The truth is that all the jobbers in the country de size a war with Cubs and that we shall take and hold her as a conquered prov-ince in order that we may have some excuss for a large standing army. The sous of senators are crying for soft berths-not "the sapient sons of saint-ed sizes," as Governor Lon V. soup threen and to clothe Governor Ben Odeil's form in a senatorial togs did not eventuate or materialize. Hon. Booth Tarkington, novelist, of Indiana is trying his hand at politics. There was a novelist once named Bensociety of New York: jamin Disraell who cut a treme figure in politics. It may be that Booth Tarkington will rival him, but few men have rivaled that "marvelous A distinguished American some time ago leaped into unmerited fame by mying. "Some men are born great; others are born in Ohio." This is mere pleanasm, for a man who is born in Ohio is born great. I can say this, as the rost of you cannot, without the reproach of agolism, for I have suffered all my life under the handlesp of not hav-ing been born in that fortunate common-wealth. Indeed when I look back on the shifting scenes of my life. If I am that altogether deplorable creature, a man without a country, I am, when it comes to pull and prestigs, almost oqually be-reft, as I am a man without a state. I was born in Indiana, I grew up in Illi-neis, I was educated in Rhode Island, and it is no blame to that scholarly community that I know so little. I learned my law in A distinguished American An Enigma. An Engine. There is one mystery in American politics that ought to be explained, and that is why purisis and reformers are forever howing about Tammany and its corruption while saying precious little, if anything, about the Republic-an ring in Philadelphia and its corrup-tion. No doubt Tam-many does many things which were better left undone, but the Fhiladel-phis Republican gang does things which Tammany never dreams of do-ing, yet the reformers split their throats and the welkin also in denunciation of Tammany and preserve a marvelous

and the welkin also in denunciation of Tammany and preserve a marvelous slience when it comes to the Philadel-phia corruptionists. It really looks as though the professional reformers, men who live by reform, are more recruit-ing agents and exhorters for the Re-publican organisation. Mayor Seth

who need by renorm, are made rent to the restored activity of the second activity of the direction organization. Mayor Seth the direction foll state. The preside distinguished

veneered Republicans. When, for instance, did Tammany perform such a brazen piece of boss-ism as the Philadelphia Republicans have performed as to their next may-

or? Four or five petty bosses have selected Mr. Weaver for that high posi-fion. They announced his selection by telephone to the hundreds of thousands of citizens of that great city, and, while nearly all were astonished, none has had the courage to protest, none dares to contest the nomination, and if

the contest the nomination, and if any man, no matter how strong and meritorious, did pluck up the courage to contest it would do him no good, no matter how many votes he received, for the ring would count their candi-date is a survey and their candi-

that all Democrats ought to be hanged and that all Republicans are so pure that they live in imminent peril of be-ing translated in a charlot of fire a in

Professional Reformers Mute. It is a well known fact that Senato Matthew Stanley Quay dictates all the principal appointments of his cousin, Governor Penuypacker, from Wash-ington and that Senator Thomas Col-

ler Platt, "the easy boss," dictates to he Republican legislature in Albany what laws it shall enact. Neverthele

the professional reformers are mute as Hon. William A. Clark of Montany was driven into resigning a seat in the senate for spending too much money. The sum proved was about \$30,000. Yet the notorious Addleks boasts that

he has spent \$250,000 in making Teleware Republican. Yet when he proengtor will object. Wherefore? Be-

iny statement was exactly to the con-trary. The Journal says that I mid that "my size will double discount that of Methodelah, the oldest man shat ever lived, before Missouri goes Republic-an." I said no such thing. An con-traine, as the French would say, I de-clared that "General Grouremer's new would double discount Methodela". Of course a fittle thing like that does not amount to anything when the great Kansas City Journal is endeavoring to put a Democrat in the wrong. The Journal second to hink it was something awful for use to my, in speaking of discourd Grovener, "He is the hardest mas to corner that I ever clapped my syss on." Yet I can prove the absolute verity of that state-ment by overy man in the isome. It must be that the Journal expects a Democrat to use only merewater is fighting a Republican notorious for using vitrini.
