NEWS OF THE NATION.

ITEMS OF INTEREST TO EVERY ONE; NEWS OF THE WEEK CONDENSED FOR BUSY READERS.

Defense Plan Grows in Popularity; To Systematize Government Expenditures; Wave of Prosperity Coming Over Country; Increase in Cotton Used.

Every day the plan of the President to increase the national defense against an aggressive enemy grows in popularity. The South, which is most conservative on the question of army and navy appropriations, is getting in line. Two months ago the recommendations of Secretary Daniels and Secretary Garrison would not have received the attention and met with the approval they are now doing.

President Wilson and members of his cabinet will have an important conference Wednesday night with the special budget committees appointed by the House Democratic caucus to devise ways and means of systematizing government expenditures.

Financiers of big caliber seem to think that the United States is at the beginning of a great wave of prosperity. From every section of the country comes the story that business is good and labor scarce.

Cotton used during October was 500,635 bales, compared with 451,899 bales in October last year. Cotton on hand October 31 in consuming establishments was 1,345,749 bales compared with 715,623 a year ago, and in public storage and at compresses 4,171,474, compared with 3,777,469.

Fire virtually destroyed the Number Four machine shop of the Bethlehem Steel Company at South Bethlehem, Pa., Wednesday with an estimated loss of from \$1,000,000 to 4,000,000. The building destroyed was recently reconstructed and equipped with machinery at a cost of about \$3,000,000. Eight hundred guns among other war materials were in process of manufacture in the shop.

Discovery of the cause of and cure for pellagra was announced Thursday by the public health service. The announcement follows the recent publication of a report by Surgeon Joseph Goldberger, on a year of experiments in co-operation with Southern state health officials demonstrating the correctness of the theory that a one-sided diet lacking in protein would cause the disease, and that a well balanced diet would cure it.

Property damage amounting into hundreds of thousands of dollars, at least two persons killed and scores injured, was the result of a violent storm which swept central Kansas, South Dakota and Iowa Wednesday night.

Whiskey valued at more than \$5,000 was seized at Mobile, Ala., early Friday by the police and now is stored at the central station. The confiscated liquor, contained in cases and barrels, was brought to Mobile from New Orleans on the schooner

Oyster Plant, and was consigned to four Mobile men.

A formal order was issued Saturday by the Postoffice Department directing postmasters hereafter to refuse to accept parcel post packages for Germany, Austria and Hungary. The order was necessitated by the refusal of the steamship company which has been carrying this mail to accept it in the future.

Should the next Congress make sufficient appropriations for beginning work a great chain of inland waterways from Maine to the Gulf, North Carolina can justly feel that no State in the Union had contributed more to the success of this project.

The President-general of the Daughters of the American Revolution, Mr. William Cummings Story, has appointed Mrs. Charles Fisher Taylor, of Goldsboro, State Chairman of the D. A. R. for North Carolina.

Two highwaymen, a white and a black, threw Henry Coward, forty-five, from his wagon on a road between Gardner's cross-roads and Vanceboro, marched him blindfolded two miles, robbed him and fled, says a Kinston report. Coward had sold a quantity of cotton and had \$190 on his person, which was taken by the robbers.

That the Carolina league will remain intact was asserted Thursday by President Ellington, of the Raleigh club. Winston-Salem will be back all right, he declared, and everything points to success.

The property of the Hope Mills Manufacturing Co., consisting of four mills and 1,500 acres of land at Hope Mills, N. C., was sold at public auction Wednesday going to A. M. McCarthy, of Philadelphia, who bid \$75,000.

Beware of Cheap Substitutes
In these days of keen competition it is important that the public should see that they get Chamberlain's Cough Remedy and not take substitutes sold for the sake of extra profit. Chamberlain's Cough Remedy has stood the test and been approved for more than forty years. OBTAINABLE EVERYWHERE.

AMERICAN HOSPITAL IS OPENED AT PETROGRAD

Baron Rosen, Formerly Ambassador to U. S. Present—Two Soldiers Respond to Addresses and Thank Americans.

Petrograd, (via London), Nov. 14.—The American hospital was formally opened today, with enlarged quarters, in the presence of Baron Rosen, former Russian ambassador to the United States, and Count Nostriz, City Councilman Sangail, a patron of the institution, and George T. Marye, the American ambassador, president of the hospital, delivered addresses. Russian friends presented the hospital with a portrait of Grand Duke Alexis, the heir apparent. Two soldiers responded to the address in English and thanked the Americans for their gift of the hospital.

The hospital was organized in Octo-

ber, 1914, with twenty beds. It now has forty beds and its appointments, conveniences and equipment are models in every respect. The Americans and Russians present at the reopening of the institution heartily congratulated Ambassador Marye, Frank N. Winship, the secretary, and F. M. Corse, the treasurer, and their assistants on its splendid record.

During the first year the hospital had an income of \$15,000 entirely from American sources, and of which \$2,500 came from the United States. There were treated in the hospital 169 wounded. From the United States were received 100,000 pieces of medical supplies, which were distributed mainly among Russian hospitals. Local American women sewed 3,000 garments for soldiers and their families. Every soldier was equipped with comforts before he returned to the front. The management of the hospital has received many hearty letters of thanks from soldiers and their families.
