ROBING VERSUS MEN.

When it's time to go!

How can they tell when the day is at hand

To leave their nests and fly

Away to the southern, sunny land,

Weere the blue is in the sky! How do they gnow

Ere the north winds blow,

Bringing the still and the ice and mow;

Why do they nover foolishly wait,

Flirting with chance and tempting fate?

Ah, the robins use wiser far
Than some men are!
They take no chances nor fool around,
Thinking, because today is fair,
That tomorrow good cheer will still abound,
With never a woe nor care—
Thinking because things come their way
In clusters today
Good luck has settled with them to stay!
The robin proceeds to get out of the wet
While the sun is faithfully shining yet!
—Chicago Times-Herald.

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* Copyright, 1001, by C. B. Lewis.

I had been in Paris for a couple of months, living at a family hotel and knocking about at my leisure, when I made the acquaintance of Felix was not a grasning man withal He Duchene, as he called himself. He was not a grasping man withal. He had planned to rob me of \$2,000 where a Frenchman from head to heel, he spake English fairly well. He was not a man whom I should have selected as a friend, and yet there was a something about him which interested me. He had traveled extensively, met with many adventures and was a good talker. I came to know him as a man of nerve and courage, and, though I of nerve and courage, and, though I ing invitations to dinner or acceptances feared he would turn out to be a parathereof—these are the missives which site, nothing of the sort happened. He seemed to have plenty of money of his love letter, we presume, still holds its own and never asked for the loan of a

I had known Duchene for three or it is full of sugary sentimentalism as four weeks when we visited a dance hall on one of the outer boulevards the letter as it has passed into literaone night. The place was a resort for tough men and bad women and promised a phase of Parisian life I had not

The Germ of an Invention The late General George B. McClel-lan, U. S. A., is credited with having made the statement many years ago that the sinking of clams into the sand ng the ocean shore by closing their ils and ejecting the water from hem in a thin stream first suggeste to him the use of the water jet as an aid in sinking piles in sand. At any rate as long ago as 1852 a water jet was so used by General McClellan's ad vice in putting down piles for a wharf and warehouse. Water was forced through an ordinary rubber bose, with plece of gas pipe on the gad for a trie. This was placed close to the point of the pile on the bottom, the jet of water scouring the sand away from the pile and making a hole, in which the pile sank rapidly.—Cassier's Maga-

Sensitive Tobacco Plants. In Cuba the best telescee comes from ne strip of land only, the slopes of a ertain river, and even there a north wind may ruin the crop. Tobacco is the most sensitive plant we know of. The smallest thing affects its flavor. Plant Virginia tobacco in Germany and the result is a better tobacco, but it is German tobacco, not Virginian. In orth Borneo they produce the most felicate and sliky leaves that ever were seen, but the tobacco lacks character and taste. Send Havana seed to the Philippines, and you merely pro-fuce a superior Mania.—Cleveland Plain Dealer.
