

MAKES A FELLOW FEEL GOOD

When a man ain't got a cent, and he's feeling kind of blue,
And the clouds hang dark and heavy, an' won't let the sunshine through.
It's a great thing, O my brethren, for a fellow just to lay
His hand upon your shoulder, in a friendly sort of way!
It makes a man feel queerish, it makes the tear drops start,
An' you sort of feel a flutter, in the region of your heart:
You can't look up and meet his eyes, you don't know what to say,
When his hand is on your shoulder in a friendly sort of way.
O the world's a curious compound, with its honey and its gall,
With its care and bitter crosses, but a good world, after all.
And a good God must have it—Leastwise, that's what I say;
When a hand is on my shoulder in a friendly sort of way!

—James Whitcomb Riley.

TAR DROPS.

Let everybody rally to the ball players.
—Aron Deitz has a change of ad in this issue. Read it.
—List your taxes at once and avoid the rush the last days.
—You only have five days after today in which to list your taxes.
—It's your duty to list your taxes and why not do so before the last day.
—You are compelled by law to list your taxes and you had better do so at once.
—The farmers have evidently been putting in some good work the past few days.
—If you will help to support the ball team we can have some very good and interesting games.
—Read the change of ad of F. W. Wheelers in this issue. He has something of interest to say about summer clothing.
—Mr. W. H. Hill had six this week that weighed three and three-quarter pounds.
—P. S. & K. K. Allen have a change of ad in this issue that it will be to your interest to look up and read.
—Quite a large number of people attended the game of base ball between Franklinton and Louisburg at Franklinton on last Friday.
—We are requested to state that there will be children's day exercises at Maple Springs church on next Sunday morning at 10 o'clock. The public is cordially invited.
—We overheard a friend say this week that if steamboats were selling for a cent a piece he could not buy an echo from one of their whistles. He was evidently in a "broken" condition.
—We are informed that Rev. G. W. Starling, of Kittrell, cut a nine pound cabbage out of his garden on Wednesday of last week. He says these cabbages were raised from plants bought of W. W. Holmes.
—Carter Cooper, of Franklinton, filled the position of T. G. Boddie at the depot for several days the past week on account of the illness of Mr. Boddie. The many friends of Mr. Boddie will be glad to learn that he is able to be out again.
—On our third page will be found an article entitled "A few things about our home town," contributed by a correspondent who signs herself "P. S." This article contains information that will be interesting to many of our people.
—Bring the news to this office. We are always glad to have our subscribers send or bring us items of

news. If every one of our many subscribers would give us one item each week what a grand local paper we could have. Send in anything but politics and we shall be thankful.
—An exchange tells of a newspaper reporter who interviewed thirty successful business men and found that all of them when boys had been governed strictly and frequently thrashed. He also interviewed thirty loafers and learned that twenty-seven of them had been "mamma's darling," and the other three had been reared by their grandmothers.
—In a communication from a subscriber, that for some reasons we do not publish, it is suggested that the officers and citizens of Louisburg get together under some arrangement to have a general cleaning up day. This is a wise suggestion and we heartily agree with them in the fact that an "ounce of preventative is worth a pound of cure." It is now up to the citizens.
—Admiration alone will not run a newspaper. Sooner or later such admirers will find that the object of their affections has become welded to other ways that they do not admire—in other words, a newspaper is compelled in order to live, to seek the friendship of those who are not so platonic in their love, but unite that practical esteem with sentiment that binds mutual admiration to other professions. There are too many men who expect an editor to slave in defense of their pet notions and hobbies, advocate their views against the strongest oppositions and coolly withhold business support by which alone a small newspaper can live.
—We call attention of our readers to the advertisement of Elong College, which appears in this issue. This institution, which next year begins its 21st session, is located in the delightful Hill Country of North Carolina and is far famed for its healthfulness, many people going there during the vacation for their health. It has modern conveniences, on railroad, with telephone and telegraph connections with all parts of the world, with six passenger trains daily, with town of considerable size accessible to it, and yet with all, it is a suburban community. It combines all the advantages of city life and of country life, and without the disadvantages of both.
—In the development of North Carolina's industries, the North Carolina College of Agriculture and Mechanic Arts is taking a foremost part. Its students are giving their lives to improving our farming, our trucking, our dairying and stock-raising. They are rapidly making their way into our factories, our electric power-houses, and our shops. They are helping to build our roads, our bridges, and our railroads. In deed, they are just the men needed at this stage in the State's growth. We are glad to note that more young men than ever before are seeking, through this well-equipped institution, a place in our industrial progress. We call attention to the advertisement in this issue.
