

# Our New Year's Greeting

---

It is with a feeling of sincere appreciation to our patrons and the  
public in general for their influence and support given us during  
the past year, that we start the new year. We shall strive to  
merit the continued good will and patronage so liberally given us  
in the past with the assurance that we are in position to serve  
you better from every standpoint; our stock is larger; we have a  
better knowledge of what the people want, and an efficient force  
of sales people to serve you. We solicit your trade with the as-  
urance that we will give you our best service always.
