THE COMING STRUGGLE.

INDIVIDUAL RIGHTS VS. COM-MUNITY OF INTERESTS.

Republican Doctrine Leading to Socialism-Democratic Party Only Bulwark Against Centralized Power.

The eventual struggle in this coun try-will be between indivualism and socialism and the Republican party. with its persistent efforts for centralization, is to blame for the growth of the socialistic propaganda. The Democracy has always stood for the freedom of the individual and home rule and opposed to the paternalistic and Hamiltonian theory that the Federal government must be all powerful. The Constitutional provision that all rights not granted by the states to the general government are reserved to the states and the people, is the fundamental doctrine of the Democratic party. Jefferson, the apostle of the Democrats, declared this and no true Democrat has ever

gainsayed it. Mr. Bryan, who has been accused by the Republicans of Socialism, shows by his conservative views in his article entitled, "Individualism vs. Socialism", in the century Magazine for April his own and the Democratic positon. In that article he says: "Much of the strength developed by socialism is due to the fact that Socialists advocate certain reforms which individualists also advocate. Municipal ownership of monopolies, for instance, is advocated by individualists, because it is practically impossible to have more than one water system in a city, and by the latter on the general ground that government should own all the means of productions and distribution. Mr. Bryan remarks that the sentiment for municipal lighting plants is not yet so strong, and the sentiment in favor of public telephones and street car lines is still less pronounced; but the same general principles apply to them, and individualists, without accepting the creed of socialism, can advocate the extension of municipal ownership to them He further shows plainly the evils to the individual citizen of Socialism when he says: "If the government operates all the factories, all the farms, and all the stores, there must be superintendents as well as workmen; there must be different kinds of employment, some more pleasant, some less pleasant", and he asks: "Is it likely that any set of men can distribute the work or fix the compensation to the satisfaction of all, or even to the satisfaction of a majority

of the people?" How great, therefore, is the gulf between the Democracy and the Socialists, who believe in concentrating all power in the central government, whereas the Democrats stand for the utmost freedom of the individual citizen without infringement upon the rights of others.

The trend of Republicanism is to rush to Congress for a cure for political evils; to overlook, and even aid, executive usurpation over the representatives of the people; to favor trusts and corporations who in return have turnished money to corruptly keep their friends in power. The Democratic doctrine is exactly opposite and is expressed by "Equal rights to all and special privileges to none. Without the Democratic party, which alone offers all classes equal rights, there would be a certain hurrying of the unthinking to the extreme of appropriating all the means of production and distribution by the national government, so that ultimately there would be no incentive for individual effort. The confiscation of the property of those who, by saving or superior ability, had secured a competence would follow the appropriation of the property of those who had amassed millions.

POVERTY A BLESSING.

tion. Orine Laustive Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. shortly.

The most serious disadvantage under which the very rich have labored in the bringing up of children. It is well-nigh impossible for a rich man to develop his children from habits of indifference and laziness. These children are so situated that they have no opportunity of doing productive labor, and do nothing for themselves, parents, brothers and sisters, was terrible beyond expression to be In striking contrast are the farmers' children, who co-operate at tender years in the work of the household

GOVERNORS SINCE 1719.

You May Paste This in Your Scrap Book for Reference.

Some one asked Mrs. Baldwin, the somnomistic artist at the Academy of Music the other night who the governor of North Carolina was in 1861 The question was answered "Clark."

From the answer many questions have arisen and for the satisfaction of those who are interested, the list from 1719 is given below: 1719 Charles Eden.

1729 Sir Richard Evard, of Bart. 1734 Gabriel Johnson. 1753 Matthews Ransom.

William Davis.

1810 Benjamin Smith.

1811 William Hawkins

1814 William Miller.

1820 Jesse Franklin.

1821 Gabriel Holmes.

1827 James Iredell.

1828 James Owens.

James Turner. despairing face. Nathaniel Alexander. "Poor dear!" she sympathized in an old fashioned manner. Benjamin Williams. "It's dark. Dora-never any light. David Stone, 1808 That's why I cannot write." His voice

> broke with a half sob "I'm dreadful sorry. Let me do for you. I print now, and I learn fast. See if I don't." She tossed the napers aside and climbed into a chair, sucking loudly at the pencil to make it black "What will we write Blossom" Recompanion's head was pillowed on his arms. His shoulders beaved. Could a man cry even as she sometimes did? Dora scrambled to her feet and hurried from the room, to return a few minutes later flushed and breathless. "Here's Miss Arabella!" she cried thrusting a doll into the man's hands. "When I get cryin' I fust hold her

tight. She comforts lots. Muver's calling. Hold Arabella close, Blossom." The doll became the first link in strange friendship, which grew with years. For the child's amusement Blossom brought wonderful tales out of the storehouse of his imagination, frequently in verse that he strung together during wakeful hours of the night. Dora listened and remembered. As she had said, she learned fast. She was barely twelve when she recalled her promise. "I write truly now. Tell me what to write,"

Blossom smiled sadly, declaring the desire dead, but she insisted and coaxed until he yielded, repeating some of the phrasings that baunted him, and the dormant passion revived. It was new birth to the man, and the girl became his eyes, as the gift that had been smothered in darkness and uncertainty suddenly developed, and the poet came into his own. In time "our poetry," as Dora called it, verses with exquisite rhythm, in round childish chirography, found their way into editors' hands and caused comment. Bo the years passed, and Blosso

counted each anniversary as it came "Fifteen today," he said on one oc-casion, sighing heavily. "I wish so I could see you once—just once."

Dora raised her head from copying was unusual for Blossom to chat be fore the dictation was completed Rocky Mountain Tea is a sure preventa-How do you look?" continued the

A Bug Six Inches In Length. The island of Dominies is the home and natural habitat of the hercules beetle (Dynastes hercules), the very largest known species of the coleopters or beetle family. Full grown specimens of this gigantic representative of the hard winged bug family average six inches in length from the tip of their pluchers to the termination of the wing covers. It has a long, black born growing out of a head which is even darker than the horn itself. On its lower surface the horn is covered with a thick setting of gold colored bristles, which the entomologists any are used by the insect in capturing its prey Another and shorter but more powerful born grows out from beneath, the two forming a powerful pair of pinch ers. The creature has six powerfu legs, each armed with claws. The elytra or wing covers are of a dapple gray color and the under parts of the body black. Taken all together, it to a
