old humbug. A Remarkable Discovery

It will be remembered that the most spectacular event-in fact, the only ectacular performance of the Chicago convention-was the reading of Mr. Secretary of State Hay's flery telegram alive or Raisuli dead!" That made the groundlings roar and throw high their sweaty caps in air and made Hay second to his great war chief, and second to him only. In fact, that blood and thunder telegram thrilled the hearts of the whole American people and recalled to their-minds that glorious day in the long ago when an American ship captain on Jefferson's order shelled the Barbary pirates out of their hole in stead of paying tribute at the strait if he had remained at home? No huof Gibraltar. That Hay telegram has been the stock in trade of Republican to the Democrats after the split at the spellbinders ever since. Now comes the Washington Post, independent and truthful chronicler, saying that when defeated not because he made a series that telegram was sent the state depart of wonderful stump speeches, but bement must have known that Perdicaria cause the one gallus Democrats would had been released twelve hours before. not support him-the Democrats who If that is true, then the sending of the telegram was a game of political bunko The next candidate who stumped the pure and simple, unworthy of the state country was James Gillesple Blaine, department of any civilized country who engendered much enthusiasm and The whole editorial on the subject in made votes wherever he went. Lookjaw, or tetanus, is caused by a bacilius or germ which exists plentifully in street dirt. It is inactive so long as eibosed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nalls, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lookjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuits, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by Aycocke Drug Co.
