## A Bad Advertisement.

It is cheaper to vote a special tax and have a good school at home than it is to send the children off to a "high school" and pay both board and tuition. Besides, when you send them off you advertise the fact that your community is not progressive enough to run its own school-a Sweet." thing that any progressive citizen should be ashamed of and should try and remedy, especially when the remedy is so easily and cheaply supplied by that medicine which we call "local taxation."-Marshville Home.
