Pettigrew's Victory.

[Special Washington Letter.] "Io triumphe!" was the cry, or, rather, would have been the cry, of the great army of Republican place hunters who lined Pennsylvania avenue March 4 if they had understood Latin, as Senator Marcus A. Hanna rode to the capitol in the carriage with President McKinley. No man had a better right to thus ride, for no man did more to bring about the result last November.

The dramatis personæ in the chief roles on this 4th and the century old 4th changed places. This time a Democratic chief justice, Melville W. Ful- bowels of compassion? ler, swore in a Republican president, William McKinley. One hundred years ago a Federalist chief justice, John Marshall, administered the oath to the greatest Democrat that ever lived, Thomas Jefferson, the chief priest, apostle and prophet of civil liberty.

Century Old Classic. The daily papers give verbatim the inaugural of President McKinley. In the days to come it may or may not be highly regarded. Jefferson's has become a classic. In formulating the Democratic creed he said:

Equal and exact justice to all men, of whatever state or persuasion, religious or political; peace, commerce and honest friendship with all nations, entangling alliances with none; the support of the state governments in all their rights, as the most he sheet anchor of our peace at home and safety broad; a jealous care of the right of election by the people, a mild and safe corrective of abuses which are lopped off by the sword of revolution where peaceable remedies are unprovided; absolute acquiescence in the decisions of the majority, the vital principle of republics, from which is no appeal but to force, the vital principle and immediate parent of despotism; a well disciplined militia, our best reliance in peace and for the first mornests of war till regulars may relieve first moments of war till regulars may relieve them; the supremacy of the civil over the military authority; economy in the public expense that labor may be lightly burdened; the honest payment of our debts and sacred preservation of the public faith; encouragement of agriculture and of commerce as its handmaid; the diffusion the bar of the public reason; freedom of religion, freedom of the press and freedom of person under the protection of the habeas corpus and trial by juries impartially selected—these principles form the bright constellation which has gone before us guided our steps through an age of revolution and reformation. The wisdom of our sages and blood of our heroes have been devoted to their at-tainment. They should be the creed of our polit-ical faith; the text of civic instruction, the touch-stone by which to try the services of those we trust, and should we wander from them in mo-

our steps and to regain the road which alone leads o peace, liberty and safety. No words ever uttered by an Ameriean statesman have been more frequently quoted than those. None are worthler of remembrance. Everybody in the land should learn them by heart.

Warring Factions. To the casual and careless observer the Republicans are dwelling together in unity after the manner of brethren but signs are not lacking that there must soon be a great struggle for supremacy among the various factions of the victorious party. I take it that nobody will seriously question the Republicanism of John Wanamaker. He proved his right to a high place in the Republican synagogue by raising \$400,-000 slush fund in 1888 in about 24 hours in order to carry the election for General Benjamin Harrison, and he had his reward in the shape of the that stanch Republican newspaper, the Philadelphia North American. It is generally taken and accepted that Editor Wanamaker and ex-Postmaster General Wanamaker are on pretty good terms with each other-cheek by jowl, in fact. Wanamaker pere is some

denominated "Pious John."-Now, be it remembered that the Wanamakers-father and son-live in Pennsylvania, where Republicanism is su in the City of Brotherly Love, where the Republican majority is exactly the size which the bosses make it, the number of votes cast having nothing whatever to do with the size of the majority; consequently the Wanamakers are | be retributive justice. eligibly located for the purpose of understanding Republicanism in all its dness and rottenness. While war taxes are being collected it is not only proposed to present \$0,000,000 a year to a knot of favored shipowners, but the suggested cure for an emptiod treasury is a new issue of interest bearing bendel.

Suppose the Democratic party were in power and had been guilty of equal extravagance and folly, is there any rational Republican who would expect the people at the polls to indorse such a

It is high time for President McKinley to assert himself and exercise his great authority for the guidance of the Republican party out of the bog into which deficient brains and excessive greed have plunged it. He can do it if he will. Especially can he end at once a peril that threatens the party with disgrace and the country with dishonor. Bad as conscienceless waste of the public money is, that is innocence itself in comparison with the movement whose aim is to have the Republican party repudiate the nation's sacred pledge to Cuba. That cannot be done without rank disloyalty to the party's platform adopted rank disloyalty to the party's platform adopted at Philadelphia, which says:

"To Cuba independence and self government were assured in the same voice by which war was declared, and to the letter this pledge shall be

Repeatedly the president himself has reaffirmed the binding nature of this promise to the fulfillment of which the United States is committed as securely as honor can commit any nation to any act. Why, then, do members of the Republican party, many of them in high official place, dare a intimate that President McKinley can ever be ersuaded to consent to the dishonor of the country and his own administration?

Yet President McKinley was induced to recede from that just and honor-able position. A billion and a half dollar congress the country might possibly be argued into forgiving, but unless Americans have forgotten self respect and good faith these could be an foreviseness for the party responsible for national perjury. That this perjury should even be suggested by Republicans holding seats in congress and on terms of cordiality with the White House is an insult to the president so intolerable that we marvel he has not resented it ere this. The North American ought really to be ashamed of itself to publish that last sentence, for it must know two things: (1) That Hon, Sereno E. Payne, chairman of the committee on ways and means, fathered that bill after changing his mind suddenly and inexplicably; (2) that he is in feeble health and may die of heart failure if the Republican North American keeps up such jabber as that. Too bad! Too McKinley and the Boers.

