

**Severe Head Pains
Caused By Catarrh
Cured By Peruna**

I Feel It
a Duty to
Mankind
to Let All
Know of
My Cure.
Peruna
Did It.

Mr. W. H. Chaney, R. F. D. 2, Sutherland, Pittsylvania Co., Va., writes: "For the past twelve months I have been a sufferer from catarrh of the head. Since taking four bottles of your Peruna I feel like a different person altogether. The severe pains in my head have disappeared, and my entire system has been greatly strengthened."

"This is my first testimonial to the curative qualities of any patent medicine. I feel it a duty to mankind to let them know of Peruna. In my estimation it is the greatest medicine on earth for catarrh."

We have thousands of testimonials like Mr. Chaney's. Some of them were cured after years of suffering and disappointment in finding a remedy.

Send for free copy of "His Life." The Peruna Co., Columbus, Ohio. Those who object to liquid medicines can now procure Peruna Tablets.

For Rent

4 or 5 Horse farm with good tenant house for rent. Wanted 3 or 4 half share men.

THE RURAL CHURCH

THE FARMERS THE CUSTODIANS OF THE NATION'S MORALITY.

Co-operation of Church, School and Press Essential to Community Building.

By Peter Radford
Lecturer National Farmers' Union.

The church, the press and the school form a triple alliance of progress that guides the destiny of every community, state and nation. Without them civilization would wither and die and through them life may attain its greatest blessing, power and knowledge. The farmers of this nation are greatly indebted to this social triumvirate for their uplifting influence, and on behalf of the American plowmen I want to thank those engaged in these high callings for their able and efficient service, and I shall offer to the press a series of articles on co-operation between these important influences and the farmers in the hope of increasing the efficiency of all by mutual understanding and organized effort. We will take up, first, the rural church.

The Farmers Are Great Church Builders.

The American farmer is the greatest church builder the world has ever known. He is the custodian of the nation's morality; upon his shoulders rests the "ark of the covenant" and he is more responsive to religious influences than any other class of citizenship.

The farmers of this nation have built 120,000 churches at a cost of \$750,000,000, and the annual contribution of the nation toward all church institutions approximates \$200,000,000 per annum. The farmers of the United States build 22 churches per day. There are 20,000,000 rural church communicants on the farm, and 54 per cent of the total membership of all churches reside in the country.

The farm is the power-house of all progress and the birthplace of all that is noble. The Garden of Eden was in the country and the man who would get close to God must first get close to nature.

The Functions of a Rural Church.

If the rural churches today are going to render a service which this age demands, there must be co-operation between the religious, social and economic life of the community.

The church to attain its fullest measure of success must enrich the lives of the people in the community it serves; it must build character; develop thought and increase the efficiency of human life. It must serve the social, business and intellectual, as well as the spiritual and moral side of life. If religion does not make a man more capable, more useful and more just, what good is it? We want a practical religion, one we can live by and farm by, as well as die by.

Fewer and Better Churches.

Blessed is that rural community which has but one place of worship. While competition is the life of trade, it is death to the rural church and moral starvation to the community. Petty sectarianism is a scourge that blights the life, and the church prejudice saps the vitality of many communities. An over-churching community is a crime against religion, a serious handicap to society and a useless tax upon agriculture.

While denominations are essential and church pride commendable, the high teaching of universal Christianity must prevail. If the rural church is to fulfill its mission to agriculture.

We frequently have three or four churches in a community which is not able to adequately support one. Small congregations attend services once a month and all fail to perform the religious functions of the community. The division of religious forces and the breaking into fragments of moral efforts is ofttimes little less than a calamity and defeats the very purpose they seek to promote.

The evils of too many churches can be minimized by co-operation. The social and economic life of a rural community are respective units and cannot be successfully divided by denominational lines, and the churches can only occupy this important field by co-operation and co-ordination.

