BRITISH GOVERNMENT HAS TAKEN CONTROL

ACTION CONSIDERED NECESSARY.

To Increase Output of War Munitions -Power Granted by the House of Commons Unanimously.

London, March 9.—19:55 p. m.— The House of Commons today gave the Government authority to take over the control of the country's entire en-gineering trade and to place it under a combined management for the purpose of increasing the output of war munitions. This drastic action was the outstanding feature here of the day's war news. Although public in-terests in the bombardment of the Dardanelles continues at a high pitch there was little news from the land

The defense of the Realm act passed at the outbreak of war gave the Government power to control works where war materials actually were be ing made. David Llyod-George, chan-eelor of the Exchequer, on behalf of the Government today asked that the control of manufactories be extended to works capable of being used for that purpose.

This power was granted unanimously, although Andrew Bonar Law, opposition leader described the measare as probably the most drastic ever

laid before Parliament.
This step on the part of the Govern-This step on the part of the Government came as a complete surprise although Mr. Lloyd-George in a speech at Bangor last week, emphasized the importance of increasing the output of war munitions, which labor disputes had threatened to diminish. Now the workers in the engineering trade will be in the position of public servants and the Government hopes this fact will impress them with the importance of keeping up the supplies A business man will be given charge of the organization.

A-business man will be given charge of the organization.
With the war area extending and the size of the Army and Navy constantly increasing, the Government found that something must be done to keep the fighting branches supplied with arms and ammunition. British positions.

Reports that three of the forts guarding the arrows, one on the European and two on the Asiatic side, all armed with 14-inch guns have been silenced have increased the confidence of the British public that their warships will force the straights.

In addition to the military and eco-aomic importances the opening of the straits would have the Allies are said to believe it would have an immense effect not only on Turkey, but on Tur-key's neighbors. Greece already is involved in a constitutional crisis over the Dardanelles and it was reported today that similar crisis had arisen in Bulgaria, where it was said the Premier was demanding intervention on the side of the Allies in opposition to the wishes of King Ferdinard, who it is declared, desires to remain neutral.

In Greece M. Gounaris has under taken to form a Cabinet to secceed that of M. Venizelos and threatens to disolve Parliament if that body does not endorse his policy of friendly neutrality toward the Allies. It is believed in London, however that the people will force the Greek Government to intervene and that M. Venizelos soon will be back in office.

In Central Poland the battle which had promised to develop on the Pilica River seems to have died down, ow-ing, as Petrograd puts it, to the Rus-sians being too strong for the Ger-mans, who were forced to abandon their offensive and fall back under

Things have changed little in the Carpathians although the Rusians, according to their reports, apparently have improved their position on the Hungarian side of the Dukala Pass. Petrograd claims an Austrian defeat near Svinik, on the Ondawa River, a considerable distance inside of Hungarian territory. The Austrians, however, still are attacking the Russians south of Boligron on the Gilician side of the mountains, east of the Dukla Pass.

Washington Warns Carranza-Mexican Situation Grows Worse.

American citizens again have been warned to leave Mexico city in view of the critical situation.

The battleships, Georgia and the armoured cruiser Washington were ordered by Secretary Daniels, after conferences with President Wilson, to proceed immediately to Vera Cruz.

Notes Means Business.

Although the contents of the note

to Carranza were not announced its tone impressed members of the diplomatic corps that serious conse-quences would follow if Carranza quences would follow if Carranza failed to heed its demands. The United States, it was learned, de-scribed conditions as "intolerable" and called on Carranza to take steps necessary to correct the situation. Incendiary utterances of General Obregon were noted by the American government as likely to stir up dan-gerous feelings against foreigners, giving rise possibly to riots and out-

The Oxford Orphanage.

The Oxford Orphanage Singing Class has started on its annual tour, visiting the various towns and cities in North Carolina, such visits being made upon invitation from, and under the auspices of the Masonic Lodges and friends of the Institution.

This organization, for such it may well be called, has a two-fold purpose First: the Class gives a highly credita-ble and enjoyable entertainment, such as will be a real help and benediction to all good people whenever the chil-dren go, and in this way arouse in our people a deeper interest in, and for all that is good and true. In the second place, the Institution

represented by these children supplements its income by giving the friends of the Institution this opportunity to make a special effort to aid the work. These efforts have enabled the Orpan-age to care for about 100 children more than could have otherwise been provided for.

The fact that our people are becoming more and more interested in or-phanage work and the saving of life insures the success of the great work in which this Class is engaged. We urge the hearty co-operation of all good people in this noble endeavor.

GLEE CLUB MAKES A HIT.

Louisburg Roundly Applauds Wake Forest Musicians.

In spite of the torrential rains, a good sized and thoroughly apprecia-tive audience heard the Wake Forest Glee Club in the opera house here Friday night in their initial performance of this season. It was considered by many the very best entertainment that has come to this city in a long time.

long time.
Dr. Hubert M. Potest is not only the superb director of the Club, but he is himself a star of the first magnitude as a soloist, violinist, cornetist, pianist, organist, of any thing else that makes a noise. He is a whole show by himself, but he is very ably assisted by twenty-five other men, each of whom is a specialist in his line.

his line. The orchestra, consisting of eleven pieces, is par excellence. Each number on the program was liberally applauded, and the Club was very generous in its appreciation as shown by its responses.

Both classical and popular music vas used, with numerous original interpretations and stunts thrown in for good measure, all of which was thoroughly enjoyed. The last number on program, "The Grasshopper," which was a tragic cantata in several spasms, was replete with philosophy and fun and called forth many rounds of applause.

At the conclusion of the program, the Glee Club accepted the invitation of the faculty and senior class of Louisburg College to a reception given in their honor at the college. Here the Club shone with even more effulgence, having greater inspiration. The terpretations and stunts thrown in
