 traveling public.

DO YOU WANT A HOUSE?
 If so you will do well to write,
 or see J. Levieter, at Louisburg,
 N. C., before contracting. Plans,
 specifications and estimates made
 on burnt buildings, &c.
 7-12-2 m.

Men Needed.

An exchange says the great
 want of this age is men! Men
 who are not for sale. Men who
 are sound from center to circum-
 ference, true to the heart's core.
 Men who fear the Lord and hate
 covetousness. Men whose con-
 sciences are as the needle to the
 pole. Men who will stand by the
 right, if the heavens totter and
 the earth reels. Men who can tell
 the truth and look the world and
 the devil right in the eye. Men
 who neither swagger nor flinch.
 Men who have courage without
 whistling for it. Men in whom
 the current of everlasting fire runs
 still and deep and strong. Men
 careful of God's honor and careless
 of men's applause. Men, too large
 for certain limits and too strong
 for certain bands. Men who will
 not fail or be discouraged till judg-
 ment be set on earth. Men who
 know their message and tell it.
 Men who know their place and fill it.
 Men who know their duty and
 do it. Men who will not lie. Men
 who are not too lazy to work nor
 too proud to be poor. Men who
 are willing to eat what they have
 paid for. Men who know whom
 they have believed. Men whose
 feet are on the everlasting rock.
 Men who are strong with Divine
 strength, wise with the wisdom
 which cometh from above, and
 loving with the love of Christ—
 men of God!

Bee Culture at the Experiment Station

The Experiment Station has recently
 completed arrangements for
 carrying on some work in Bee
 Culture, both to disseminate infor-
 mation as to the best methods to
 follow in bee-keeping, as well as to
 conduct tests to determine what
 plans should be adopted in North
 Carolina to make this particular
 industry as profitable as possible.
 In many sections of the State
 bee-culture now yields handsome
 returns when carefully managed.
 With proper use of the improved
 methods of late years, this result
 might be largely increased. It will
 be the purpose of the Station to
 endeavor to aid in the extension of
 the industry, and with the possible
 improvement of the culture where
 it has now found a foothold. For
 this purpose the co-operation of
 two experienced bee-keepers has
 been secured, Dr. J. W. Hunter
 and Mr. W. H. Hall, both of For-
 syth county. It is expected that
 results interesting to bee-keepers
 will be reached during the coming
 season. In the meantime items of
 timely interest will be distributed
 upon the various phases of the
 subject.

At the Station desires to enter
 into correspondence with every
 bee-keeper now in North Carolina,
 each one is cordially requested to
 send his name and address to Dr.
 H. B. Battle, Director, Raleigh,
 N. C. Any items as to the stocks,
 hives, etc., on hand, and the suc-
 cess or failure heretofore met with
 will be gladly received. Doubt-
 less the correspondence will be
 mutually helpful.

Hints To Housekeepers.

Saturate the earth around house
 plants every day with the coffee
 left over from breakfast. It stimu-
 lates them. Plants that have a
 red or purple blossom will be ren-
 dered extremely brilliant in color
 by covering the earth in their pots
 with about half an inch of pulver-
 ized charcoal. A yellow flower
 will not be affected in any way by
 the use of charcoal.

There is a general opinion that
 few people, especially among the
 young, have enough sleep. A
 famous German physician says
 that every one up to the age of 21
 should sleep for nine hours out of
 the twenty-four. In middle life
 people who can perform ordinary
 routine work when they are half
 awake may suffer no harm for a
 time with six hours' sleep, but all
 who use their brains should have
 at least eight hours.

Plain omelets and sausages,
 broiled or fried, accompany each
 other nicely, and a sausage omelet
 is quite as good. Skin three links

of the best sausage if they are
 short, or one if long; put over
 the fire in a frying pan and stir
 and mince for five minutes, and
 place in the middle of an omelet of
 six eggs, just ready to fold. A
 grill of brown, Spanish or Madeira
 sauce poured around is an im-
 provement.

The tough end from a sirloin
 steak, or a pound or less of top
 round, will make a nice dish for
 luncheon; cut it in dice and cover
 with one small carrot and one 'ur-
 nip, peeled and cut in small dice;
 three small onions quartered and
 cut in half-inch bits; cover with stock,
 or water, with a lump of butter added
 if the latter is used and cooked,
 covered, one hour in the oven; then
 season with salt and pepper and
 cook thirty minutes longer.

There is scarcely any ache to
 which children are subject so hard
 to bear as earache. Almost instan-
 taneous relief may be obtained by
 making a funnel of writing paper,
 saturating a small piece of cotton
 batting in chloroform and dropping
 it into the funnel. Put the small
 end of the funnel into the ear, and
 placing the mouth close to the other
 end, blow into it. The fumes of
 the chloroform will quickly relieve
 the pain, and if the head is kept
 covered the patient will soon be
 at ease.

Riches and Happiness.

Ram's Horn.
 No man can be made rich whose
 happiness depends on money.

What a mistake to think we can
 become rich by keeping all we get.
 Bowing down to a golden calf
 will soon transform an angel into
 a beast.

It was Job's faith in God that
 made him rich, not his sheep and
 cattle.

If some men would give up more
 and lay up less, how soon they would
 be rich.

The man who seeks first the king-
 dom of God will not have to have a
 big income to be happy.

If piling up dollars is all a man
 lives for, his soul shrinks with every
 dollar he makes.

It is not what we give to God, but
 what we keep from Him that keeps
 us from becoming rich.

No greater mistake can be made
 than to make the accumulation of
 riches the first business of life.

Job was richer without his posses-
 sions than with them because the loss
 of them brought him nearer to God.