The efficient country church will definitely serve its community by leading in all worthy efforts at community building, in enlisting the people in all co-operative endeavors for the general welfare of the community and in arousing a real love for country life and loyalty to the country home and these results can only be successfully accomplished by the united effort of the press, the school, the church and organized farmers.

Please Don't.

Don't put ashes in wooden boxes or barrels. Use metal cans.

Don't throw hot ashes against fences or buildings.

Don't fail to burn all rubbish. Watch it, and be sure the fire is out before you leave it.

Don't burn rubbish near fences or buildings.

Don't permit rubbish, paper or greasy rags to accumulate.

MARKETING WORLD'S GREATEST PROBLEM

WE ARE LONG ON PRODUCTION, SHORT ON DISTRIBUTION.

By Peter Radford
Lecturer National Farmers' Union.

The economic distribution of farm products is today the world's greatest problem and the war, while it has brought its hardships, has clearly emphasized the importance of distribution as a factor in American agriculture and promises to give the farmers the co-operation of the government and the business men the solution of their marketing problem.

This result will, in a measure, compensate us for our war losses, for the business interests and government have been in the main assisting almost exclusively on the production side of agriculture. While the department of agriculture has been dumping tons of literature on the farmer telling him how to produce, the farmer has been dumping tons of products in the nation's garbage can for want of a market.

The World Will Never Starve.

At no time since Adam and Eve were driven from the Garden of Eden have the inhabitants of this world suffered from lack of production, but some people have gone hungry from the day of creation to this good hour for the lack of proper distribution. Slight variations in production have forced a change in diet and one locality has felt the pinch of want, while another has ever been a land of plenty.

We now have less than one-tenth of the tillable land of the earth's surface under cultivation, and we not only have this surplus area to draw on but it is safe to estimate that in case of dire necessity one-half the earth's population could at the present time knock their living out of the trees of the forest, gather it from wild vines and draw it from streams. No one should become alarmed; the world will never starve.

The consumer has always feared that the producer would not supply him and his fright has found expression on the statute books of our states and nations and the farmer has been urged to produce recklessly and without reference to a market, and regardless of the demands of the consumer.

Back to the Soil.

The city people have been urging each other to move back to the farm, but very few of them have moved. We welcome our city cousins back to the soil and this earth's surface contains 16,092,160,000 idle acres of tillable land where they can make a living by tilling the earth with a forked stick, but we do not need them so far as increasing production is concerned; we now have all the producers we can use. The city man has very erroneous ideas of agricultural conditions. The commonly accepted theory that we are short on production is all wrong. Our annual increase in production far exceeds that of our increase in population.

The World as a Farm.

Taking the world as one big farm, we find two billion acres of land in cultivation. Of this amount there is approximately 750,000,000 acres on the western and 1,250,000,000 acres on the eastern hemisphere, in cultivation. This estimate, of course, does not include grazing lands, forests, etc., where large quantities of meat are produced.

The world's annual crop approximates fifteen billion bushels of cereals, thirteen billion pounds of fibre and sixty-five million tons of meat.

The average annual world crop for the past five years, compared with the previous five years, is as follows:

	Past Half Decade.	Previous Half Decade.
Corn (Bu.)	3,934,174,000	3,403,655,000
Wheat (Bu.)	3,522,769,000	3,257,526,000
Oats (Bu.)	4,120,017,000	3,508,315,000
Cotton (Bales)	19,863,800	17,541,200

The world shows an average increase in cereal production of 13 per cent during the past decade, compared with the previous five years, while the world's population shows an increase of only three per cent.

The gain in production far exceeds that of our increase in population, and it is safe to estimate that the farmer can easily increase production 25 per cent if a remunerative market can be found for the products. In textile fibres the world shows an increase during the past half decade in production of 15 per cent against a population increase of three per cent.

The people of this nation should address themselves to the subject of improved facilities for distribution.

Over-production and crop mortgage force the farmers into ruinous competition with each other. The remedy lies in organization and in co-operation in marketing.

