## HOWELL - BUNN - HUDSON LOUISBURG, N. C.

### Popes Items.

We are glad to state that Wesley Holmes, who has been sick for some time with typhoid fever, is some better.

Mr. Bennie May and family, of Pocomoke, spent Sunday afternoon with Mr. and Mrs. J. T. Holden.

Mr. M. J. Deut and wife and uncle, Mr. Mac Holmes, were visitors at Mr. T. J. Conyers Sunday.

Messrs. B. H. and J. B. Conyers were callers at Popes Sunday, also Mr. Berry Holden and wife, of Youngsville.

Miss Sarah Conyers spent Sunday afternoon with Miss Bessie Kearney.

Mr. and Mrs. H. M. Cooke, of Franklinton, called to see Mr. and Mrs. T. B. Thomas, Sunday.

Rev. Mr. Wolf, of Youngsville, was called, and accepted, to preach at Popes the coming year in place of Rev. C. E. Newman.

We are sorry to say that the cotton crop is not coming up to expectations. It is very short and late but the corn crop is fine, also sweet potatoes.

The opossum hunters have been making some hunts. The little stories you hear them tell reminds me of uncle Remus stories. I can't tell which caught the largest one George Weathers or Joe Conyers. Each caught the largest one he ever saw. When I use

to hunt myself my dogs would tree haunts and ghosts.

When people have lots to say about what is said about others you may bet that they are inclined that way themselves. Writing in papers is like preaching the gospel to suit everybody, is a thing almost impossible.

Best wishes to the TIMES—Our Home Paper.

## GONE UP IN SMOKE

One-half of your coal—and it did you no good. Hard luck that. But there is a way to fix it. Here's how:

That stove of yours has seen its best days. You need a new one. You know it—but you have let things drift along.

Meanwhile, you have been losing HALF of every hod of coal you have put in it. Of course, you knew it, but you did not think of it that way. You know that half of every lump is gas. Fail to burn that gas and it is like throwing into the ditch half of every dollar you spend in coal.

Rather extravagant? Yes?

The ordinary stove made of a lot of separate castings leaks air. They leak air at the wrong place. Places you can not control.

RESULT—the best part of your coal—the 14,000 cubic feet of common illuminating gas that is in the average ton of \$3.00 soft coal—goes up the flue unburned.

You have lost it. It has gone up in smoke.

Save that gas—mix it properly with air and you have the hottest kind of a blue flame. But there is only one way to do this—

Buy the only heater that is made tight—holds tight—stays tight.

## Cole's Original Hot Blast Heater

It leaks no air.

This is the heater that mixes the gas and air and gives you all the heat in the coal.

This is the heater that burns any kind of coal and makes a ton of \$3.00 soft coal do the work of \$8.00 hard coal in a high priced base burner.

This is the heater that is a joy and comfort to the housewife. It makes no dirt or smoke in the house.

This is the heater that saves labor—fix it in the morning and at night and FORGET IT THE REST OF THE TIME.

This is the heater that gives a steady, constant heat from soft coal or lignite.

This is the heater that will hold its fire untouched for a day and a half.

This is the heater we sell you under a guarantee that is as "good as old wheat at the mill." Burns soft coal, lignite, slack, hard coal or wood.

It is just the kind of a heater you want. Come in and see it.

## McKINNE BROS. CO.

See the name "Cole's" on the feed door of each stove. None genuine without it.

## PERFECTION SMOKELESS OIL HEATER

SLEEPING with the windows open is a "first aid" to health and beauty. But it

makes getting up in the morning a chilly ordeal.

With a Perfection Smokeless Oil Heater you dress in comfort on the coldest day.

A touch of a match, and the Perfection is aglow in a minute. Later you can carry it to any other room, and breakfast, read or sew in comfort.

In fact, a Perfection Heater is just as good as a fire, and much cleaner and more convenient.

It is a handsome heater, too. Ask your dealer to show you a Perfection, or write for descriptive catalogue.
