A Notable Union Meeting.

The Franklin County Baptist Union Meeting held in the Baptist church of this place last week, was a most remarkable one. While the attendance was not what it might have been, yet it was good. all things considered, especially on Sunday. All the speeches which were keyed to the idea of "Stewardship and Missions," were care fully prepared and of unusually high order. Every one on the program was present, and there was little time

On Friday night Rev. G. M. Duke, of Maplayille, preached a truly great ser-mon on "The Indwelling Christ." Saturdays program was featured by fine addresses by Prof. G. M. Beam, of Mapleville, and Judge C. M. Cooke on "The Layman and the Kingdom," and Prof. M. T. Tanner, of Cedar Rock, and Rev. Mack Stamps, of Louisburg, on "Stewardship and tithing". Hon. R. B. Sunday was a red letter day. Beginning with the special missionary program rendered by the local Sunday School on the great missionary explore David Livingstone, the day was filled with mountain peak experiences. At the 11 o'clock service Rev. I. P. Frazier and Rev. R. L. Brown, members of the "volunteer mission band" of Wake Forest College, who expect to go as missionaries to foreign fields as soon as they complete their education, eaptivated the large audience with their fercible arguments for foreign missions. Rev. G. M. Dake closed the morning service with a very fitting blimax, which was followed by a liber, al offering for home and foreign mis-

and great credit is due to the ladies of urch for the sumptuous and delightful dinner they served, Soon after dinner, Rev. W. L. Griggs,

the popular pastor of the Corinth church, who is also a student at Wake Forest, electrified his audience with a great address on "The Judson Centea-nial Movement," which is an effort bu the part of Southern Baptists to raise a on and a quarter dollars within the next three years to enlarge and better equip the work in foreign fields, in honor of the great missionary, Adoniram Jud son, who went out to Burmah a hundred years ago as the first American mis sionary to go to any foreign field. Mr. Grigg, who is gifted with that type of Grigg, who is gifted with that type eloquence so characteristic of his native mountain section, awayed and swept has audience with marvellous effect. Ray. A. D. Wilcex, of the Methodist enurch, and Judge Cosks followed with appropriate remarks: A most delightful feature of the days services was the marter marter readered by Mrs. Engene special music rendered by Mrs. Engene Green, of Monroe, and Prof. Fitsgerald, of New York City.

Another very helpful feature was the special meeting of the ladies Saturday fternoon addressed by Miss Sos Kelly. of Henderson, who greatly stimulated the ladies to greater activities along missionary lines. The next Union meeting will be held with the Cedar Rock church on the fifth Sunday in June and Saturday before.

The new schedule, like the entire new judicial arrangement, goes into effect July 1st 1913. On that date each of the twenty judges will begin work in his resident district and successively there after he will ride the circuits and hold the courts of the several districts in the order of their numbers, in rotation. The set arranging the schedule of courts repeal all laws in conflict therewith, especially any act in existence providing for special terms of court in any county.'

The calender for this county fellows: January-To be held on the 7th Monday before the 1st Monday March each year. This will be a two weeks term for -the trial of circuit cases only and will fall on about the second week in January.

The Value of Southern Pine

An acre of vigorous pine ought to An acre of vigorous sine ought to produce 300 feet of lumber a year, and the South has 40,000,000 or 50,600,000 acres of such land, without appropriating any that ought to be devoted to agricultural purposes. At that rate the yearly yield for all future time would be 12,000,000,000 feet of lumber. That be 12,000,000,000 feet of lumber. That is considerably less than the present annual soft woods' production of the South, which is about 14,000,000,000 feet; but it would be a vast resource, especially when the time comes in the comparatively near future when Southern pine will be worth \$25 or \$30 at the mill, instead of \$12.69 a thousand, as it was reported in 1909 by the Federal commus.
