Quien sabe? No Politics In Teddy's Speeches. Little Paul Dombey was always asking Floy, "What are the waves saying?" Certainly since the ocean first was formed no stranger message has come from it than that which now issues from Oyster Bay. It is given out that President Roosevelt in his swing around the circle this fall has no political designs whatsoever and that he is much annoyed that the ungodly should have attributed to him such motivesall of which will be given the boarse hoot by the junior senator from Ohio, who is one of Tom Johnson's most preeminent constituents. But Mark's cynical thoughts and remarks will not count. He will not be permitted to pull down the ideal candidate, the altruistic statesman of Sagamore Hill, the harbinger of the political millennium, the philosopher who proposes to let the office seek him and-catch him! No, indeed. Colonel Roosevelt is not going to tour the country in the interest of his own nomination. Perish the thought! He's going about the land to view the wonderful crops, which Mark's friends allege that Mark caused to grow. Of course Colonel Roosevelt has not gone so far as to say that he will not accept a nomination-not he. If the nomination chases and captures him, what can he do but serve his country and save it again by serving four years more! The bold, bad men who started the report that the presi-

iprocity," says: Senator Burton of Kansas made an exended speech this week at Topeka before a large assemblage in which he set forth the arguments that induced a large number of Republican senators to oppose the Cuban concessions bill as reported by the senate committee. The main point is that the concessions proposed go beyond all former conceptions or definitions of reciprocity and assail the protective principle itself. So clearly was this fact established in debate that Mr. Burton asserts, "There are not fifteen Republican senators out of the fifty-four who are in favor of the present bill at heart." onger the bill was discussed in the senite the weaker it became, and the chief ip in the measure. That bill breaks down all former limitations of what is called eciprocity. Reciprocity as advocated originally by Mr. Blaine, as Senator Buron points out, was the admission into Republican column is solid?" The same limitation, most lucidly expressed, appears in President McKinley's last speech, that made at Buffalo the day before he was struck down at the post of duty. "Reciprocity," said President Mc-Kinley in his address of Sept. 5 last, "is the natural outgrowth of our wonderful industrial development under the domestic policy now firmly established." policy referred to is, of course, protec-tion. President McKinley said in the same speech: "By sensible trade arrange-ments which will not interrupt home prouction we shall extend the outlets our increasing surplus. We should take from our customers such of their products as we can use without harm to our own industries and labor." The reciprocity which Blaine, McKinley and the Republican national platform favored is explicitly intrenched in behalf of protection. It was not intended to apply to any product of our own. But what is found in the Cuban concession bill? It is a removal of all duties on Cuban imports regardless of whether we produce the same articles or not. About twenty articles were to be admitted at a reduction some of which we produce ourselves. To call this wholesale reduction anything resembling what the Republican party or leaders have hitherto favored under the namof reciprocity is ridiculous.

All sincere Republicans did not see it, but enough were sufficiently cautious to save the party from making a breach in "the firmly es tablished policy." That editorial does not contain the name of Theodore Roosevelt, but every word of it is intended as a dagger not for his breast, but for his back. He can write it on the tablets of his memory that the Globe-Democrat is dead against him and will deprive him of the Missouri delegation in the next Republican national convention if It can; but it can't. Roosevelt may lose ocrats of Missouri, the first Democratic | the delegation, but not through the influence of the G.-D., for it has none in selecting delegates. Hon. Richard C. Kerens will attend to that job. If the president will take the pains to read the foregoing editorial from the G.-D. carefully, he will be very much surprised to learn that he is to be fought on the grounds that he is not sound on the tariff and that he is a free trader. The war is on. The G.-D. has evidently enlisted under the Hanna banner, and Colonel Roosevelt must look to the condition of his guns and ammunition If he does not sleep with at least one eye open, he will be stabbed to death in the house of his friends.

I am aware that the G.-D. editorial is a very long quotation to make in these letters, but the space is well used if my readers learn from it the lesson which it teaches—that the Republicans are hopelessly divided into bitter factions, which will grow more bitter as the days go by. Democrats have every reason to be hopeful as to the results of the campaign now on. To your tents, O Israel!

There can be no question about the G.-D. having it in for the president. It virtually charges him with being a free trader in the following remarks about the Cuban reciprocity bill:

Therefore it is impossible to see how the new republic can be ruined by the defeat of the proposed double reduction. It would be much pearer the truth to say that the failure of the bill would be a source of loss to certain sharp speculators and a deep disappointment to free traders who are anxious to break down the protective principle at a new point and in a new way.

Query: Does the G.-D. in that paragraph intend to charge President Roosevelt and all other advocates of the Cuban reciprocity bill with being "sharp speculators?"

Item: The G.-D. returns to its charge of being a free trader in the following paragraph:

All the free trade papers continuo to in-sist that Cuba will be ruined unless the Now, if a paper is a free trade pa-

are not the president and other Repub-lican statesmen also free traders for dvocating the same thing? But the most unkindest cut of all, to borrow a phrase from Shakesposte, that the G.D. has administered to the president is the following:

Does not the Globe Democrat know

Does not the Globe-Democrat know that President Roosevelt Indorses General Wood's action in using funds from the Cuban treasury as he did use them? Aye, more, does not the G.-D. know that in his speeches in and about Boston the president held General Wood and Secretary Elihu Root up to the admiring game of all the world as great and virtuous men, whose example all creation would do well to imitate? The president lands Wood and punishes Smith. The G. D. lauds Smith and intimates that Wood ought to be punished. The president is a Republican and so is the G.-D., and yet "the

It is clear as the noonday sun shining in his meridian glory that if the Missouri delegation to the next Republican national convention supports Colonel Roosevelt it will do so in spite of the Globe-Democrat. He might as well understand that now as later.

Judging from press comments, even from Republican papers, the senstorial days of Hon. J. Ralph Burton of Kansas will be few, not exceeding six years, which is not haif as long as he was industriously endeavoring to break into the senate, for he was one of the most persistent seekers after a togs American continent. At the Philadel phia convention in 1900, at the bead of the Sunflower delegation, be was one of the loudest shouters for House reit. All told, ten men have served as sensitors in the Lane tine, while only four have served in the Pomeroy line. In the Pomline Pomeroy served from 1961 to 1873, Ingalis from 1873 to 1881, Peffer from 1891 to 1897 and Harris from 1897 to the present time. In the Lane line Lane served from 1961 to 1905, when he sommitted suicide; ". O. Ross served from 198 to 1871, since which time he has lived in political oblivion because of his vote or the Johnson impeachment; Alexande Caldwell from 1871 to 1873, when he resigned under fire; Robert Crealer from 1873 to 1874. James Harvey from 1874 to 1877, P. B. Plumb from 1877 to 1888, when he died in office; B. W. Perkins from January, 1882, to January, 1882; John Marin from 1863 to 1896; Lucien Baker from 1896 to 1901; J. R. Burton from 1905 to the present. Thus only four out of the ten senators in the Lane line ever served ful terms or longer. The other six were to for a year or two. Since 1832 the Lane tine has had four senators. If precedents are followed in the Lane line, Hurton will be a one termer, but he hopes to

A Strong Arkansan. Everybody who is acquainted with congressmen and who takes an interest in the Democratic party will be delighted to know that Judge John S. Little of Arkansas has been renominated.
