LOUISBURG, N. C., FRIDAY, JUNE 17, 1910.

NUMBER 17

## BASEBALL AT LOUISBURG

### LOUISBURG 3 TO HENDERSON 0.

#### The Game Friday Between Louisburg and Henderson An Interesting One—Other Baseball News.

On Friday evening of last week, between the showers, the Henderson and Louisburg ball teams crossed bats on the diamond here and played an interesting game of ball. Although the weather was exceedingly bad quite a large crowd was out to witness the first game of the season.

The main features of the game were the batting of Stone, Ford and Yarborough for Louisburg and the excellent twirling of the ball by Stone, Louisburg's pitcher, which the Henderson boys accepted as a "Chinese puzzle." The Henderson boys played fairly good ball in the fact that they held the Louisburg team down to three runs. The game was called at the end of the sixth inning on account of the rain together with the fact that the Henderson boys had to catch the train at 6 o'clock for home.

The batteries were—Louisburg, Poole and Stone; Henderson, Daniel and Faulkner.

#### NEXT WEEK'S PROGRAMME

As far as can be ascertained the following will be the schedule of games for the next week.

Louisburg will go over to Franklinton today (Friday) and play a game with the Franklinton team. This promises to be a very good game as Franklinton has a good strong team.

On Tuesday the Franklinton team will come over to Louisburg and play the Louisburg team in the Williamson Park on east Cedar street. This will give our people another opportunity to witness a good game.

The two games above mentioned have been arranged for by the personal efforts of Dr. A. R. Winston, of Franklinton, and Manager F. B. McKiane, and we hope that at each game the people of both towns will turn out in large numbers to encourage the boys.

Epsom will play a game with Louisburg at Williamson's Park on Thursday, June 23rd. As Epsom won two straight games from Louisburg last season this promises to be one of much interest when Louisburg will try to redeem itself with this team.

Monday and Tuesday, June 27th, and 28th. Roanoke Rapids will play on the local diamond. And Wednesday and Thursday June 29th and 30th Smithfield will play a series of games with us.

The management requests us to state that Friday, July 1st, is open and that any nearby team wishing to fill in this date will please write them at once. They also request us to state that they will be glad to arrange a date with any of the organized teams of the County and should any wish to play them please write the management at once so dates may be arranged.

#### Entertained.

On last Friday evening in the spacious parlors of the Louisburg College Miss Mary Stuart Egerton and Mrs. Ivey Allen delightfully entertained a number of friends in honor of their guests, Miss Gladys Hill, of Baltimore, and Marie Millikin, of Louisiana. The occasion was one of great enjoyment to all who attended.

#### Mrs. H. W. Thompson.

Mrs. Henry W. Thompson died at her home on North Spring street on Monday afternoon at 1 o'clock. She was 81 years old and leaves four little children besides her husband.

She was a daughter of Mr. C. W. Roberts, of near Youngville, and was a sister of Mrs. R. A. Pearce, of Louisburg. She leaves a host of friends who extend their most sincere sympathies to the bereaved family.

The funeral was conducted from the home on Tuesday evening by Rev. L. W. Swope, pastor of the Baptist church, and the interment was made at the cemetery. The pallbearers were P. B. Griffin, S. P. Boddie, W. B. Cooke, W. J. Cooper, W. E. Murphy, S. B. Nash.

#### Childrens Day.

The annual childrens day of Piney Grove Methodist Episcopal church will be held the fourth Sunday in June; exercises commencing at 10:30 a. m. There will be dinner on the ground. In the afternoon Rev. G. W. Starling, of Kittrell, will speak. Everybody is cordially invited to come.

#### Hamill-Webb.

The editor of the TIMES acknowledges the receipt of the following invitation:

Mrs. Fannie Uzzell Webb requests the honor of your presence at the marriage of her daughter Lucy Taylor to Mr. Roscoe Wilkins Hamill on the morning of Wednesday the twenty ninth of June, nineteen hundred and ten at half past nine o'clock Baptist Church, Mapleville, North Carolina.

