It is safe to say that Mr. Babcock is not'a free trader. He stands with the Washington Post and other tariff the present tariff schedules must be reformed either by its friends or its enemies, and that it is better that it be reformed by its friends. Food For Reflection. There is much solid food for profound reflection in Mr. Schwab's observations. He has just returned from Europe. While there he made a systematic study of the new spirit of trade hostility toward us and of the much talked of European combination against American products. He sees in it danger to American interests and predicts the most serious consequences. He asserts, as the result of his investigations, that the only way to avert a disastrous blow to our trade in foreign ports is "to lower the wall of protec tion with which we have surrounded ourselves and by some form of recipronations in their desire for fair treatment." That will probably give Mr. Payne and his coparceners buck ague, but that matters little. It will help Babcock in his belated attempt to do now what ought to have been done years ago. "You tickle me and I'll tickle you" is an adage which applies to nations as well as to individuals. A man naturally patronizes the man who patronizes him. Same way with nations. We can't shut everybody out of our markets and then expect everybody to buy from us.

It is a notorious fact that our manufacturers undersell European manufac turers in all the markets of the world. It is also notorious that American manufacturers sell to foreign patrons cheaper than they do to American customers at their very doors, which is an outrage on justice and an insult to common sense. The fact that American manufacturers can at a profit undersell European manufacturers gives the former the American market, but if the Europeans take it into their heads to lay a discriminating duty on American products it will be a vast calamity to our farmers, laborers and manufacturers. Mr. Payne talks much as did Sir Robert Peel in the canvass of 1842, when he declared that any man who talked of repealing the English corn laws ought to be clapped into a strait waistcoat and a padded cell. Yet in 1846-7 the same Sir Robert Peel repealed the corn laws. Let us hope that Mr. Payne will see the light also and

come to the aid of Brother Babcock. A False Alarm. Democrats who chance to read the St. Louis Globe-Democrat should not be deluded into the erroneous belief that the regular Democrats of Missouri have been overthrown, routed or stampeded by the little coterie of Palmer-Buckner Democrats in that state or that any such catastrophe is impending. Such talk is all bosh, unmitigated tommyrot. For some unaccountable reason the St. Louis Democrats nominated for Mayor Mr. Wells, who voted twice for McKinley. Why they did that it would be impossible for even them to explain. The only reason ever given is that the municipal election was the Zeigenheim regime compelled them to nominate a man of approved business capacity and undoubted integrity. But that is an explanation which does not explain, as there are scores of just such men—i. e., of approved business capacity and undoubted integrity—in St. Louis who were faithful to the Democratic cause in 1896, 1898 and 1900. And one of these would have been stronger than Mr. Wells and HENDERSON, N. C.

The Zeigenheim regime compelled them to nominate a man of approved business capacity and undoubted integrity—in same day on which Mr. McKinley's second and last term expires, and sure ly no man in his senses would give up a position as senator from New York with four years to serve for any appointment within the gift of the president unless for such a lucrative post as consul general to Liverpool, for whose financial reward Senator Dependent of the president of the president unless for such a lucrative post as consul general to Liverpool, for whose financial reward Senator Dependent of the president unless for such a lucrative post as consul general to Liverpool, for whose financial reward Senator Dependent of the president of the pres would have received such a majority aire, or for a place on the supreme be confident that no one would have dreamed of bench, for which he has no taste. the octopus. contesting his election. The people of the south have not forgotten how they were plundered and oppres ed by the carpetbaggers and scalawags during reconstruction days-the most monstrous carnival of crime in the entire annals of the human race, bar none. They do not propose to return to that evil and ruinous condition of affairs. Senator McLaurin and the Kansas City Journal may sing a song more dulcet than that of the sirens, but the people of the south will refuse to be converted to Republicanism on the very same principle that a burned child dreads the fire and a scalded cat fears even cold water. In Missouri, the richest commonwealth ever robbed by a band of thleves, it is astounding to think of how much they stole in the six years from 1865 to 1871. Regularly every four years such papers as The Journal raise the hue and cry that Missourl is going Republican, and regulardate, and she will continue to do so as long as the human mind retains the

In a speech delivered have often wondered whether the tion at Kenesaw mountain June 27, 1864, should not be put in the list with the Confederate charge at Gettysburg Pickett's charge was of course the more spectacular, and the assaulting broke the Union line at one point it was driven back in disastrous retreat. "The direct assault on the fortified ne on Kenesaw was made by three origades, no better troops than Pick-

ett's Virginians, but it must be remembered that while they falled to pierce the Confederate line they held their po sition and did not retreat. Their loss was correspondingly as heavy as Pickett's at Gettsburg. Sherman's idea was to show his own army as well as the Confederate army that he could make frontal attack. If the assault had been made and the assaulting column had retired, as did Pickett's column at Gettysburg, the effect on the army would not have been as it was when the regiments that led the assault clung to their position not more than 30 paces from the Confederate parapets.

"The attack falled except in that it was an illustration of the spirit of the Union troops in assault. Lee's purpose at Gettysburg was undoubtedly to drive Pickett's 16,000 men like a wedge through the Union lines. The failure of the attempt led to the retreat of the whole Confederate army. Sherman's purpose at Kenesaw was to capture he Confederate fortifications. The attack let to the retreat not of Sherman's irmy, but of the Confederate army, and I have always held that the ground over which the Union regiments that day swept forward ought to be as precious to the men of McCook's, Harker's and Mitchell's brigades as is the ground at Gettysburg to the men of Pickett's brigades." - Chicago Inter

TRICKS IN THE SILK TRADE

How Shoppers Are Fooled-Tests Which-Show the Pure Material. Pure silk, when it has been through all the processes necessary to bring out all its good qualities, is worth its weight in silver, said an expert the other day. In one variant or another it was a great favorite with great charges of the war, and it was as Parker, often taking the exact form that Lincoln gave it, with his sure intuition of the best where there was any by Parker in 1850 we find it imbedded in a passage which might have been the inspiration of Seward's famous "irrepressible conflict" or Lincoln's "house divided against itself," a view to which Parker continually recurred. In two other speeches it stands "government of all the people, by all the people, for all the people." Its cartiest appearance that I have discovered in his writings is in a letter to Rev. Samuel J. May in 1848, where it is simply "government of all, by all, for all."-
