WE LIKE TO TALK QUALITY

When it Comes to Men's Clothing.

"Cheapness" say a noted writer, "is a little better than passing counterfeit money—but only a little. It robs your customers of the value they have been led to expect they would receive from their purchase and it usually ends by robbing you of customers. Quality is really the only foundation upon which to build a business, because it gives customers their money's worth, full value, rent for cent and brings them back season after season."

TAKE our showing of High Art Clothing, for instance for Fall and Winter go through our immense stock pick out any suit containing the High Art label and you can feel as sure of your money's worth as with a Government Bond, for High Art Clothing is "quality" clothing, made in "quality" shops, by "quality" tailors, sold by "quality" stores, and worn by men of quality.