#### Directors Meet.

At a meeting of the Directors of The Farmers and Merchants Bank at their banking house on June 11th, 1910, Mr. M. S. Clifton, who is well known throughout the County, was elected assistant Cashier. This being a promotion for Mr. Clifton, is at the same time quite a valuable addition to the staff of officers of the bank.

At this meeting Mr. C. P. Harris was elected a director, which is also a valuable addition to the bank.

It is with much pleasure that we make these announcements.

#### "Among the Breakers."

On Tuesday evening of last week a party of young people, composing the cast for "Among the Breakers," came over from Bunn and presented the play to a large audience in the Opera House. The play was very good and the young people presenting the same did well their parts. The debut by Miss Etta Alford and Mr. C. H. Mullen was especially enjoyed by the many present. As was announced the play was given for the benefit of the Bann High School Library and we learn something over fifty dollars was taken in. The people of Bunn are to be congratulated upon having such zealous workers for so noble a cause.

#### Saint John's Day at the Oxford Orphanage.

On Friday, June 24th, in the ample oak grove at the Oxford Orphanage the annual celebration of Saint John's Day will take place. The occasion seems to grow in interest from year to year. If conditions are favorable, it is likely that between seven and ten thousand of our people will gather in Oxford for the celebration.

A special session of the Grand Lodge of Masons of North Carolina will be held about noon and very soon thereafter, the exercises out in the grove will begin. Unless something prevails, Grand Master Richard N. Hackett will preside. Mr. W. B. Ballou, of Oxford, will deliver the address of welcome. Grand Master Hackett has announced the appointment of Rev. Plate Durham, of Cencord, as Orator of the day.

The children of the Oxford Orphanage, with their sweet singing and their open-air concert in the afternoon, will contribute no little to the enjoyment and profit of the occasion.

Some of the visitors to Oxford, with, doubtless, prefer to carry baskets and enjoy their dinner in good old-fashioned picnic style.

An abundance of pure ice water will be provided.

From stands on the grounds barbecue dinner, sandwiches, other lunches, fruits, ice cream, lemonade etc., will be on sale.

The Seaboard Air Line plans to again operate excursion trains from Raleigh, Durham, Weldon and Henderson. Besides the usual increased equipment and attractive special rates on regular trains, which are run on schedules most convenient for the people east of Oxford, the Southern Railway will operate an excursion from Greensboro. This special will leave Greensboro at 7:30 and will reach Oxford about 10:30 a. m. Returning it will leave Oxford at 4:30 p. m. and arrive in Greensboro about 7:30 p. m.

The Oxford Orphanage, one of the greatest institutions in our commonwealth, its three hundred and thirty children, the meeting of the Grand Lodge of Masons, the splendid speaking the sweet singing, the afternoon concert, the out of doors picnic feature, the fine fellowship—these are some of the attractions of this celebration. And the convenient excursions and low rates will be added inducements for many of our people to go to Oxford Friday June 24th.

#### State Normal College.

We desire to call attention to the advertisement of the State Normal and Industrial College which appears in this issue. Every year shows a steady growth in this institution devoted to the higher education of the women of North Carolina.

The College last year had a total enrollment of 998 students. Ninety of the ninety-eight counties of the State had representatives in the student body. Nine tenths of all the graduates of this institution have taught or are now teaching in the schools of North Carolina.

The dormitories are furnished by the State and board is provided at actual cost. Two hundred appointments to the dormitories, apportioned among the several counties according to school population, will be awarded to applicants about the middle of July. Students who wish to attend this institution next year should make application as early as possible, as the capacity of the dormitories is limited.

#### Aaron Deitz.

Don't fail to look up the change of ad of Aaron Deitz in our next issue. He says he has some exceptional bargains in blue serge suits and in fact in every line he carries. He also says he is closing out his large line of ladies and men's low cut shoes and the prices he will charge you for a pair will cause you to congratulate yourself upon going to see him. Remember to look for his change in our next issue, it will be worth your while.

