Babcock to the rescue-Hon. Joseph Weeks Babcock of Necedah, Wis., Republican beliwether, chairman of the house committee on the District of Columbia and chairman of the Republican congressional campaign committee! The Hon. Joseph has just opened up a war-a redhot war-on trusts by introducing a bill to put certain articles of steel and iron on the free list in order to "circumwent" the steel trust, as the elder Weller would have put it. Brother Babcock is rather late. He is an eleventh hour comer into the vineyard. But better late than never. Still one may not be considered guilty of leze majesty if it be inquired how putting articles on the free list in February happens to be a patriotic performance when it was denounced as idiocy and treason last summer and before that. I do not say absolutely that I origi-
