# **EX-GOVERNOR JARVIS** DIES AT GREENVILLE

A GLORIOUS CAREER

He Had Been Minister to Brazil, Uni-ted States Senator, of Great Ser-vice to State.

(Special to The Observer.) Greenville, N. C. June, 17.—Weaw-ened by the weight of the years which had brought him countless honors and the love and veneration entire Commonwealth which he served with singular ability and wholly unselfishly, Thomas Jordan Jarvis, former Governor of North Carolina, once Minister to Brazil and United States Senator for the unex-pired term of Vance, died here at his-home tonight at 9 o'clock aged 79

For several months he had been in failing health, but during the past few weeks had rallied and so brought hope to his friends that his life was to be spared perhaps for years to come. A gradual decline, however, further enfeebled him and tonight he became a part of the State's most prideful history.

The story of his life is a succession of periods of great usefulness.

After listening to the statement of the governor, they commenced marching to his home which lies six miles outside af the city. Cries of "we want John M. Slaton, Georgie's treetor, governor."

Ex-Governor Thomas J. Jarvis, who died last night at his home in Greenville, N. C., had many admirers in Charlotte. Dry Argument Gone, Now comes the psychopathetic lab-oratory of the Chicago Municipal Court, speaking through Chief Justice Court, speaking through Chief Justice Harry Olson to the mayors of New York state at Troy, N. On the contrary, the laboratory sharks claim, a man has to be crazy before he will drink to excess. "The laboratory has examined hundreds of chronic alcoholexamined hundreds of chronic alcohol-ics, "Juge Olson said," and we have yet to find the first case where there was not at least a psychopathic constitu-tion, epilepsy dementia praecox manic depressive insanity, or feeble mindod-ness as the basis, with the exception of a few cases where there was a phy-sical basis, such as diabetes or tuber-culosis, and the man was whipping up his flagging energy with elecholic cutosis, and the man was whipping up his flagging energy with alcoholic stimulants." Judge Olson claims the laboratory's investigations prove that the cause of excessive drinking will have to be removed before we can cure drunkards.
