SENATOR Stewart, of Nevada, wh never minces words when he expresses an opinion, said of Colonel Bryan's refusal to attend the Belmont-Jefferson banquet: "Bryan made the hit of his career when he refused to attend the Belmont \$10 dinner. I am not so much opposed to stealing in itself, but I do question the judgment of a man who steals a red-hot stove that he is in no position to carry off. Such a thief is a fool. The attempt of the United States to steal the liberty of the Filipinos is of the same sort. I believe the American the process of the same sort. I believe the American the same sort the same same so

THE Charlotte Observer's wide awake correspondent in New York city gives an illustration of the enormous power of the trusts. He says: "When the people of Manhattan were called upon to vote on the question of consolidation with other boroughs that now constitute part of Greater New York, there were in round numbers, 97.000 votes for consolidation, and 60,000 against it. But when they were called upon in the same way to that by a handsome majority Raleigh vote on the question of municipal construction and ownership of an underground railroad. They cast in round cruited for the regular army at the renumbers 133,000 votes for it and only cruiting station here. This is excellent 43,000 against it. Yet some of the work.
