—The annual inspection of Co. F will be held on March 7th, by both State and U. S. Inspector. Last year this Company was the only one in the State having 100 per cent of members present on inspection and the property loss was less than any Company except Company II. First Regiment whose property loss was 4 cts. less only. In the shoot for the Dupont trophy last May Company F. was only beaten by a few points coming 3rd. down the line. The officers of the Company are very anxious to make the best showing this year have ever made and make a record the County and State will be proud of. We can do it if each member will do his duty.

How to Tell if Your Hair is Diseased. Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a hair tonic.

Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try Rexall "33" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "33" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c. and \$1.00. Sold only at our store—The Rexall Store.

TREASON TO YOUR TOWN.

Why Spending Your Money Elsewhere Might Be So Described.

In a recent address before the Western New York Newspaper Publishers' association E. F. Busey, publisher of the Phelps (N. Y.) Citizen, said:

"The problem is really a serious one and has not received the attention it should have had. This in a large measure accounts for the expansion of the business to immense proportions. One concern in Chicago claims to have a business of \$53,000,000 per year, with an estimated profit of 14 per cent, amounting to over \$7,000,000.

"One village with a population of 5,000 is cited as an example of what the mail order business means locally. It is claimed that during the month of December last over \$5,000 was sent in money orders from that village to one Chicago mail order house. A letter of inquiry brings forth the reply that there is no foundation for such a statement, although what is considered a large amount of business is actually sent to the mail order houses. The estimate given places it at about \$10,000 annually.

"A somewhat recent development of mail order business is the trade in ladies' wearing apparel. A number of ladies patronize houses dealing in these goods without realizing that in permitting themselves to be ensnared by the exponent of the new fad, the psychology of advertising, they are laying themselves open to criticism quite as much as the man who is deluded into sending away his hard earned dollars for goods which show up beautifully in the catalogue, but have a decidedly different appearance when he receives them.

"The regular mail order houses at the present time have alluring advertisements in the magazines in which they offer apparently wonderful bargains in ladies' suits. The psychological feature of the advertisements seems to be the guarantee, which is given great prominence. Of course the reader is not expected to draw the deduction that in case the goods are not right the firm has a correspondent to deal with the case who is quite as expert in his line as the high salaried man who writes the ads. In the matter of ladies' suits it should not be a difficult matter to present a strong argument in favor of making a personal selection from a large stock in a store known to be reliable in preference to sending to a distant city and buying, as it were, a cat in a bag. The local houses unquestionably have the advantage of the best arguments, and these if properly presented are bound to prove effective."

TREES THAT ADORN STREETS

Care Should Be Given These Valuable Assets to Town Improvement.

All planting and care of trees that adorn and greatly help to beautify and improve the streets should be done by the town or by permanent organizations authorized to carry on the work. The poorer the soil the larger should be the hole for the tree. If convenient add rich soil. Spread the roots carefully. Fill in with pulverized soil and press into contact with the roots. Pro-

tect the tree with a line of wire netting supported on three or four posts. It adds to the expense, but pays in the long run.

When a tree shows signs of decay in places get busy at once and secure the services of a competent tree doctor. Have the wound dug out, scraped and a neat cement filling put in, thus prolonging the life of the tree.

But in the protection of the young trees don't forget to stir up civic pride. Provide for the small boy and enlist him if you can. It pays better than to permit arrest or threaten with arrest. Don't permit telegraph linemen to mutilate trees or climb them with spikes. Secure the passage of ordinances forcing wires and cables underground wherever practicable. Telegraph and telephone poles are unsightly and interfere with all schemes of street improvement and tree planting.

Women Paint Their Church.

Women are today playing a prominent part in the improvement and beautifying of towns. In Burlington, N. J., a number of women members of the congregation of a prominent church of that place undertook the job of painting their edifice last a campaign of church improvement should fall through by a lack of funds. Headed by the pastor's wife, they bravely set to work with paint pots and brushes and then formed a pin money fund to employ a man to decorate the top of the building.
