Sunshine.
Sunshine in the lives and souls of people is just as potent in the realm of home as the sunshine that drives darkness from our world and brings that warmth which is essential to life and growth in the vegetable kingdom. There is a convincing and vivifying power in the sun's unshining; for, as has been well said, men and women, youth and children, seek the friendship of the sunny-faced. All social circles welcome cheerfulness. A sunny face is an open pleasure to hearts and homes. By its burdens are lightened, care dispelled, sorrow banished, and hope made to reign triumphant where fear and doubt, and despondency held high carnival. Your own life will be sweetened, your own joys heightened, by your perennial heavenlighted, sunny face.

Neglect of Home Duties.

Many of our business men are tempted to neglect their home duties. How often it is that the store and the home seem to clash, but there ought not to be any collision. It is often the case that the father is the mere treasurer of the family, a sort of agent to see that they have dry goods and groceries. The work of family government he does not touch. Once or twice in a year he calls the children up on a Sabbath afternoon when he has a half hour he does not exactly know what to do with, and in that half hour he disciplines the children and chides them and corrects their faults and gives them a great deal of good advice, and then wonders all the rest of the year that his children do not do better when they have the wonderful advantage of that semi-annual castigation.

The family table, which ought to be the place for pleasant discussion and cheerfulness, often becomes the place of perilous expedition. If there be any blessing asked at all, it is cut off at both ends and with the hand on the carving knife. He counts on his fingers, making estimates in the interstices of the repast.

The work done, the hat goes to head and he starts down the street, and before the family has arisen from the table he has bound up another bundle and says to the customer: "Anything more I can do for you today, sir." A man has more responsibility than those which are discharged by putting competent instructors over his children and giving them a drawing master and a music teacher. The physical culture of the child will not be attended to unless the father looks to it. He must sometimes lose his dignity. He must unlimber his joints. He must sometimes lead them out to their sports forget the severe duties of life sometimes, to fly the kite, and trundle the hoop, and chase the ball, and jump the rope with his children, ought never to have been tempted out of a crusty and unredeemable solitariness. If you want to keep your children away from places of sin, you can only do it by making your home attractive. You may preach sermons and advocate reforms and denounce wickedness, and yet your children will be captivated by the glittering saloon of sin unless you can make your home a brighter place than any other place on earth to them. Oh, gather all charms into your house! If you can afford it, bring books and pictures and cheerful entertainments to the household. But, above all, teach those children, not by half an hour twice a year on the Sabbath day, but day after day and every day teach them that religion is a great gladness, that it throws chains of gold about the neck, and it takes no spring from the foot, no blitheness from the heart, no sparkle from the eye, no ring from the laughter, but that "her ways are ways of pleasantness, and all her paths are peace."

\$5,445,869 More a Year for Tobacco Farmers

The total value of the tobacco crop for the eight Tobacco States is over \$59,554,131 annually. With the same acreage the tobacco growers in these States could, by improved methods of cultivation and fertilization, undoubtedly increase the total value of the crop to \$65,000,000.

Virginia-Carolina Fertilizers

are compounded with the utmost care, containing only such elements of plant foods as can be taken up and properly assimilated by the plant without causing injury to its quality. Years of investigation of the cultivation and fertilization of tobacco enables the Virginia-Carolina Chemical Company to furnish fertilizers of superior quality for the production of this crop.

Mr. J. W. Rogers, R. F. D. No. 4, Durham, N. C., writes: "I have been using your fertilizers this year and the crops are the best looking I have ever seen—especially the tobacco crop. I have never seen any other fertilizer which acted as quickly as yours does. The leaf is large and waxy, cures bright, and I am satisfied will bring a big price. Also, my neighbors in this district use your fertilizer with the best results."

Is there any reason why you couldn't do as well? Be sure and ask your fertilizer dealer for a copy of the 1909 Virginia-Carolina Year Book or Almanac, or write our nearest sales office and a copy will be sent you free.

The Best Way to Handle Manure.

Stable manure spread on the land and left there loses less than in any way you can keep it. It will lose in the barnyard, it will lose in piles, but spread on the land, it loses mainly water, and the lad absorbs and holds what is washed into it by rain. In an experiment made some years ago at the New Hampshire Station, manure was spread in the fall and left to lie all winter. At same time some was spread and plowed under at once. In spring more manure was spread on another plot, and the three plots were plowed and planted in corn. The plot where the manure lay on the surface all winter made very considerably the largest crop of the three.—The Progressive Farmer.

Weak and Sickly Women.

It is hard to estimate how many women owe their female troubles, general weakness, nervousness, sallow skin, etc., to constipation and indigestion, but doctors whose practice is among women say that 90 per cent, would be no exaggeration. It is well for them to know of Dr. Caldwell's Syrup Pepsin, which cures constipation, indigestion, sick headache, heartburn, hot flashes, etc. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg., Monticello, Ill. It is sold by The Boddie-Perry Drug Co., at 50c and \$1 a bottle.