The greatest enigma, the most unfathomable mystery, the most unsolvable puzzle connected with this administration, is its attitude touching the Anglo-Boer war. The heroism of the two little South African republics in this matchless fight for freedom appears to have challenged the admira tion of all the world except the Mc-Kinley administration. It has out-Heroded Herod-i. e., Johnnie Bull himself-in the sang froid with which it has watched the death struggle of the foremost heroes in the flood of time True, it has not sent its armies to help Mr. Bull, for the all sufficient reason that it could not, for there is a con gress still, though it has in these later days abdicated many of its functions in favor of the executive. Nevertheless there is enough of congress left to raise a row occasionally; but, while no American army has fought under the cross of St. George, the administration has done everything in its power to aid the British in their crusade against

liberty, notwithstanding the fact that we are supposed to be neutrals. English agents have purchased in America openly and aboveboard over 77,000 horses and mules during the Boer war, have shipped them openly postmaster generalship. John's son runs and aboveboard in their own ships from the port of New Orleans to South Africa, have filled the New Orleans papers with advertisements and otherwise deported themselves as though they were thoroughly at home, and who shall say that mules and horses are not "contraband of war?" Why are they any less "contraband of war" than is coal, which is solemnly declared to be so by treaty? New Orleans is a queer place for the English to select preme-by about 300,000 majority-and to operate in strangling two little republics. Clearly the spirits of the mighty dead do not return to earth, or that of old Andrew Jackson would appear in that historic city and scare the bloody Britishers out of town. It would

Hats Off to Pettigrew. Defeat may have imbittered Hon. Richard Franklin Pettigrew of South they be long in the land. He shot many a Parthian arrow into the serried ranks of the army of senatorial looters. One of the sharpest, which went straight to the mark, was his suggestion that the president of the republic should wear the farther designation of "the emper-or of the islands of the seas." Evidently Mr. Pettigrew is not looking for a job under the administration and has no aspirations to become an ornament

It to elect him to the senate at the age nary. I do not of course train political ly with Butler, but I like the man personally and wish that he would return to the Democracy of North Carolina. He and they might be of mutual advantage to each other in the days that are to come. Intellectually he has stood well in the senate. He has not been regarded as a freak, but as a man of

A Giant Intellect. Along with Pettigrew and Butle goes a man who injured his own repu ation when he spoke for 14% the senate at one stretch and thus acuired the title of the "champion long tance talker." His name is William Vincent Allen of Nebraska. He is nuch more than a mere long distance talker; he is a giant intellectually and physically, a fine lawyer, a strong depater and a man of courage and capacity. He has served eight yearssix by election and two by app ment. He is honest as the day is lor and his career has been highly credita ble to himself, his state and his nation He has not been a chimerical states man, as our eastern friends are fond of believing all Populists to be. On the other hand, he is a man noted for level ness of head. He is universally respected by all who have observed his cours and is obnoxious to none except the jobbers and looters of the treasury. Nebraska now has three national char acters among her private citizens-William J. Bryan, William V. Allen and

John M. Thurston. In my last letter I stated that there was some room for suspicion that Mr. Babcock's bill to kill the steel trust was buncombe, or, in plain, everyday English, a fake or fraud. Subseq events demonstrated that he was simply playing to the galleries. One day last week Hon. James D. Richardson, Democratic-leader, moved in the com mittee on ways and means to report Babcock's bill favorably, whereupon Republican member moved that the committee adjourn, which latter motion was promptly carried, which is the end of Brother Babcock's bogus attempt as a trust killer. If he has deceived anybody whatsoever or whomsoever by his transparent trick, it must be some resident of an idiot asylum. Certainly no sane human being could be hoodwinked with such a performance as "Bab's." His caper is somewhat on a par with, but not quite so ridiculous as, the fake antitrust constitutional amendment cooked up by the Republicans of the judiciary committee in the closing days of the long session.

Navy Aristocrats. Just to stir up the pure minds of my readers by way of remembrance to the fact that United States senators ought to be elected by a direct vote of the people I wish to direct their attention to the action of the legislatures of Oregon, Delaware and Nebraska. Oregon elected at the last moment after a deadlock lasting throughout the entire session, while Delaware and Nebraska have not elected at all. Addicks is strong enough to prevent the election of two senators in Delawarewhich is sufficient evidence that the present cumbrous and corrupt system

of election should be abolished. Rear Admiral Sampson appears have brought a hornets' nest full of very bald hornets about his head by writing a letter openly advocating a naval aristocracy. Sampson's sin is that he spoke out in meeting what many other aristocrats are thinking. A peerage is a necessary concomitant of an empire. Napoleon so found it, and we will hardly find a larger pattern in matters imperial than the Corsican. He died a sullen prisoner at St. Helena -a very good ending for an emperor who strangled a republic.

If a Democrat or pestiferous Populist had written that, it would be easy to dispose of him by yelling "Traitor!" or "Lunatic!" but it appears in a triple leaded editorial in a paper published by one of the elect—to wit, Wanamaker fils, and no doubt with the sanction of "Pious John" himself.

Tough Old English Statesmen. In Macaulay's day English statesmen were of a hardler and more robust type than the present race of pollticians. They seem to have had cast fron nerves and appetites and digestions to match. They dined off a buge beefsteak and a bottle of port, while heir grandsons are content with cutlet and a lemon squash. And yet they lived to a good old age. We hear of Lord bugham at the age of 70 "drinking two bottles of port at dinner, going to bed upon half a bottle of peat reek (whisky) and turning out at daylight the age of 90 "supping off hot boiled

Mr. Kinnear, an old parliamentary hand, tells us that he remembers seeing "Mr. Disraeli drinking, as the pre-lude to a big speech, a pint of port captive means destruction to half the wine at the buffet in the commo lobby, dressed in a green coat, a buff walstcoat and snuff colored trousers." This seems a modest potation under the circumstances, but Mr. Kinnear adds that Disraell came back and had another pint later on.-Blackwood's.