A Card

We, the undersigned, wish to extend to the good people of Franklin county our heartfelt thanks and appreciations for their kindness shown during the illness and death of our darling boy Walter. May God bless and comfort you all, is the prayer of mother and father. We beg to remain

Your sincere friends,
Mr. and Mrs. L. A. Woodlief

NORTH CAROLINA TO HAVE PART IN GOVERNMENT HEALTH

Exhibits at Panama-Pacific Exposition—Model Village in Demand

That North Carolina shall have a part in the Government Health exhibit at the Panama-Pacific Exposition next year at San Francisco, is the request for the Children's Bureau of the United States Department of Labor. The State Board of Health has been called on to contribute its model village, a part of the Board's Better Health Exhibit, as a representative feature of its better health work.

This village, in which the number of births in the homes is shown by lighted windows and the number of baby deaths by the lights going out at the windows, was brought to the notice of the Children's Bureau through North Carolina's recent health exhibit at the American Public Health Association at Jacksonville, Florida. The model, that has not failed to attract national attention, is original with the State Board of Health, being the exclusive work of that Board.

Students and the Ministry.

There is a most encouraging turning of our students towards the ministry and teaching. Presiding Elder Lea, who is also pastor of the local church, has recently conducted revival services for two weeks with the students. As a result a class for special study and prayer looking to church membership. Two of our graduates who are teaching in non-mission schools on good salaries have recently written the presiding elder their decision to enter the ministry.—W. B. Nance, Siochow University, China.

North Carolina In Superior Court, Franklin County.

Margaret Gupton, vs. Arch Gupton.

Service by Publication Notice

The defendant above named will take notice that an action entitled as above has been commenced in the Superior Court in the complaint therein filed; and the said defendant will further take notice that he is required to appear at the term of the Superior Court of said County to be held on the 7th Monday before the first Monday in March, 1915, it being the 11th day of January, 1915, and answer or demur to the complaint in said action, of the plaintiff will apply to the Court for the relief demanded in said complaint.

This the 4th day of December, 1914.
J. J. Barrow,
Clerk Superior Court
C. S. C.

B. T. Holden, Atty.

Ballard - Cheatham Co.

SOCIAL SERVICE MEETING

Plans for State Meeting on Social Service For Next Month.

The executive committee of the North Carolina Conference for Social Service met in President Poe's office last night to formulate plans for the third annual meeting of the Conference. Plans were gotten under way to have several speakers of national reputation address the conference this year. These names will be given out as soon as the program is more nearly completed. The date of the meeting will be sometime during the latter part of January.

The matters of special importance to be considered will be the child labor question, prison reform and moonlight schools in North Carolina. The matter of moonlight schools has been taken up very successfully in Kentucky and they will no doubt also prove very successful in reducing North Carolina's adult illiteracy.

It strikes us that this war is terrible enough as it is without the emperor of Japan horning in with poetry to add to its horrors.—Philadelphia Inquirer.

Mothers' Favorite.

"I give Chamberlain's Cough Remedy to my children when they have colds or coughs," writes Mrs. Verene Shaffer, Vandergrift, Pa. It always helps them and is far superior to any other cough medicine I have used. I advise anyone in need of such a medicine to give it a trial. For

North Carolina, Louisburg Township, Franklin County.

Before A. W. Alston Justice of the Peace.

D. T. Hollingsworth & J. H. Weathers trading as Hollingsworth & Weathers vs. J. P. Leonard.

The defendant in the above entitled action will take notice that an action entitled as above has been commenced before A. W. Alston a Justice of the Peace for Louisburg Township Franklin county, said State to recover an amount due the Plaintiff on a note past due, and the said defendant will further take notice that he is required to appear before A. W. Alston a Justice of the Peace for Louisburg Township, said State and county at his office in Louisburg, N. C., on December the 26th, 1914 at the office of said Justice of the Peace in Louisburg, N. C. at 12 M. and answer or demur to said action or the Plaintiff will apply to the Court for the relief demanded in said action. This Dec. 2nd, 1914.

A. W. Alston,
Justice of the Peace.
