VIOLATORS OF THE LAW.

For some time we have been hearing complaints regarding the arbitrary and unlawful actions of a number of the school committeemen in this county.

The Texas legislature is composed of 54 lawyers, 29 farmers, 10 editors, 8 teachers, 8 merchants, 5 physicians, 8 stockmen, 2 real estate agents, 2 lumbermen, 1 drummer, 1 shoemaker, 1 cotton buyer, 1 preacher.

A MAN in Stroudsburg, Pa., who lost a purse with \$300 in it, but had it returned to him by the finder, a little girl, liberally rewarded her by giving her a whole penny, and then considerably advised her to hurry home before she lost it, as he did his money.

TRUSTS continue to multiply and enlarge. They are the result of the Republican robber tariff, and are organized and conducted so as to restrain trade and competition.

AS THE Winston Sentinel says, Republicans make the curious and paradoxical argument that the new election law ties the hands of the opponents of Democracy and yet, according to their logic, it will defeat the Democrats at the next election.

The facts in regard to the fate of the libel bill, that was introduced into the late Legislature, are here given for the information of those concerned therein.

In accordance with a resolution adopted at the last meeting of the North Carolina Press Association, the editor of the Record carefully prepared a libel bill and had it introduced in the House early in the session.

The editors of North Carolina have cases to complain of such treatment of a bill that so deeply concerned them, and which at least deserved a better fate than being smothered.—Chatham Record.

Yes, and the two men referred to, if they did "smother" the bill when they considered it is unknown.

RIOTOUS NEGRO SOLDIERS.

The record of the various negro regiments brought into service during the recent war, has disgusted the friends of the negro race and greatly displeased the War Department.

At Macon, Ga., last Wednesday, the Tenth Immunes also composed of negroes, were paid up and mustered out. Much money was spent for fire arms and "fire water" and when they finally boarded the train for their homes they were decidedly disorderly.

At Weldon they fired off pistols and guns and at the point of pistols forced a respectable negro to drink several glasses of whiskey, who fell down dead a short time thereafter.

PEACE LOVING NATIONS. There is not a nation in the world to-day which does not profess to be a peace-loving nation and there isn't one of them which can't increase its navies and its armies, and getting on a footing for the biggest kind of war.

It may be incidentally remarked that these peace-loving professions are nullified by their land-grabbing propensities. This makes the friction, for they are all grabbing, and they must be prepared to defend with ships and men what they grab, so that when we get to the bottom of it, it is the greed for more territory which makes these stupendous armaments and preparations for war necessary and imperils the peace of the world.

They love peace, all the same, provided the love of peace does not conflict with their propensity to steal the territory of weaker nations. They seem to act upon the principle that the surest way to peace is the most stupendous preparations for war, and it is also the surest way to hold their grip on the territory they seize.—Ex.

The "janketing" trip of a number of New England newspaper representatives, through the South, is now on, and among other places they are to visit Raleigh. They are to be there next Monday.

Since writing the above we have read in the Charlotte Observer that after being banquetted and "wined" by the various cities they visit, the "milk in the cocoon" pops out. The following is the Observer's comment:

These press representatives are traveling by a handsome special train of Wagner cars, and are being entertained with banquets and things at various points in Virginia, and will be likewise entertained at certain points in North Carolina, South Carolina and perhaps other States. This would seem to be a very nice way for a town to get a write-up in a dozen reputable New England papers.

Charlotte is always hospitable to strangers, but we do not remember that in this particular case it has fallen over itself in an effort to secure a visit from these New England press representatives. In fact, no invitation at all has been extended to them to drop off here, and thus again wisdom is justified of her children.

BARNES Brothers will sue for the Public Printing. All this "times" comes of the "niggardly" plan of letting the printing to the lowest bidder.

COIN ON ITS WAY TO HAVANA.

Transport Meade sailed with \$3,000,000 for Cuban Army.

New York, March 11.—The United States transport Meade sailed to-day for Havana, passing out of quarantine at 5:14 p. m. She has on board the \$3,000,000 provided by the United States government to Cuban troops.

Much interest centered in the removal of the treasure from the sub-treasury. A large crowd gathered and watched the proceedings. Capt. Little, of the Quartermaster's Department, had charge of the detachment of soldiers from the forts in this neighborhood. There were about fifty men each with a Krag Jorgensen and a full belt of cartridges.

Half a dozen ordinary trucks were in readiness in the street, and men dragged out the money on small hand trucks to the Pine street entrance of the building. Half the money was in iron safes about a foot and a half high, and weighing a hundred pounds apiece.

All the money was got on the trucks and eight men got on each truck. They stood on the safes or casks holding their rifles, and the trucks were then driven through Broad street.

Paymaster General Carey, accompanied by Maj. Rogers, of the Paymaster's office, will have charge of the money and will turn the coin over to Gen. Brooke, who will supervise its payment to the Cuban soldiers.

NEGRO LODGES RECOMPENSED FOR LOSS.

Yesterday the business men of Wilmington, through a committee of two gentlemen, turned over the sum of \$690 to the several negro lodges who owned the Record Building, on Seventh street, between Nun and church, accidentally burned the 10th of last November when the plant of the infamous paper was demolished.

The above action goes to further prove that the business men of Wilmington are made of the right metal, and shows to the world that it is only the "infamous sheet" that they desired to demolish.

For a reduction in taxation our Democratic legislators have made the rate of taxation on property three cents on the one hundred dollars lower than the tax levied by the last "reform" legislature.

Mr Garland Had No Creed.

Ex-Attorney General Garland, whose tragic death occurred recently, while a believer in the Christian religion, did not subscribe to any particular sect or creed.

It with some pointed Scripture you could show To which of these belonged the Saviour's feet.

NOTE—I have been so often asked as to my church preference, I put the above confession by Blackie—who has in so many other ways given great aid to the thought of the age on various subjects—in this shape, to be supplied to my inquiring friends, as being in accord with my own notions.

Summer Homes' Folder, 1899. Mr. W. A. Turk, General Passenger Agent of the Southern Railway, is collecting information for Summer Homes' Folder for the ensuing Summer.

Charlotte is always hospitable to strangers, but we do not remember that in this particular case it has fallen over itself in an effort to secure a visit from these New England press representatives.

BARNES Brothers will sue for the Public Printing. All this "times" comes of the "niggardly" plan of letting the printing to the lowest bidder.

GENERAL NEWS.

The war is still going on in Cuba. Reports of fights between the Insurgents and United States troops continue to come in to the War Department.

President McKinley, Senator Hanna, and others, are in Thomasville, Ga., this week, taking a rest.

Otho Wilson says that he has no intention of contesting the election of S. L. Rogers as Railroad commissioner.

The meeting of the Young Men's Christian Association at Durham this week, was largely attended, and was a most successful and interesting session.

Mayor Waddell was renominated for mayor of Wilmington, at the primaries, by a large majority.

A bronze statue of Vance is to be placed at the eastern entrance to the Capitol square at Raleigh, the Legislature having—among its many good acts—appropriated \$5,000 for that purpose.

A RAILROAD BUILDING ERA.

The Rocky Mount Meteor, a Northern capitalist, who was passing through that town on his return home from a Southern tour, is saying that this year would witness the greatest progress in railroad building that the South has ever seen.

The signs point to North Carolina as being one of the States where there will be great activity in road building, both new roads and connections between existing roads and systems.

There is no State that we know of which presents better inducements for the investment of capital in this way, any whose geographical position is more favorable, or where paying roads may be built with a comparatively small investment of capital.

As the signs point to North Carolina as being one of the States where there will be great activity in road building, both new roads and connections between existing roads and systems.