How to Repel Moths.

Housekeepers who have depended
 on camphor, pepper, cedarwood and
 the like as preventives against moths
 will be surprised to learn that though
 these substances are distasteful to in-
 sects under ordinary conditions they
 cannot be relied upon. This is pro-
 ved by the fact that moths have
 been known to hatch in an atmos-
 phere impregnated with camphor.
 As moths will work in warm rooms in
 winter as well as in summer it be-
 hoves us to be vigilant and to use
 during all seasons some reliable
 moth-repellant. It is said by those
 who have tried it that a barrel or
 keg in which whisky has been kept is
 the most reliable place known for the
 preservation of furs. Keep in a dry
 place and examine occasionally.
 When furs are put away for the sum-
 mer they should be beaten with a
 small cane and carefully combed
 through and then sewed up in linen
 or muslin carefully turned in at the
 edges.

The statement in our Raleigh cor-
 respondence a few days ago that
 Gen. Thomas L. Clingman has
 applied for admission to the Soldiers'
 Home is interesting. This institution
 is for those who have deserved well
 of their State, and surely upon this
 ground Gen. Clingman is entitled to
 find refuge there. Before the war a
 member of the lower house of Con-
 gress, afterwards a Senator, and dur-
 ing the war a general in the service
 of the Confederacy, he has done his
 share toward illustrating our annals.
 The State has had, perhaps, no pro-
 founder scholar, and in many ways
 he has done it service. It owes him
 a home in his old age.—Charlotte
 Observer.

Notes For and of The Farmer.

Harness kept well-oiled and
 mended will last in proportion to
 other care it receives. A good
 harness, well taken care of, ought
 to last ten years.

If the farmer had something to
 sell every month in the year,
 either of crops or stock, he would
 find it less difficult to manage on
 a limited capital. Cows and
 poultry bring in daily returns,
 and farmers who make a specialty
 of milk, butter and eggs are usu-
 ally prosperous.

Sometimes poultry raisers pro-
 vide the best of feed and then
 fail to get eggs. One cause of
 this failure is the lack of fresh
 water. Water enters largely in
 to the composition of an egg.
 Consequently unless the hens have
 a sufficient supply of it they can
 not lay.

Paint brushes and whitewash
 brushes can be made to last much
 longer if they are placed with
 the hair end up, the hair sepa-
 rated and some varnish poured
 in. This will tighten the handle
 and prevent the hair from coming
 out. If bound with leather,
 a liberal oiling will prevent the
 lime from burning it up.

The progressive orchardist will
 spend many of the days of win-
 ter among his trees, instead of
 toasting his sinners at the fire in
 doors. Pruning to be done,
 suckers to be cut away and a
 dozen other things to keep one
 busy if we will go into the or-
 chard and look them up. Thus
 our time in the spring is free to
 use to better advantage.

Nearly all the diseases of stock
 are due to contact with other ani-
 mals, the food, or from the ground
 on which diseased animals have
 trodden. If a plot of ground has
 been contaminated the cheapest
 method of treating it is to plow it
 and apply wood ashes liberally.
 If ashes cannot be obtained air-
 lake lime should be used.

The statement will bear often
 repeating that warm stables save
 food, and as lumber is cheaper
 than fodder and hay, this warmth
 should be provided wherever ani-
 mals are kept. One of the most
 important among the various pur-
 poses which feed serves in the
 animal economy is the mainte-
 nance of animal heat, and it is
 economy to preserve it by outside
 means.

S. A. L.

SEABOARD AIR LINE.
 SHORTEST AND QUICKEST ROUTE TO
 ATLANTA, NEW ORLEANS, NORFOLK, BALTIMORE,
 WASHINGTON, PHILADELPHIA, BOSTON,
 PHILADELPHIA, BOSTON, NEW YORK.

For removing and killing Ants,
 Roaches, Bed-Bugs, Centipedes, Crut-
 ches, Spiders, Flies, Fleas and
 Lice on animals, insects and their
 eggs on tobacco, plants and all
 kinds of insect life. Fleas and Mos-
 quitoes are quickly killed by the
 smoke from this powder, when
 burned. Absolutely harmless to
 man and animals, but sure death
 to insects. Prepared only by
 WINKELMAN & BROWN,
 Drug Company, Baltimore, Md.
 P. S.—Take care of which they
 may claim as good.
 For sale by Druggists here and
 elsewhere.

NOTICE TO WHOM IT MAY CONCERN.

The taxes levied under schedule
 "B" in the Revenue Law of North
 Carolina, chapter 116 ratified the
 13th day of March 1895, are license
 taxes for the privilege of practicing
 or carrying on the business or
 occupation therein mentioned.
 Persons practicing any trade or
 profession, or doing business taxed
 by the laws of North Carolina in
 Franklin County are hereby notified
 to comply with the requirements of
 law or they may expect the penalti-
 es to be enforced as required of us
 in section 37.

Sections 18-19-20-21-22-23-24-
 31-34-35, required, the listing of
 purchases, gross receipts, commis-
 sions, or other property, &c., named
 therein, within the first ten days of
 January and July of each year, and
 the receipt for the payment of such
 taxes, is a license, and authorizes
 the person or firms to continue
 business for the next 6 mo. this, and
 those doing business without pay-
 ing taxes, are doing business with-
 out a license, and subject them-
 selves to the penalties imposed in
 Section 37.

The attention of Magistrates,
 Constables and other county or
 town officers, are especially called
 to Sections 23-24-26-27-28 and 37
 of this act.

H. C. KEARNEY, Supt.
 Louisburg, N. C., Feb. 25th, '96.
