WASHINGTON LETTER.

From Our Regular Correspondent.

WASHINGTON, May 1.

"The editor or the citizen who underestimates the Philippine question, who fails to appreciate that it is of paramount importance, who imagines that senators, in ventilating and opposing the Philippine policy of the administration, are losing sight of the interest of our own people, is short sighted. He does not grasp the true import of the situation," said Senator Clay, in reply to a question I put to him Saturday. "It is an undertaking which means to the people of the United States an annual expenditure of \$80,000,000, and which means that expenditure not for one year but continuously a question of minor importance? And that is not the most serious phase of the situation. Reflect for a moment upon the effect of the war upon our American soldiers, officers and men. It is brutalizing them as is plainly shown by the evidence which has been given before the Philippines Committee. And why this cruelty? Is it in accordance with the past histories of our army? No! And for good reason. In the Civil War men fought for the principles in which they believed, the rights of the sovereign states on the one side, the preservation of the Union on the other. All were sincere. All were fighting for their convictions. Ministers, doctors, merchants, farmers, the best men in the country on both sides, made up the rank and file of the armies. To a certain extent the same was true in the Spanish war when the best of our young men enlisted to uphold the flag and to free Cuba. But whom have we in the Philippines? Men who have enlisted for \$13 per month. Men who enlisted generally only because other means of gaining a livelihood were barred to them. Stop and think of the men you know who have enlisted—not as volunteers in the first lever of the war—but as regulars, for the paltry pay of a private. What manner of men are they? Is it any wonder that their officers cannot restrain them and that they practice cruelties and avail themselves of methods of torture? The Philippines are human beings with hopes and aspirations like our own. They have seen the light as the American colonists saw it in 1775 and now is it to be wrested from them and are they to yield up their hope of liberty? 'Pacified'? Yes: Temporarily, perhaps, at the muzzle of American rifles, but let those rifles be turned away and their hopes and ambitions will return and they will renew the struggle. We have killed their men and sometimes their children and even, perhaps, though accidentally, their women. Will they forgive us and accept our rule? Never, except in the presence of large armed forces. To preserve peace in the Philippines we must maintain an army of from forty to fifty thousand men in the islands for years to come, perhaps, forever; and this to conquer a people to whom liberty is as dear as it is to us. Can the Philippine question be said to be one of minor importance?"

it and only a show of strength great enough to overrule the Speaker insured its receiving a hearing.

The appointment by the President of Mr. J. S. Clarkson, of Iowa, to an important Federal position in New York is a sad commentary on Mr. Roosevelt's civil service reform professions. This is the same Mr. Clarkson to whom, it will be remembered, Civil Service Commissioner Roosevelt paid his respects in unequivocal terms. Mr. Roosevelt, if I remember rightly, characterized Clarkson as the "head-man of the administration" and as a "conspicuous advocate of the spoils system." What can have induced President Roosevelt to so far depart from his principles and appoint the man he flayed at St. Louis, the people will have to judge.

The sensational story sent out by some correspondents of a combination of the Democrats in the Senate with the beet sugar Senators to prevent action on the reciprocity bill, the Philippine bill and the Nicaraguan Canal bill is positively denied by the Democratic leaders. The story may have originated with the beet sugar Senators who are being driven to desperate straits, but the Democrats have heard nothing about it except from the news papers. As far as the Nicaraguan Canal bill is concerned there is little hope of securing an appropriation for that purpose. Treasury receipts for the past two months have not been up to expectations and there will be a comparatively small margin between receipts and expenses so that it is believed most probable that Senator Allison will oppose any large appropriation for an isthmian canal.

CHAMP CLARK'S LETTER

(Special Washington Letter.)

"T WAS a famous victory." "Twas done in Iowa!" "Twas a complete rout for the Republican chieftain," who have been holding it over the house. The issue was squarely joined, sugar trust versus the American people, and the people were out in the house of representatives, and the Republican party in the house, were the boasted majority of forty-three, in Iowa voters, into bitter factions, into smithereens, while the Democrats are jubilant. For nearly two weeks the machine Republicans and the insurgent Republicans poured broadside after broadside into each other in a way that was refreshing to lovers of our country. It was a bare knuckle performance. Their blood was up. No quarter was asked or given. The machine was beaten, horse, foot and dragon. The Democrats went up to a machine, taking "the differential" off refined sugar, which means cheaper sugar to the American consumer. The 18th of April, 1902, is a day to which Democrats can point with pride. On that occasion the conduct of the house Democrats was superb. By that day's work and their united support of the Democratic minority report of the committee on foreign affairs in favor of the rigid exclusion of Chinese coolies the Democrats have almost assured the election of a Democratic house in November and have gone far toward insuring Democratic president in 1904. As nothing can be more edifying to Democrats than to read the wrothy opinions which these belligerent Republicans expressed for each other and as no Republican paper has dared to print the speech of Democratic president in 1904. The issue was squarely joined, sugar trust versus the American people, and the people were out in the house of representatives, and the Republican party in the house, were the boasted majority of forty-three, in Iowa voters, into bitter factions, into smithereens, while the Democrats are jubilant. For nearly two weeks the machine Republicans and the insurgent Republicans poured broadside after broadside into each other in a way that was refreshing to lovers of our country. It was a bare knuckle performance. Their blood was up. No quarter was asked or given. The machine was beaten, horse, foot and dragon. The Democrats went up to a machine, taking "the differential" off refined sugar, which means cheaper sugar to the American consumer. The 18th of April, 1902, is a day to which Democrats can point with pride. On that occasion the conduct of the house Democrats was superb. By that day's work and their united support of the Democratic minority report of the committee on foreign affairs in favor of the rigid exclusion of Chinese coolies the Democrats have almost assured the election of a Democratic house in November and have gone far toward insuring Democratic president in 1904. As nothing can be more edifying to Democrats than to read the wrothy opinions which these belligerent Republicans expressed for each other and as no Republican paper has dared to print the speech of Democratic president in 1904.

It was a famous victory. It was done in Iowa. It was a complete rout for the Republican chieftain, who have been holding it over the house.
