THE DREADFUL RESULT FROM THE DEFEATOR THE AMEND-MENT.

Wilmington Messenger.

Some time ago the Messenger reterred to the possibility of North Carolina's becoming the dumping ground for the vagrant, wandering negroes, and even others, in case of defeat of the proposed suffrage amendment to the constitution of the State. It is a very serious question and deservedly attracts attention. The gallant exconfederate and bold, vigorous, effective canvasser, Captain Buck Kitchin, of Halifax, directed public attention to this matter when he recently spoke twice in Wilmington, in which he did positive good and aroused the Democrats to greater enthusiasm and resolution to win. It is very certainly a question of great pith and moment DR. J. E. MALONE and worthy of every white man's attention, as to what will result to the State f the combination of white radicals. trading populists and ignorant negroes shall succeed-what will be indeed the effect of a failure to carry the amendment and settle now the great, dominating question of negro supremacy in North Carolina? What will be the effect of a failure of the adoption of the amendment upon the population of North Carolina in the future? In South Carolina the negro is quiescent, serene, undemonstrative, contented He has not done much voting since 1867. His schooling for twenty-four years has been such that he does not attach much importance to the frauchise, and rarely worries himself over politics. The new Louisiana law has

practically eliminated the negro voters. only a few thousand voting in the last election. Mississippi has got control of tne negro vote to such an extent there is no danger threatening the State from negro domination. O.her States-Virgini, Georgia, Arkansas and otherswill soon or late follow in the work of eliminating the negro as an important or controlling factor in State affairs. Let North Carolina be kept under negro rule, and several things will be sure to happen. Education will be blasted in so far as the negroes are concerned. Investments will be paralyzed. Disturbances between the races will grow. But worst of all, and this is the point, most undesirable additions by the ten thousand will be made to the population by the influx of negroes from all the other States, North Carolina will indeed become a veritable "rogues harbor," as it was called by insulting Virginians some two hundred years ago. It will be the the refuge for all sorts of drones and tramps, and rascals and criminals and many worthy negroes will come in too so they can enjoy the privileges and powers of the untrammelled franchise, and in a decade, the negro population will greatly exceed that of the whites. Now they do not amount to

think the census just taken will show. We clipped from an exchange the other day a short article that emphasizes with vigor thie view of the danger of a great increase of negroes if the amendment is defeated. We believe it was the Clarkton Express that said this. The contention of the well put article is that the "white man living tn eastern North Carolina that goes to the polls next August and votes against the amendment votes either denberate ly or ignorantly to make his descendants the consorts of negroes. If I cannot prove this to the satisfaction of any reasonable man, then I am willing to be counted a fool the balance of my

as much as half of the whites and we

life." That is strong language. The writer shows how other States have acted in regard to the negro voters. He then says that "North Carolina will be the Mecca of all the negro politicians who aspire to rule the white man and win the hand of his daughter. O, you say, there is no danger of that. Let us see, Not three months ago a black negre named Fonsie Kelly, not a stone's throw from Clarkton, entered the home of white parents and took off one of their daughters and skipped the State. How

people, inoffensive and unlettered, have been allowing John Newell and others like him to enter their house and talk politics and social matters until the way was opened for a scandal like this. North Carolina has on her statute

riage of the white and negro race."

Tom Fortune, the negro editor of the New York Age, lately introduced a Manly type. They long to bring about looking for higher wages and level of their own. Let the white men selves and there is not a colored Manly. That he got away alive is a that privilege. The whites will

God gave us our own free of the distasteful mess, unless we, by will, and if we come to the polls our votes, ratify the amendment in in this election we should com August. The picture is a dark one, yet divided-not sticking to parties; white men do so, so let us view both sides of the question, and not

It was not the negro vote tha took the State out of the hands of the Democrats; it was the farmers alliance organized against lawyers, doctors, merchants, railroad men and bankers-it was not poli tics. The negro once out of the above element will combine with foreigners to down the moneyed men. Strike out the 5th clause and you can mark my prediction that the Democrats.

Our people should not be disturbed about our freedom; stay at home and go to work, pay your obligations, go to church, keep out of barrooms and quit lying around depots on Sunday, and they will be all right. God takes care of his children and he will not neglect you, if you only do your part.

> IS IT RIGHT Medicines?

From Sylvan Valley News, Brevard, N. C. It may be a question whether the editor of a newspaper has the right to publicly re commend any of the various proprietary pedicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoen Remedy. We have known and used this medicine in our family for twenty years and have always found it re-liable. In many cases a dose of this rem-edy would save hours of suffering while a obysician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberiain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the pres-ence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by W. G. Thomas, druggist. OBEDIENCE.

We Need to Learn that Simple Obedience is Better than Great Achieve
