

AS TO YOU.

Did you give him a lift? He's a brother of man,
And bearing about all the burden he can.
Did you give him a smile? He was downcast and blue,
And the smile would have helped him to battle it through.
Did you give him your hand? He was slipping down hill,
And the world, so I fancied, was using him ill.
Did you give him a word? Did you show him the road,
Or did you just let him go on with his load.

Did you help him along? He's a sinner like you,
But the grasp of your hand might have carried him through,
Did you bid him good cheer? Just a word and a smile
Were what he most needed that last weary mile.
Do you know what he bore in that burden of cares
That is every man's load and that sympathy shares?
Did you try to find out what he needed from you,
Or did you just leave him to battle it through?

Do you know what it means to be losing the fight,
When a lift just in time might set everything right?
Do you know what it means—just the clasp of a hand,
When a man's borne about all a man ought to stand?
Did you ask what it was—why the quivering lip,
And the glistening tears down the pale cheek that slip?
Were you brother of his when the time came to be?
Did you offer to help him, or didn't you see?

Don't you know it's the part of a brother of man
To find what the grief is and help when you can?
Did you stop when he asked you to give him a lift,
Or were you so busy you left him to shift?
Oh, I know what you say may be true
But the test of your manhood is: What did you do?
Did you reach out a hand? Did you find him the road,
Or did you just let him go by with his load?

Automatic Electric System.

Washington, D. C., September 28.—The Southern Railway Company is now installing an automatic electric block signal system on the main line between Seminary, Va., and Orange, Va., a distance of 80 miles, all double track. This system will be similar to the type which has given splendid results on the double track stretches between Denim, N. C., and Charlotte, N. C., and between Monroe Va., through Lynchburg to Montview, Va., and when completed will provide continuous automatic signal protection for trains from Orange into Washington Terminal Station, giving in all a total of 198 miles of double track protected by this system on important stretches of the Washington-Atlanta main line.

106 automatic signals will be erected at interval of about two miles, each intervals constituting a "block," and the system will include 13 interlocking plants controlling switches. The current for operating the signals and switches and for lighting all stations, switch, and signal lights between Seminary and Orange, will be supplied by a high tension 4,400 volt, 3 phase transmission line, from a sub-station to be built near Alexandria, using power from Alexandria County Light and Power Company's plant. To provide for emergency supply, a power plant will be built at orange equipped with a gasoline engine and an alternating current generator of sufficient capacity to operate the entire system.

The signals will be the usual three position upper quadrant type, using red, green, and white lights at night for the "stop," "caution," and "proceed" indications. The interlocking plants controlling switches will be equipped with power signals and electric lights in the towers and on the signals. Annunciators will be provided to announce the approach of trains in both directions at each of these towers. This protective system represents the latest product of engineering science and will greatly facilitate traffic and increase the safety of train operation in this territory.

Good Paint

is cheap; and Devoe is not the only good paint; it is one of a dozen, and very likely, the only one in your town—there are hundreds of middling and bad.

You can see what chance there is of another good one there: perhaps one in ten at the most.

Bad paint is dearest; middling is dear; costs 2 or 3 times as much as the best. No matter about the cost a gallon that isn't it; the cost a square foot; the cost a job; better yet, the cost a year.

There's a whole education in paint in this advertisement.

New Town Ordinance

At a regular meeting of the Board of Town Commissioners, held on Friday night, July 4th, 1913, the following ordinance was passed:

Be it ordained, that no person shall sell or offer for sale any fresh meats or fresh fish or oysters upon the streets or side walks of the town of Louisburg, provided that this ordinance shall not apply to persons selling or offering for sale, fresh beef, mutton or pork of their own raising; either by the whole or quarter.

2nd. That it shall be the duty of the Chief of Police to regularly inspect at least once a week all places in the town where fresh meat or fresh fish are offered for sale, and report to the chief sanitary officer the condition thereof. Whenever the chief sanitary officer shall find the condition of any such place to be unsanitary he shall give written directions to the keeper of such place, prescribing what is necessary to be done to make the said place sanitary, which said directions shall be followed by the keeper of the said place within a reasonable time.

3rd. Any person violating any of the provisions of this ordinance shall be subject to a fine of ten (10.00) dollars for each offense. This July 4, 1913.