#### Farmers Union Rally.

The next Farmer's Union Meeting and Rally will be held with the Local at Ingleston on Thursday, July 7th. All members of the Farmer's Union and their families are invited. Dinner, lemonade, etc., will be served. Badges to be worn on the occasion will be furnished by the County Secretary and Treasurer. All Locals will please send in County dues immediately, and send up a full delegation to the County meeting.

T. H. SLEDGE, Co. Sec. Treas.

## THE MOVING PEOPLE

### THEIR MOVEMENTS IN AND OUT OF TOWN.

Those Who Have Visited Louisburg the Past Week—Those Who Have Gone Elsewhere for Business or Pleasure.

Samuel Scherr left this week for Richmond.

W. E. White went to Raleigh Wednesday.

D. F. McKinne returned Saturday from Charlotte.

L. P. Jonson and E. F. Thomas spent Sunday in Rocky Mount.

Miss Eleanor Cooke left Wednesday for Monroe to visit friends.

P. A. Reavis and family have returned from a visit to his people at Cary.

H. C. Bowden, who is now a "K of G," spent a few days in town the past week.

F. L. Herman and family returned the past week from a visit to his people at Hickory.

Miss Margaret Johnson and brother, Earl, of Rocky Mount, are visiting their brother, A. F. Johnson.

Miss Laura mills returned Wednesday from Albemarle to spend the summer with her people here.

E. B. Hart, who has been attending school at V. P. I., at Blacksburg, Va., returned home the past week to spend his vacation.

Dr. J. H. Uzzell returned home Friday from Baltimore where he has been a medical student at the University of Maryland.

Mr. J. R. Collie is attending a meeting of the Knights of Pithias at Charlotte this week, as a delegate from the local order here.

Dr. W. H. Furman, who has been attending school at the Jefferson Medical College, Philadelphia, returned home the past week.

#### Ten Things To Do This Month.

(1) Keep the cultivators going. Level, shallow, frequent cultivation is what the crops need at this season. Don't out the corn and cotton roots by deep plowing.

(2) Plant cowpeas, soy beans, velvet beans, peanuts—some legume that will work twenty four hours a day for you gathering nitrogen, making money and building up the land. Put in all stubble lands not otherwise employed as soon as the oat or wheat crop is taken off.

(3) Save all the crimson clover seed possible. If no clover huller is available, the seed can be beaten out by hand and sown in the chaff.

(4) Get the mower in good running order. See that all bolts are tight, the knives sharp, the guards on straight, and the bearings well oiled. A mower is a splendid weed killer as well as a necessity in the field.

(5) Plant late corn and potatoes. Keep up a succession of garden crops; beans, tomatoes, sweet corn and other vegetables should be planted this month. Fresh vegetables are cheaper and better than meat or store-bought foods.

(6) Spray the apple-trees again with Bordeaux and Paris green, and the late peaches with lime-sulphur. Plow out the first-year strawberry beds and plow up the old ones.

(7) Look after the work stock. Cut out some of the corn these hot days and substitute cotton-seed meal, oats or peavine hay. See that there is enough shade and water as well as grass in your pasture.

(8) Fix up a bathroom of some sort, so that you can free yourself from dust and perspiration at the close of the day. It will prove invigorating, add to your sense of dignity and enable you to do better work.

(9) Keep up the warfare against flies and mosquitoes and so help

ward off typhoid fever and malaria. Screen the doors and windows, drain the stagnant pools, and look after the breeding places of the flies.

(10) Prepare for the Farmer's Institutes in your section, and if there are no Women's Institutes in your State, keep after your officials until they are started.—Raleigh (N. C.) Progressive Farmer and Gazette.

