet for such an extreme.

An idea of the character of Populism is afforded by the platform adopted last year by the Wisconsin Populists. That platform embodied the following demands: Municipal ownership of street cars and gas and electric plants, the nationalization of telegraphs, telephones, railroads and mines, the collective ownership by the people of all means of production and distribution known as corporations and trusts, the exemption of improvements on land from taxation, and the furnishing of employment by the public "at reasonable wages" to all who need it. These demands in some Western States are supplemented by others equally fantastic, such, for example, as the issuing of paper money by the Government on the deposit of agricultural products. "S. E. M." can judge for himself to what grade of Socialism such mad proposals belong.

Health Hints.

Send children to bed without their supper is one of the old-fashioned cruelties, born of ignorance.

Do not put toothpicks or pins into your ears! Sooner or later you will be sure to do permanent injury to the drum.

There is no use of fooling with that sty on your eyelid. Just prick it with a sharp knife (not a needle) and that ends Mr. Sty.

A small piece of red pepper-pod applied to the gum over an aching tooth sometimes does wonders. The smart actually feels good.

Be sure and use your toothbrush after each meal. Use nice, clean water. It will keep your breath pure and the teeth from decaying.

Ear ache, did you say? Just squeeze the juice out of mullein leaves, warm it, and put a few drops into the ear. It is wonderfully soothing.

For that boil? I'll tell you. Light a match, and when the sulphur burns touch the boil with it. O, yes; it hurts a little, but it's death to the boil!

Holding a piece of ice in the mouth will usually stop a nose bleed of considerable severity. Stand up straight; stooping over makes it bleed more.

It is a mistaken notion that night air is dangerous. Nothing of the kind. Nor are plants and flowers in a bedroom unhealthy. The reverse is true.

The man who is hopeless of a home is a ruined man.

Raleigh Lawyers are Trying to Run Down the Fraud and Will Prosecute the Guilty Party.

Items From Billville.

We are now enlarging the paper with the money we made shoveling snow this spring.

Don't strike a man when he is down: Wait till he gets up and strike him for \$10.

Spring is certainly upon us, for the farmers are now giving mortgages and buying stoves on the installment plan.

We're having spring weather now; drank so much whiskey during the blizzard, every nose in the neighborhood is in full bloom.

Many a blessing comes to us in disguise. Lightning struck the church steeple last Sunday, and the preacher hasn't had rheumatism since.

The woman suffrage convention, for the bailiwick of Billville, is still in an uncertain state. As they were all talking at once, they can't tell who was elected president.

The masque ball of the Party Club was a great success. During the evening there was a free fight between the goldbugs and the silverites, but no arrests were made, as the marshal was unable to locate the guardhouse.

TO TAX BACHELORS.

And Establish a Home for Old Maids. The Object of a Bill.

A bill to tax bachelors and establish an "old maids' home," at Springfield, Ill., when the tax fund shall have reached \$50,000 was introduced in the House by Representative Wallick, March 25. The bill defines bachelors as single men of thirty-two years or over who have never been married and exempts men who have reached sixty-five, who are physically unfit or who can prove to a board of unmarried women over sixty years that they have proposed marriage at least three times to marriageable females and been refused each time.

Passing an Examination.

The story of a well known bishop which reached me the other day seems good enough for publication. The bishop was one day examining a batch of deacons for priests' orders. After the theoretical part of the examination, he said to them: "Gentlemen, you have passed a most excellent examination in theory. I should now like to see you do something practical. I shall go into the next room and personate a sick man. You will come in, one by one, address me as a sick parishioner, and say something comforting."

When his lordship had retired, the candidates were in some confusion, and nobody cared to begin, but at last a mad Irishman volunteered to be the first. He entered the study and approached the bishop, who was lying with a woe-begone air on the sofa, and thus addressed him: "Oh, Anthony, Anthony! The drink again! Shure it will be the death of ye! Turn from your evil ways before it's too late and be a man!" This is said to be the last time that the bishop held a practical examination.—London Truth.
