PAY YOUR POLL TAX.

This is a general election year in which both State and county officers will be elected. Every Democrat, or every man who desires good govern ment, whether he call himself a Democrat or something else, should feel his duty to cast his vote for the me and measures his judgement approves, but there is one requirement now which has not prevailed heretofore and one that might be overlooked by oters if attention was not called to it. We did this some months ago and now do it again, because it is a matter o mportance.

The election law now requires tha the voter shall have paid his poll tax (if liable to poll tax) on or before the first day of May in the year in which he soffers to vote, and shall, before being permitted to vote, present is tax receipt signed by the sherlff he county or tax collector of the county or township where he resided when the tax was paid. The law mandatory, and the payment of poll tax within the specified time absolutely necessary. No poll tax, no vote, therefore every Democrat who values his vote and would not loose it should, if he be liable to poll tax ake the precaution to pay it in time, get his tax receipt, and put it it may not be lost before the day election.

THE FARMER NEEDS IT.

We occasionally meet with people who wonder if incubators are a success They cannot believe that they will hatch chickens as well as hens will, but they would be tempted to try them if they could be convinced they are even a tolerable substitute for hens. These people can harnly credit the statement that the incubator will do the work more chicks from a given number of

The consequence is that the premises are overrun with late hatch chicks which will not attain maturity until after snow flies. A HAPPY THOUGHT.

It was a happy thought when Kaiser William selected his brother Henry to visit this country for the double pur pose of being present at the launching of the Kaiser's yacht, and presenting his regards to the American people. The thought was a happy one and the selection of his representative equally happy, for Henry is a very sensible and a very democratic sort of a tellow. He takes well with the American people he meets, is entirely at his ease and feels quite at home whether mingling with the crowd or the center of ceremonious attention.

His speeches and responses to speeches are brief, to the point and models of good sense, and we have no doubt that when he utters the wish that this may be the harbinger of kindly feeling and perpetual friendship between these two great nations he speaks with sincerity and means everything he says. These expressions have been happily resiprocated by President Roosevelt, speaking for the American people.

Why should not these two nations feet friendly to each, other? There is no conflict between them, nor cause for friction, Beither has what the other wants. Both are progressive, assertive nations, but there is field enough 1. r both in the wide world without coming into conflict. It is well that the Prince has come because he is an observant man, he will learn more about this country and the get up of its people by what he sees than he could learn in twelve months reading, and he will come into contact with representatives of his own countrymen and the descendants of his own countrymen who have become citizens of this country and contributed so much to its gress, development and power and glory. It is well he came, for the visit must bear good fruit for his own country and for ours.

WANAMAKER'S ADVERTISING

John Wanamaker pays over \$1,000 day just for advertising his Philadelphia store. He uses a page a day in five daily newspapers in that city. They are as follows: Press, \$60,000; Ledger, \$60,000; Times. \$50,000; North American, \$75,000, and Evening Telegraph, \$50,000. Up to a few months ago Mr. Wanamaker was using a page in the Record at the rate of \$87,500 a year, which would have made an annual expenditure of 382,-500. When he wanted to renew his advertising contract with the Record, the publishers asked \$25,000 more or a total offitz,500. Open Door For Chinese.

Not the least of the stupendous evils of the Philippine propagands to this: It has increased the difficulties of our attitude toward Chinese exclusion many fold. When we annexed the Hawallan Islands, we took to our palpftating bosoms about 25,000 Chinese coolies at one time. When we bought the Philippines, we took in about 1,750,000 more Chinese. Unfortunately in 1897 the supreme court of the United States rendered a decision declaring a Chinese child born of Chinese action of a bare majority of one of a parents domiciled in this country fee thy other than diplomatic purposes to be an American citizen.