#### Excursion to Oxford.

On account of the celebration of St. Johns Day at Oxford on June 24th, 1910, the Seaboard Air Line Railway will operate excursion trains from all points on their road between Raleigh, Durham and Weldon to Oxford for the accommodation of all who wish to attend these ceremonies. We give below the schedule of trains on this division together with the fare for the round trip. Returning the Raleigh train leaves Oxford 5 p. m., and the Weldon train 5:15 p. m. The schedule and rates are as follows:

Lv. Raleigh	8.00 a. m.	\$1.00
" Johnson St.	8.05 a. m.	1.00
" Millbrook	8.16 a. m.	1.00
" Neuse	8.22 a. m.	1.00
" Wake Forest	8.35 a. m.	1.00
" Youngville	8.45 a. m.	1.00
" Franklinton	8.58 a. m.	.75
" Louisburg	9.15 a. m.	1.00
" Kittrell	9.15 a. m.	.75
Ar. Henderson	9.32 a. m.	
Lv. Henderson	9.37 a. m.	.50
" Watkins	9.44 a. m.	.25
" Dickerson	9.54 a. m.	.25
Ar. Oxford	10.30 a. m.	
Lv. Weldon	6.30 a. m.	1.00
" Reanoke Jct.	6.45 a. m.	1.00
" Thelma	6.58 a. m.	1.00
" Summit	7.04 a. m.	1.00
" Littleton	7.11 a. m.	1.00
" Vaughan	7.20 a. m.	.75
" Macon	7.28 a. m.	.75
" Warren Plains	7.35 a. m.	.75
" Norlina	8.00 a. m.	.75
" Ridgeway	8.05 a. m.	.75
" Manson	8.11 a. m.	.75
" Middleburg	8.17 a. m.	.75
" Greystone	8.23 a. m.	.50
" Henderson	8.50 a. m.	.50
" Oxford	9.40 a. m.	

#### LOOK AFTER YOUR HEALTH.

### The Common House-fly, the Mosquito and Drinking Water as Dangerous Carriers of Disease.

Medical men of modern training and investigation generally, who are acquainted with the life, history, and habits of the House Fly recognize it not only as a veritable nuisance but also as one of our most common and dangerous carriers of intestinal diseases such as Typhoid Fever. The question of controlling the breeding places of the Fly and of excluding it from home, sick rooms, Hospitals, Markets and etc. becomes a matter of real importance to the health and lives of the people. The great breeding places of the Fly is the manure pile. We find them there as little worms at first, his little worm like form is also found in any pile of filth moving his grub like body about in the manure. The out house or garbage in the back yard. He cannot exist where there is perfect cleanliness and sanitary condition. Now is the time to kill him, but if you can't kill him, you can prevent his coming direct from a pile of filth and crawling over the food on your table, your hands and face. When you see him marching over your food, just when he has recently come from a visit, his little feet loaded with germs and bacteria which are death dealing in their nature your lives are in danger. "The Civic Association" in its pamphlets after their thorough study and investigation of the House Fly and its habit and what a danger our little animal he is to the health and life of the human family suggests the following Don'ts about him—the Fly:

Don't allow Flies in your house.

Don't permit them near your food especially milk.

Don't buy food stuff where Flies are tolerated.

Don't have feeding places where

Flies can load themselves with ejections from Typhoid or dysenteric patients.

Don't allow your fruits and confections to be exposed to the swarm of Flies.

Don't let Flies crawl over the baby's mouth and swam upon the nipple of its nursing bottle. If you can't destroy their eggs when they are in the little worm form, then certainly you can keep them out of your house by screening your doors and windows, request every one from whom you buy food of any kind to have their places screened from Flies. Clean up and burn all rubbish and garbage on your place and ask your neighbors to do the same, not only for your health and lives but for their own also. Flies kill a greater number of human beings than all the beasts of prey, with all of the poisonous serpents added. They spread disease which slays thousands while big powerful beasts kill single victims. He wipes his feet on the food that you eat, on the face and on the lips of your sleeping children. Disease attacks human beings only where they come or are brought into contact with it. For instance you cannot get Typhoid Fever unless you swallow the germ of Typhoid and you do not swallow these germs unless you get them on the food you eat or in the liquids you drink or on the glasses or cups from which you drink. Clean up your premises and houses screen windows and doors and thus keep out the death dealing germ with which the House Fly always goes loaded.

