

The Farmers National Bank

LOUISBURG, N. C.

THE FARMERS NATIONAL IS THE STRONGEST BANK IN
FRANLIN COUNTY

This is the Farmers own bank. It was organized by the Farmers, it is run by the Farmers, it is run for the Farmers, and it has come to stay until time is no more.

Since its opening for business September 23, 1912, it has materially assisted 675 farmers, it has assisted to build for the farmers the farmers storage warehouse near the S. A. L. station, the best building in Franklin county for this purpose, and it is in line to render aid to the farmers in other lines.

Fighting singly, it is difficult to overcome obstacles that seem difficult, but with cooperation and all pulling together, apparently insurmountable objects and difficulties disappear in the perspective.

If the bank has rendered in its first year, in the beginning, such valuable and effective service, just think of the good it can do in the years to come, when more of the farmers join with cause of cooperation and assistance for the general good.

Let everybody join the forces of the farmers bank, add to its volume of business, and make it a great power for the general good, a regulator of prices, and a check and regulator over those evilly inclined.

DIRECTORS