The mosquito is another disease carrier. You can also keep him out of your house by screening your door and windows. Every mudhole and stagnant water every where is the favorite breeding home of the mosquito. Every tin can or broken piece of vessel of any kind that holds stagnant water and the rain board that stand at the drip of your house produces millions. When they sting you they put into your system the germ of malaria and if they have recently come from a Typhoid patient and bite you they place into your system the Typhoid germ also. It is a reflection on a peoples intelligence that a case of Typhoid Fever, Smallpox, Malaria or Dyptheria should exist for any length of time among the people of any county when all of these diseases can be prevented.

J. E. MALONE.

#### New Leader Appears.

We take the following from The Washington, D. C., Times, of Thursday, June 9th, and rejoice with the people of North Carolina at the information it contains:

A new Democratic leader is developing in the Senate. This is Senator Overman of North Carolina.

He has figured more prominently during the last two months than any Democrat on the floor. That is to say, he has obtained more results. It was he who a few weeks ago initiated the filibuster against the Lodge resolution asking for \$65,000 with which to pursue the cost of living inquiry. He convinced his Democratic associates that the movement of the Massachusetts man was designed to provide the Republican party with campaign material. Before the filibuster had proceeded ten days, Senator Lodge withdrew his bill.

The latest achievement to the credit of Senator Overman was his success in putting through the anti-union amendment to the railroad bill. This prohibits the Federal court from interfering with the judgments of State courts without due notice and a hearing. This resolution was presented as a surprise and its adoption was a complete shock in some quarters.

Just now when the Democrats are looking for a floor leader to succeed Senator Money, who is to retire next March, Overman looms up big. This is true in spite of the prominence of Senators Bailey, Rayner, and Bacon, all of whom are discussed for the floor leadership of the minority.

Flies can load themselves with ejections from Typhoid or dysenteric patients.

Don't allow your fruits and confections to be exposed to the swarm of Flies.

Don't let Flies crawl over the baby's mouth and swam upon the nipple of its nursing bottle. If you can't destroy their eggs when they are in the little worm form, then certainly you can keep them out of your house by screening your doors and windows, request every one from whom you buy food of any kind to have their places screened from Flies. Clean up and burn all rubbish and garbage on your place and ask your neighbors to do the same, not only for your health and lives but for their own also. Flies kill a greater number of human beings than all the beasts of prey, with all of the poisonous serpents added. They spread disease which slays thousands while big powerful beasts kill single victims. He wipes his feet on the food that you eat, on the face and on the lips of your sleeping children. Disease attacks human beings only where they come or are brought into contact with it. For instance you cannot get Typhoid Fever unless you swallow the germ of Typhoid and you do not swallow these germs unless you get them on the food you eat or in the liquids you drink or on the glasses or cups from which you drink. Clean up your premises and houses screen windows and doors and thus keep out the death dealing germ with which the House Fly always goes loaded.

The mosquito is another disease carrier. You can also keep him out of your house by screening your door and windows. Every mudhole and stagnant water every where is the favorite breeding home of the mosquito. Every tin can or broken piece of vessel of any kind that holds stagnant water and the rain board that stand at the drip of your house produces millions. When they sting you they put into your system the germ of malaria and if they have recently come from a Typhoid patient and bite you they place into your system the Typhoid germ also. It is a reflection on a peoples intelligence that a case of Typhoid Fever, Smallpox, Malaria or Dyptheria should exist for any length of time among the people of any county when all of these diseases can be prevented.

J. E. MALONE.
